EXHIBIT 1

CLEARED OTC INTEREST RATE SWAPS

The following applies to the election of a fee schedule set forth below:

- Affiliates of an existing clearing member may register under either the Standard Customer Fee Schedule or the Standard IRS Clearing Member Fee Schedule. As of February 1, 2022, these accounts will no longer be eligible for the Alternate Customer Fee Schedule.
- Investment Advisors must choose a single fee schedule for all underlying registered accounts.

STANDARD CUSTOMER FEE SCHEDULE

Clearing Fee:

- Charged on all cleared trades (including new, terminations, and back-loaded transactions)¹ with the exception of activity related to multilateral compression and coupon blending which receive clearing fee waivers
- There are no transaction fees for transfers
- Clearing fees will be billed in the same currency as the swap notional, and are subject to the below schedule:

Product Maturity	Rate Per Million Notional In Currency of Product
0 – 3 months	0.25
3+ – 6 months	0.50
6+ – 12 months	1.00
1+ – 3 years	2.50
3+ – 6 years	4.50
6+ – 9 years	6.00
9+ – 12 years	8.00
12+ – 16 years	10.00
16+ – 21 years	12.50
21+ – 26 years	15.00
26+ – 31 years	17.50
31+ – 51 years	24.00

“**Product Maturity**” shall be calculated for a transaction as the lesser of

- (x) the number of full months from the clearing date for the transaction to the swap maturity date, and
- (y) the number of full months from the transaction effective date to the transaction maturity date.

¹ Customer fees are assessed on back-loaded trades the same as other trades. Back-loaded trades are eligible for rebates if the following criteria are met:

- Entire back-loaded portfolio has an aggregate gross notional equal to or greater than \$500 billion (or US Dollar equivalent);
- Customer notifies CME five (5) days in advance by contacting OTCFees@cmegroup.com;
- All back-loaded trades are submitted over a period of twenty (20) business days or less;
- Back-loaded trades result in a net increase in customer open interest during back-loading period.

Maintenance Fee:

- 2.00 per million notional, charged in the same currency as the swap notional.
- Maintenance fees are charged annually, on the anniversary date of each line item.
 - If that anniversary date is not a valid business day, then the fee will be charged on the next good business day.
 - If the swap is maturing within six months of the anniversary, maintenance fee will not be applied.
 - Maintenance fees will not be charged for trades which are terminated before the anniversary date.

Coupon Blending Fee: Participants using coupon blending services will be charged 1.00 per million notional (in the same currency as the swap) based on the trades that are submitted for blending, no charge on the remnant trades created from blending activity.

Multilateral Compression Fee: Participants using multilateral compression services will be charged 1.00 per million notional (in the currency of the product) based on the trades that are submitted for compression. Any residual trades resulting from vendor compression will not be charged clearing or compression fees.

For Non-Deliverable Swap products (BRL, INR, KRW), all four fee types will be assessed in USD using a fixed exchange rate based on the normal schedule per the below table. Beginning Q4 2022, to ensure that rates are reflective of current market conditions, the local exchange rates will be calculated on a quarterly basis. The local exchange rates will be calculated fifteen (15) days prior to each new calendar quarter. Once determined, the fixed exchange rates will remain in place for the subsequent calendar quarter. Participants will be notified of the updated rates when quarterly volume discounts (set forth below) are calculated. The local exchange rates will be published on CME's website here: <https://www.cmegroup.com/trading/interest-rates/cleared-otc-irs-customer-fees.html>.

Non-Deliverable Swaps Fixed - Exchange Rate for Fees

	Local	USD
BRL	TBD	\$1.00
KRW	TBD	\$1.00
INR	TBD	\$1.00
CLP	TBD	\$1.00
COP	TBD	\$1.00
CNY	TBD	\$1.00

Volume Discounts:

Each calendar quarter, customers may qualify to receive a fixed discount applicable to base OTC IRS fees for the following calendar quarter on the basis of the USD equivalent base fees incurred during the current quarter. The discount applicable to the following calendar quarter will be calculated on a weighted average basis using the USD equivalent base fees for the current calendar quarter and the discount percentages set forth in the table below.

- Look back period is based on calendar quarters, ending 15 days prior to the beginning of the next quarter
- New Discount percentage becomes effective on the first business day of each calendar quarter

Single Beneficial Account Owner Schedule <i>Quarterly USD or USD equivalent base fees incurred</i>	Multiple Accounts Owner Schedule <i>Quarterly USD or USD equivalent base fees incurred</i>	Discount Earned
\$0 – \$75,000	\$0 – \$225,000	0%
\$75,000 – \$150,000	\$225,000 – \$450,000	15%

\$150,000 – \$300,000	\$450,000 – \$900,000	30%
\$300,000+	\$900,000+	60%

- Single Beneficial Account Owner Schedule applies to customers with one or many accounts all with the same beneficial account owner
- Multiple Accounts schedule applies to an Investment Manager who manages many accounts with different beneficial account owners
