_____	:	

THIS MATTER having come before the Court on motion by Stephen T. Bobo, the Equity Receiver of Defendants Equity Financial Group, LLC, Tech Traders, Inc., Robert W. Shimer and others (the "Receiver") to make a distribution of \$23,400 to certain disputed claims by investors in Universe Capital Appreciation, LLC ("Universe");

THE COURT NOTING that this request was filed as an addendum to a separate motion entitled "Equity Receiver's Objections to Certain Universe Investor Claims," and that the Receiver did not file a formal motion or proposed Order for this request;

THE COURT NOTING ALSO that the equity of this distribution is unclear as these claimants have not had an opportunity to formally object to the distribution since it was

not filed as a formal motion;

THE COURT FINDING that an Order adopting the Receiver's objections to the Universe Investor Claims would not be appropriate at this time;

IT IS hereby **ORDERED** that the Receiver's request for an Order adopting the Receiver's proposed treatment of claims for the seven disputed claimants is **DENIED**.
