

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the U.S. Commodity Futures Trading Commission Customer Protection Fund as of September 30, 2016, and its net costs, changes in net position, and budgetary resources for the year then ended in conformity with general accepted accounting principles in the United States of America.

Other Information

The information in CPF's Annual Report to Congress and the Cash Flow Analysis are not a required part of the financial statements, but are supplementary information required by the Dodd-Frank Wall Street Reform and Consumer Protection Act. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of this information. However, we did not audit this information and, accordingly, we express no opinion on it.

Other Reporting Required by Government Auditing Standards

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements as of and for the year ended September 30, 2016, we considered CPF's internal control over financial reporting by obtaining an understanding of CPF's internal control, determining whether internal control had been placed in operation, assessing control risk, and performing tests of control to determine auditing procedures for the purpose of expressing our opinion on the financial statements, but not to provide an opinion on the effectiveness of CPF internal control over financial reporting. Accordingly, we do not express an opinion on CPF's internal controls over financial reporting. We limited internal control testing to those necessary to achieve the objectives described in OMB Bulletin No. 15-02. We did not test all internal control relevant to operating objectives as broadly defined by the Federal Managers' Financial Integrity Act of 1982.

Our consideration of internal control over financial reporting was for the limited purpose as described in the paragraph above and was not designed to identify all deficiencies in internal control over financial reporting that might be a control deficiency, significant deficiency, or material weakness.

A control deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatement on a timely basis. A significant deficiency is a control deficiency or a combination of control deficiencies, that adversely affects CPFs' ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the CPF's financial statements that is more than inconsequential will not be prevented or detected. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.

In our fiscal year 2016 audit, we did not identify any deficiencies in internal control over financial reporting that we considered to be a material weakness or significant deficiency, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether CPFs' fiscal year 2016 financial statements are free of material misstatements, we performed test of CPFs' compliance with certain provisions of laws and regulations, which noncompliance with could have a direct and material effect on the determination of the consolidated financial statement amounts, and certain provisions of other laws specified in OMB Bulletin 15-02. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests of compliance as described in the preceding paragraph, disclosed no instances of noncompliance or other matters that are required to be reported herein under Government Auditing Standards or OMB Bulletin No. 15-02.

This report is intended solely for the information of CPF management, OMB, and Congress. This report is not intended to be and should not be used by anyone other than these specified parties.

Notes to the Financial Statements For the Years Ended September 30, 2016 and 2015

Note 1. Summary of Significant Accounting Policies

A. Reporting Fund

The Commodity Futures Trading Commission (CFTC or the Commission) is an independent agency of the executive branch of the Federal Government. Its mission is to “protect market users and the public from fraud, manipulation, and abusive practices related to the sale of commodity futures and options, and to foster open, competitive, and financially sound commodity futures and options markets.”

On July 21, 2010, the “Dodd-Frank Wall Street Reform and Consumer Protection Act” (the Dodd-Frank Act, or the Act) was signed into law, significantly expanding the powers and responsibilities of the CFTC. According to Section 748 of the Act, there is established in the Treasury of the United States a revolving fund known as the “Commodity Futures Trading Commission Customer Protection Fund” (the Fund). The Fund shall be available to the Commission, without further appropriation or fiscal year limitation, for a) the payment of awards to whistleblowers; and b) the funding of customer education initiatives designed to help customers protect themselves against fraud or other violations of this Act or the rules and regulations thereunder.

The Act requires CFTC to transmit to the Committee on Agriculture, Nutrition and Forestry of the Senate, and the Committee on Agriculture of the House of Representatives a report which includes a complete set of audited financial statements and supplementary information, including balance sheet, income statement, and cash flow analysis, no later than October 30, of each year.

B. Basis of Presentation

The financial statements have been prepared to report the financial position and results of operations for the Fund, as required by the Dodd-Frank Act. These statements have been prepared from the Fund's books and records, which are a component of the Commission's books and records, in conformity with U.S. generally accepted accounting principles (GAAP), as prescribed for the Federal government by the Federal Accounting Standards Advisory Board (FASAB) and in accordance with the form and content requirements contained in Office of Management and Budget (OMB) Circular A-136, *Financial Reporting Requirements*, as amended.

The Fund was established in July 2010 and funded by transfers from CFTC's Civil Monetary Penalties, Fines and Administrative Fees receipt account. These transfers do not meet the criteria of reportable revenue as defined by the Statement of Federal Financial Accounting Standards (SFFAS) 7, *Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting*.

The financial statements report on the Fund's financial position, changes in net position, net cost and budgetary resources. The books and records of the Fund served as the source of information for preparing the financial statements in the prescribed formats. All Fund financial statements and reports used to monitor and control financial resources are prepared from the same books and records. The statements should be read with the understanding that they relate to a fund controlled by CFTC, a component of the U.S. Government, a sovereign entity.

The Balance Sheet presents the financial position of the Fund. The Statement of Net Cost presents the Fund's operating results. The Statement of Changes in Net Position displays the changes in the Fund's net position, and the Statement of Budgetary Resources shows the spending authority of the Fund derived from the deposits eligible from civil monetary collections.

C. Fund Balance with Treasury

Fund Balance with Treasury is the aggregate amount of the Fund's balance with the U.S. Treasury. The balance in the Fund is available to pay current liabilities and finance authorized operations.

The Fund does not maintain bank accounts of its own, has no disbursing authority, and does not maintain cash held outside of Treasury. Treasury makes disbursements for the Fund.

D. Investments in U.S. Government Securities

The CFTC has authority to invest amounts in the Customer Protection Fund in market-based U.S. Treasury securities. Market-based Treasury securities are debt securities that the U.S. Treasury issues to Federal entities without statutorily determined interest rates. Although the securities are not marketable, the terms (prices and interest rates) mirror the terms of marketable Treasury securities. Investments are carried at their historical cost basis which approximates fair value due to their short-term nature.

The interest earned on the investments is a component of the Fund and is available to be used for expenses of the Fund. Additional details regarding investments are provided in Note 3. Investments.

E. General Property, Plant and Equipment, Net

The Commission capitalizes assets annually if they have useful lives of at least two years and an individual value of \$25,000 or more. Bulk or aggregate purchases are capitalized when the individual useful lives are at least two years and the purchase is a value of \$25,000 or more. Property, plant and equipment that do not meet the capitalization criteria are expensed when acquired. Depreciation for equipment and amortization for software is computed on a straight-line basis using a 5-year life. The Commission's assets are valued net of accumulated depreciation or amortization.

As of September 30, 2016, the Commission has capitalized as software the costs for development of a website for the CFTC Whistleblower Office. Additional details regarding general property, plant, and equipment are provided in Note 4. General Property, Plant and Equipment, Net.

F. Liabilities

The Fund's liabilities consist of actual and estimated amounts that are likely to be paid as a result of transactions covered by the Whistleblower Incentives and Protection regulation, and will be paid from available balances remaining in the Fund. In addition, the salaries and operating expenses of the Whistleblower's Office and Office of Customer Education and Outreach were funded through the Fund. Total accrued payroll is composed of amounts to be paid to Fund employees as well as the related intragovernmental payable for employer contributions and payroll taxes. The accrued annual leave liability is the amount owed to employees for unused annual leave as of the end of the reporting period. At the end of each quarter, the balance in the accrued annual leave account is adjusted to reflect current balances and pay rates. Sick leave and other types of non-vested leave are expensed as taken. Liabilities totaled \$2,118,305 and \$1,197,110 as of September 30, 2016, and 2015, respectively. The Fund's liabilities are considered current liabilities.

G. Funds from Dedicated Collections

The Fund contains dedicated collections that can only be used to operate a whistleblower program and support customer education initiatives. See Note 1.A. for a description of the purpose of the Fund and its authority to use the revenues and other financing sources. Deposits into the Fund are credited from monetary sanctions collected by the Commission in covered judicial or administrative actions not otherwise distributed to victims of a violation of the Dodd-Frank Act or the rules and regulations underlying such action, unless the balance of the Fund at the time the monetary judgment is collected exceeded \$100 million. No new legislation was enacted as of September 30, 2016, that significantly changed the purpose of the dedicated collections or redirected a material portion of the accumulated balance.

H. Revenues and Other Financing Sources

The CFTC Customer Protection Fund is funded through monetary sanctions resulting from judicial or administrative action brought by the Commission under the Commodity Exchange Act. All collections are deposited into a receipt account. Eligible collections are transferred into the Fund from the CFTC's Civil Monetary Penalties, Fines and Administrative Fees receipt account.

Congress enacted the Dodd-Frank Act that provides the CFTC with the authority to establish the Fund. The Fund is available to the Commission, without further appropriation or fiscal year limitation. These funds are considered financing sources under U.S. Treasury Department guidelines. Per the Act, no sanction collected by the Commission can be deposited into the Fund if the Fund's balance exceeds \$100 million. The CFTC may request the Secretary of the Treasury to invest Fund amounts in Treasury obligations. No eligible collections were transferred during FY 2016 or FY 2015 because the Fund reached its legislative maximum during FY 2014.

I. Intra- and Inter-Agency Relationships

The CFTC is an independent Federal agency. The Commodity Futures Trading Commission Customer Protection Fund is a fund within the CFTC, and these financial statements present a segment of the CFTC financial activity. The financial events of the Fund are consolidated into the CFTC annual financial statements.

J. Use of Management Estimates

In addition to accruals for goods and services, management estimates were used to calculate overhead expenses in the amount of \$736,530 and \$386,704 that were allocated to the Fund for the years ended September 30, 2016, and 2015. For FY 2016, this amount was derived by multiplying management's estimated overhead cost per full-time equivalent (FTE) of \$49,102 times 15 FTE in the Fund. For FY 2015, this amount was derived by multiplying management's estimate overhead cost per FTE of \$48,338 times eight FTE in the Fund.

K. Limitations of the Financial Statements

The principal financial statements included in this report have been prepared to report the financial position and results of operations of the Fund, pursuant to the requirements of Section 748 of the Dodd-Frank Consumer Protection Act. While the statements have been prepared from the books and records of the CFTC in accordance with GAAP for Federal entities, these statements are in addition to the reports used to monitor and control the financial activity of the CFTC, which are prepared from the same books and records. The statements should be read with the understanding that they are for the Customer Protection Fund, a single fund within the CFTC.

L. Reclassifications

To conform to OMB Circular A-136, activity and balances reported on the FY 2015 Statement of Budgetary Resources have been reclassified to conform to the presentation in the current year.

Note 2. Fund Balance with Treasury

The Fund Balance with Treasury by type of fund and Status of Fund Balance with Treasury as of September 30, 2016, and 2015, consists of the following:

	2016	2015
Revolving Funds	\$ 5,485,412	\$ 5,593,661
TOTAL FUND BALANCE WITH TREASURY	\$ 5,485,412	\$ 5,593,661
Revolving Funds		
Unobligated Fund Balance		
Available	\$ 1,245,271	\$ 1,302,454
Obligated Balance Not Yet Disbursed	4,240,141	4,291,207
Total Revolving Funds	5,485,412	5,593,661
TOTAL FUND BALANCE WITH TREASURY	\$ 5,485,412	\$ 5,593,661

A. Reconciliation to Treasury

There are no differences between the fund balance reflected in the Fund's Balance Sheet and the balance in the Treasury account.

B. Fund Balance with Treasury

Fund Balance with Treasury consists of collections of fines and penalties not owed to harmed investors. Obligation of these funds is controlled by apportionments made by OMB. Until such funds are apportioned by OMB for use in the current period, they are unavailable to be obligated.

Note 3. Investments

The CFTC invests amounts deposited in the Fund in overnight short-term Treasury securities. Treasury overnight certificates of indebtedness are issued with a stated rate of interest to be applied to their par amount, mature on the business day immediately following their issue date, are redeemed at their par amount at maturity, and have interest payable at maturity.

The overnight certificates are Treasury securities whose interest rates or prices are determined based on the interest rates or prices of Treasury-related financial instruments issued or trading in the market, rather than on the interest rates or prices of outstanding marketable Treasury securities. The Commission may invest in other short-term or long-term Treasury securities at management's discretion.

The Commission's investments as of September 30, 2016, and 2015, were \$244 million and \$263 million, respectively. Related nonexchange interest revenue for the years ended September 30, 2016, and 2015, was \$489,668 and \$58,152, respectively.

Intragovernmental Investments in Treasury Securities

The Federal Government does not set aside assets to pay future claims or other expenditures associated with funds from dedicated collections deposited into the Customer Protection Fund. The dedicated cash receipts collected by the Commission as a result of monetary sanctions are deposited in the U.S. Treasury, which uses the cash for general Government purposes. As discussed above and in Note 1.D., the Commission invests the majority of these funds in Treasury securities. These Treasury securities are an asset of the Commission and a liability of the U.S. Treasury. Because the Commission and the U.S. Treasury are both components of the Government, these assets and liabilities offset each other from the standpoint of the Government as a whole. For this reason, the investments presented by the Commission do not represent an asset or a liability in the U.S. Government-wide financial statements.

Treasury securities provide the Commission with authority to draw upon the U.S. Treasury to pay future claims or other expenditures. When the Commission requires redemption of these securities to make expenditures, the Government finances those expenditures out of accumulated cash balances, by raising taxes or other receipts, by borrowing from the public or repaying less debt, or by curtailing other expenditures. This is the same manner in which the Government finances all expenditures.

Note 4. General Property, Plant and Equipment, Net

Property, Plant and Equipment as of September 30, 2016, and 2015, consisted of the following:

2016				
Major Class	Service Life and Method	Cost	Accumulated Amortization/ Depreciation	Net Book Value
IT Software	5 Years/Straight Line	214,824	(35,804)	179,020
		<u>\$ 214,824</u>	<u>\$ (35,804)</u>	<u>\$ 179,020</u>

2015				
Major Class	Service Life and Method	Cost	Accumulated Amortization/ Depreciation	Net Book Value
Software In Development	Not Applicable	215,859	-	215,859
		<u>\$ 215,859</u>	<u>\$ -</u>	<u>\$ 215,859</u>

Note 5. Contingencies

Unasserted claims are actions or potential actions the Commission is aware of in which future events may result in claims against the Fund.

As mentioned in Note 1.A. Reporting Fund, the Commodity Futures Trading Commission Customer Protection Fund will be used to pay awards to whistleblowers if they voluntarily provide original information to the CFTC that leads to the successful enforcement by the CFTC of a covered judicial or administrative action in which monetary sanctions exceeding \$1 million are imposed. Whistleblowers are entitled to appeal any decisions by the Commission in regards to claims made against the Fund.

In accordance with Federal accounting standards, CFTC records contingent liabilities for any unasserted claim in which payment has been deemed probable and for which the amount of potential liability can be estimated. The Commission also discloses all claims for which payment is reasonably possible.

There were no unasserted claims deemed reasonably probable and measurable, or reasonably possible, as of September 30, 2016.

Note 6. Intragovernmental Costs

The Statement of Net Cost presents the Customer Protection Fund’s results of operations for the activities to run the Whistleblower’s Office and Office of Customer Education and Outreach. Intragovernmental costs arise from the purchases of goods and services from other components of the Federal Government (including other CFTC funds). In contrast, public costs are those which arise from the purchase of goods and services from non-Federal entities. The Fund incurred \$695,091 and \$340,432 in net intragovernmental costs and \$19,856,491 and \$6,420,622 in net costs with the public for the years ended September 30, 2016, and 2015, respectively. The significant increase in costs with the public is primarily due to an \$11.5 million whistleblower award in FY 2016.
