Frequently Asked Questions

What’s new in 2021?
Effective January 3, 2021, CFTC will offer the following:
• A three-tier enrollment option, including Individual, Individual + 1, and Individual + Family
• Annual Maximum (for Classes I – III) increased from $2,000 to $3,000 per year
• Orthodontia Lifetime Maximum increased from $2,000 to $3,500 per individual

If I’m enrolled in Individual + Family coverage and have only 1 dependent, will I automatically be moved to Individual + 1 coverage?
Yes. You’ll automatically be moved to the appropriate enrollment tier for the first pay period of 2021.

How will the prior plan work with the new plan changes? For example, if I’m in the middle of a service, how will the maximum changes impact me?
The maximum charge that you’ll be responsible for will depend on the date that services were rendered. If services were received before January 3, 2021, the $2,000/$2,000 maximums will apply. If services are received on or after January 3, 2021, the $3,000/$3,500 maximums will apply.

What if I’m on a payment plan that starts in 2020 and ends in 2021. Will my payments change?
No, your payment plan will remain the same, as your services began in 2020.

What’s the benefit of a pre-treatment estimate?
A pre-treatment estimate is suggested before receiving certain complex dental services such as implants, crowns, bridges, dentures or periodontal work so that you can be aware of the dental charge in advance or understand if your treatment or service is subject to a necessary alternate benefit provision. It’s recommended that a pre-treatment estimate is done for any service that may cost over $300. Essentially, it’s like submitting a claim before the dental procedure or service has taken place so you can be aware of what level of benefits may be payable and what your out-of-pocket expense may be.

May I choose to receive services from any dental provider of my choice?
Yes, each plan member is free to visit any licensed dentist, in or out of the network, and receive benefits. However, you usually save more when you visit a participating dentist. This is because participating providers have agreed to negotiated fees that typically range from 30 – 45% below the average fees charged in a dentist’s community for similar services. Lower fees can help to stretch your annual maximums and keep final costs low. There are thousands of general dentists and specialists to choose from nationwide, so you’re sure to find one who meets your needs. To find a participating dentist, go to mybenefits.metlife.com.

Managing your dental benefits is easy!
• Our MyBenefits tool, mybenefits.metlife.com, is your secure self-service website available 24/7. You can use the site to get estimates on care or check your claim status. Or, you may call our Dental Customer Service Unit at 1-800-942-0854.
• As an eligible CFTC employee, you may enroll yourself and any eligible dependents in this CFTC dental benefit. To enroll, or to add/delete an eligible dependent, complete the MetLife Enrollment/Change Form and email it to Bob Short, in the CFTC Office of Human Resources.
• If you change your home address, please email it to Bob Short, requesting the CFTC Office of Human Resources to update that item in your MetLife record.

CFTC pays the full cost of this coverage (no bi-weekly employee contributions). For further plan details, please refer to the CFTC Dental Certificate of insurance which will reflect the complete plan information, provisions and exclusions as well as govern any discrepancies if they exist between this dental plan summary and the Certificate of Insurance.

1 Savings from enrolling in a dental benefits plan will depend on various factors, including plan design and premiums, how often participants visit the dentist and the cost of services rendered.
2 Based on internal analysis by MetLife. Negotiated fees refers to the fees that in-network dentists have agreed to accept as payment in full for covered services, subject to any co-payments, deductibles, cost sharing and benefits maximums. Negotiated fees are subject to change.
