SUPPLEMENTARY INFORMATION: On
October 30, 2012, notice was published
in the *Federal Register* (77 FR 65673)
that a request for an enhancement
permit to take shortnose sturgeon had
been submitted by the above-named
organization. The requested permit has
been issued under the authority of the
Endangered Species Act of 1973, as
amended (ESA; 16 U.S.C. 1531 *et seq.*)
and the regulations governing the
taking, importing, and exporting of
endangered and threatened species (50
CFR parts 222-226).

The Riverbanks Zoo and Garden has
been issued a permit to continue
enhancement activities previously
authorized under Permit No. 1589.
Activities include the care and
maintenance of two captive-bred, non-
releasable shortnose sturgeon. The
display is used to increase public
awareness of the shortnose sturgeon and
its status by educating the public on
shortnose sturgeon life history and the
reasons for the species decline. The
project to display endangered cultured
shortnose sturgeon responds directly to
a recommendation from the NMFS
recovery plan outline for this species.
The permit does not authorize any takes
from the wild, nor does it authorize any
release of captive sturgeon into the wild.
The permit is valid for five years.

Issuance of this permit, as required by
the ESA, was based on a finding that
such permit (1) was applied for in good
faith, (2) will not operate to the
disadvantage of such endangered or
threatened species, and (3) is consistent
with the purposes and policies set forth
in section 2 of the ESA.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for Collection
of Qualitative Feedback on Agency
Service Delivery.

Abstract: In accordance with section
748 of the Dodd-Frank Act, the OCO
anticipates undertaking a variety of
service delivery-focused activities over
the next few years which include
consumer outreach and information-
sharing with stakeholders that are
responsive to stakeholders’ needs and
sensitive to changes in the consumer
market. The proposed information
collection activity will use similar
methods for information collection or
otherwise share common elements, and
provide a means to gather qualitative
customer and stakeholder feedback in
an efficient, timely manner. By
qualitative feedback we mean
information that provides useful
information on perceptions and
opinions. The solicitation of
information on delivery of consumer
services will address such areas as
appropriate messages, effective message
delivery methods, and current consumer
beliefs, psychographics and social
norms that will assist the agency in
developing an outreach and
communications campaign designed to
change consumer behavior. Since these
systems will use similar methods for
information collection or otherwise
share common elements, the OCO is
proposing a generic clearance for this
process which will allow the OCO to
implement these systems and meet the
obligations of the PRA without the
delays of the normal clearance process.
Collection methods may include focus

¹ 17 CFR 145.9.

groups and surveys as well as other relevant collection methods that meet the conditions appropriate for a generic clearance as outlined below. The OCO will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the Commission (if released, the Commission must indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Type of Review: Generic Clearance Request.

Affected Public: Individuals and Households, Businesses and Organization, State, Local or Tribal governments.

Respondent's Obligation: Voluntary.

Estimated Number of Respondents: A preliminary estimate of aggregate burden for this generic clearance follows. Since the statutory mandate behind the OCO's consumer outreach is new, the estimate of the number of respondents is a projection and could change significantly based on the collection method ultimately used in the research.

Estimated number of Respondents/Affected Entities: 240.

Estimated average number of responses: 10 per year.

Estimated total average annual burden on respondents: 2,400 responses.

Frequency of collection: once per request.

Average minutes per response: 120.

Estimated total annual burden hours requested: 4800 hours.

Request for Comments

The Commission invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

Issued in Washington, DC, this 22nd day of January 2013, by the Commission.

Counsel to the Executive Director.
