#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Commission has long established and enforced speculative position limits for futures and options contracts on various agricultural commodities as authorized by the Commodity Exchange Act (“CEA”).<sup>1</sup> The part 150 position limits regime<sup>2</sup> generally includes three components: (1) the level of the limits, which set a threshold that restricts the number of speculative positions that a person may hold in the spot-month, individual month, and all months combined,<sup>3</sup> (2) exemptions for positions that constitute bona fide hedging transactions and certain other types of transactions,<sup>4</sup> and (3) rules to determine which accounts and positions a person must aggregate for the purpose of determining compliance with the position limit levels.<sup>5</sup> The Position Limits Proposal generally sets out proposed changes to the first and second component of the position limits regime and would establish speculative

position limits for 28 exempt and agricultural commodity futures and option contracts, and physical commodity swaps that are “economically equivalent” to such contracts (as such term is used in CEA section 4a(a)(5)).<sup>6</sup> The Aggregation Proposal generally sets out proposed changes to the third component of the position limits regime.<sup>7</sup>

In order to provide interested parties with an opportunity to comment on the Aggregation Proposal during the comment period on the Position Limits Proposal, the Commission extended the comment period for the Aggregation Proposal to February 10, 2014, the same end date as the comment period for the Position Limits Proposal.<sup>8</sup>

## II. Reopening of Comment Period

Subsequent to publication of the Position Limits Proposal and the Aggregation Proposal, the Commission directed staff to schedule a June 19, 2014, public roundtable to consider certain issues regarding position limits for physical commodity derivatives. The roundtable will focus on hedges of a physical commodity by a commercial enterprise, including gross hedging, cross-commodity hedging, anticipatory hedging, and the process for obtaining a non-enumerated exemption. Discussion will include the setting of spot month limits in physical-delivery and cash-settled contracts and a conditional spot-month limit exemption. Further, the roundtable will include discussion of: the aggregation exemption for certain ownership interests of greater than 50 percent in an owned entity; and aggregation based on substantially identical trading strategies. As well, the Commission invites comment on whether to provide parity for wheat contracts in non-spot month limits.

In light of the roundtable, the Commission is reopening the comment periods for the Position Limit Proposal and the Aggregation Proposal. Thus, both comment periods will reopen on June 12, 2014, and end on July 3, 2014.

Issued in Washington, DC, on May 22, 2014, by the Commission.

##### A. Nutrition Facts Label Proposed Rule

After the passage of the Nutrition Labeling and Education Act of 1990 (NLEA) (Pub. L. 101-535), which added section 403(q) of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 343(q)), we issued various regulations related to nutrition information on food labels, including regulations requiring the declaration of certain nutrients, regulations specifying the format for nutrition labeling, regulations setting reference values for use in declaring nutrient content for certain nutrients, and regulations exempting certain products from nutrition labeling (see 21 CFR 101.9). In addition, after the passage of the Dietary Supplement Health and Education Act of 1994 (Pub. L. 103-417), we amended our food labeling regulations to establish requirements for the nutrition labeling of dietary supplements (§ 101.9(j)(6) and 21 CFR 101.36). Section 403(q) of the FD&C Act specifies certain nutrients to be declared in nutrition labeling, and authorizes the Secretary of Health and Human Services to require other nutrients to be declared if the Secretary determines that a nutrient will provide information regarding the nutritional value of such food that will assist consumers in maintaining healthy dietary practices. The Secretary also has discretion under section 403(q) of the FD&C Act to remove, by regulation and under certain
