This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

**COMMODITY FUTURES TRADING COMMISSION**

17 CFR Parts 1, 15, 17, 19, 32, 37, 38, 140, and 150

RIN 3038–AD99; 3038–AD82

**Position Limits for Derivatives and Aggregation of Positions**

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Notice of proposed rulemaking; reopening of comment periods.

**SUMMARY:** On December 12, 2013, the Commodity Futures Trading Commission (“Commission”) published in the Federal Register a notice of proposed rulemaking (the “Position Limits Proposal”) to establish speculative position limits for 28 exempt and agricultural commodity futures and options contracts and the physical commodity swaps that are economically equivalent to such contracts. On November 15, 2013, the Commission published in the Federal Register a notice of proposed rulemaking (the “Aggregation Proposal”) to amend existing regulations setting out the Commission’s policy for aggregation under its position limits regime. On December 9, 2014, the Commission’s Agricultural Advisory Committee held a public meeting that considered, among other matters, deliverable supply and exemptions for bona fide hedging positions. In conjunction with the meeting of the Commission’s Agricultural Advisory Committee, the Commission posted questions and presentation materials on the Commission’s Web site; additionally, access to a video webcast of the meeting has been added to the Web site. To provide commenters with a sufficient period of time to respond to questions raised and points made at the Agricultural Advisory Committee meeting, the Commission opened the comment periods for an additional 45 days, from December 9, 2014 to January 22, 2015. The Commission is providing notice and clarification that, in addition to commenting on the agenda issues noted in the December 4, 2014, Federal Register release providing notice of the re-opened comment period, comments may be made on the issues addressed at the meeting or in the associated materials posted to the Commission’s Web site, as they pertain to agricultural commodities.

**DATES:** The comment periods for the Aggregation Proposal published November 15, 2013, at 78 FR 68946, and for the Position Limits Proposal published December 12, 2013, at 78 FR 75680, reopened on December 9, 2014, and will close on January 22, 2015.

**ADDRESSES:** You may submit comments, identified by RIN 3038–AD99 for the Position Limits Proposal or RIN 3038–AD82 for the Aggregation Proposal, by any of the following methods:

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Commission has long established and enforced speculative position limits for futures and options contracts on various agricultural commodities as authorized by the Commodity Exchange Act (“CEA”).1 The part 150 position limits regime generally includes three components: (1) The level of the limits, which set a threshold that restricts the number of speculative positions that a person may hold in the spot-month, individual month, and all months combined,2 (2) exemptions for positions that constitute bona fide hedging transactions and certain other types of transactions,3 and (3) rules to determine which accounts and positions a person must aggregate for the purpose of determining compliance with the position limit levels.5 The Position Limits Proposal generally sets out proposed changes to the first and second components of the position limits regime and would establish speculative position limits for 28 exempt and agricultural commodity futures and option contracts, and physical commodity swaps that are “economically equivalent” to such contracts (as such term is used in CEA section 4a(a)(5)).6 The Aggregation Proposal generally sets out proposed changes to the third component of the position limits regime.7

1 7 U.S.C. 1 et seq.
2 See 17 CFR part 150. Part 150 of the Commission’s regulations establishes federal position limits on futures and option contracts in nine enumerated agricultural commodities.
3 See 17 CFR 150.2.
4 See 17 CFR 150.3.
5 See 17 CFR 150.4.
7 See Aggregation of Positions, 78 FR 68946 (Nov. 15, 2013).
The Commission published the Position Limits Proposal and the Aggregation Proposal separately because it believes that the proposed amendments regarding aggregation of positions could be appropriate regardless of whether the Position Limits Proposal is finalized.\(^9\) If the Aggregation Proposal is finalized first, the modifications would apply to the current position limits regime for futures and option contracts on nine enumerated agricultural commodities. If the Position Limits Proposal is subsequently finalized, the modifications in the Aggregation Proposal would apply to the position limits regime for 28 exempt and agricultural commodity futures and options contracts and the physical commodity swaps that are economically equivalent to such contracts.

In order to provide interested parties with an opportunity to comment on the Aggregation Proposal during the comment period on the Position Limits Proposal, the Commission extended the comment period for the Aggregation Proposal to February 10, 2014, the same end date as the comment period for the Position Limits Proposal.\(^9\)

Subsequent to publication of the Position Limits Proposal and the Aggregation Proposal, the Commission directed staff to schedule a June 19, 2014, public roundtable to consider certain issues regarding position limits for physical commodity derivatives. The roundtable focused on hedges of a physical commodity by a commercial enterprise, including gross hedging, cross-commodity hedging, anticipatory hedging, and the process for obtaining a non-enumerated exemption. Discussion included the setting of spot month limits in physical-delivery and cash-settled contracts and a conditional spot-month limit exemption. Further, the roundtable included discussion of: The aggregation exemption for certain ownership interests of greater than 50 percent in an owned entity; and aggregation based on substantially identical trading strategies. As well, the Commission commented on whether to provide parity for wheat contracts in non-spot month limits. In conjunction with the roundtable, staff questions regarding these topics were posted on the Commission’s Web site. To provide commenters with a sufficient period of time to respond to questions raised and points made at the Agricultural Advisory Committee meeting, the Commission reopened both the Position Limit Proposal and the Aggregation Proposal for an additional 45-day comment period.\(^1\) The Commission is providing notice and clarification that, in addition to commenting on the agenda issues noted in the December 4, 2014, Federal Register release providing notice of the reopened comment period, comments may be made on the issues addressed at the meeting or in associated materials posted to the Commission’s Web site, as they pertain to agricultural commodities, including hedges of a physical commodity by a commercial enterprise; and the process for estimating deliverable supplies used in the setting of spot month limits, as each pertains to agricultural commodities.

Both comment periods reopened on December 9, 2014, and will close on January 22, 2015.

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 52**

**Approval and Promulgation of Air Quality Implementation Plans: Indiana; Minor NSR for Title V and FESOP Sources**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing approval of revisions to Indiana’s minor new source review construction permit rule. The rule applies to construction of new units or modifications of existing units at sources subject to title V and Federal enforceable state operating permit requirements. If approved, this rule will replace the previous state implementation plan (SIP) minor source construction permit rule for Indiana.
