Submitter comment: heres the biggest problem with america,gas prices are raping the american public,gas has become a bill that we all add into our monthly expenses,i feel sorry for people like myself especially who drive a v8,it takes triple amount to fill up,the economy isnt on everyones mind,until we realize and admit that the government has disguised this recession for over five years,its truly a DEPRESSION,and as long as we continue to not stand for nothing,we will continue to fall for anything,excuses such as the unrest in the middle east,is the reason were being screwed at the pump,yea right,is the middle east problems the reason why their are no jobs,homelessness,no love for the average tax paying citizen,i back our president %100 percent,but whos backing us,this is all rhetoricSubmitter IP Address:
