Washington, DC 20581

RE: Clarification and amendments to CME submission # 07-80  
CME Submission# 07-80R

Dear Mr. Stawick:

Chicago Mercantile Exchange ("CME" or "Exchange") hereby notifies the Commission of the following amendments to clarify CME Submission No. 07-80 sent on September 24, 2007 regarding the E-mini MSCI Emerging Markets Index® Futures contract.

In Submission No. 07-80, CME provided a description to explain the nature of the MSIC Emerging Markets. Subsequently, we discovered that there are certain inconsistencies of the release schedule for the final settlement price due to a typographical error. The closing spot exchange rates are provided by Reuters and are taken at 4:30 p.m. local Chicago Time. In addition, we hereby provide additional data to claim the non-narrow-based nature of the MSIC Emerging Markets Index.

The rule amendments are attached, with additions underlined and deletions bracketed and overstruck. The amended termination of trading procedure shall become effective immediately.

The Exchange certifies that these actions neither violate nor are inconsistent with any portion of the Commodity Exchange Act or of the rules thereunder.

If you require any additional information regarding this action, please do not hesitate to contact Ms. Lucy Wang, Research Analyst at 312-648-5478 or via e-mail at [lucy.wang@cmegroup.com](mailto:lucy.wang@cmegroup.com) or me. We would be appreciative if you could reference our CME Submission No. 07-80R in any related correspondence.

Sincerely,

/S/ Stephen M. Szarmack  
Director and Associate General Counsel

cc: Mr. Thomas M. Leahy, Jr.  
Mr. Steven B. Benton

## Text of Rule Amendments

(Additions are underlined, deletions are bracketed and overstruck.)

### Chapter 379

### E-mini MSCI Emerging Markets Index Futures

#### 37903.A. Final Settlement Price

The final settlement price shall be the official closing index level of the MSCI Emerging Markets Index calculated by MSCI, rounded to the nearest 1/100th of an index point. This value shall be based on the closing prices of the stocks at their respective primary exchanges on the third Friday of the contract month. Closing prices shall be converted from local currency to U.S. Dollars based on the spot exchange rate provided by Reuters at [~~5:30 p.m.~~] 4:30 p.m. Chicago time on the day of the final settlement price calculation.

If a component stock in the index does not trade on the day scheduled for determination of the Final Settlement Price while the primary market for that stock is open for trading, the price of that stock shall be determined, for the purposes of calculating the Final Settlement Price, based on the most recent closing price of that stock.

If one or more primary exchange(s) are not scheduled to be open for trading on the day of the final settlement calculation, the prices of those stocks shall be based on the most recent closing prices. All closing prices will be converted from local currency to U.S. Dollars based on the spot exchange rate provided by Reuters at [~~5:30 p.m.~~] 4:30 p.m. Chicago time on the day of final settlement price calculation.

In the event of an unscheduled close of one or more primary exchange(s) due to unforeseen circumstances, MSCI will use the most recent available prices for the purposes of calculating the Final Settlement Price. All prices will be converted from local currency to U.S. Dollars based on the spot exchange rate provided by Reuters at [~~5:30 p.m.~~] 4:30 p.m. Chicago time on the day of final settlement price calculation.
