RULES OF HEDGESTREET NORTH AMERICAN DERIVATIVES EXCHANGE, INC.

INTRODUCTION

The Commodity Exchange Act ("CEA") requires that HedgeStreet North American Derivatives Exchange, Inc. ("Nadex") and other contract markets and derivatives clearing organizations adopt rules governing the way they conduct their business. Those rules generally must be filed with the Commodity Futures Trading Commission ("Commission") and generally cannot be amended without giving notice to the Commission, which can reject proposed rules and proposed amendments to existing rules. The following rules are the rules of HedgeStreet Nadex ("Rules") that inform you of how the HedgeStreet Nadex market (the "Market") operates and of your rights and obligations as a Member of the Market. Please remember that these Rules may be amended in the future, and if they are amended, Members will be required to abide by the Rules as amended. HedgeStreet Nadex will notify all Members any time there is an amendment to the Rules.

CHAPTER 1 DEFINITIONS

RULE 1.1 DEFINITIONS

When used in these Rules:

(a) "**Binary Hedgelet Contract**" means the right to receive a fixed Settlement Value per contract, from HedgeStreet Nadex on the Settlement Date dependent upon whether you are holding a long position or short position in a Binary Hedgelet Contract. If you are holding a long position in a Binary Hedgelet Contract, you have the right to receive a fixed Settlement Value from HedgeStreet Nadex on the Settlement Date, if, and only if, the Binary Contract's Payout Criteria encompasses the Expiration Value at Expiration. Conversely, if you are holding a short position in a Binary Hedgelet Contract, you have the right to receive a fixed Settlement Value if, and only if, the Binary Contract's Payout Criteria does NOT encompass the Expiration Value at Expiration.

(b) "**Cap**" means the maximum rate, level, amount, measure or other value of the Underlying of a Variable Payout Hedgelet Contract that may be the Expiration Value or the Closing Trade Value. If the actual rate, level, amount, measure, or other value of the Underlying meets or exceeds the Cap on the Expiration Date, the Cap will be the Expiration Value.

(c) "**Class**" means all Hedgelets Contracts of the same Type with the same Underlying.

HedgeStreet. EXCHANGE

(e) "**Dollar Multiplier**" means the monetary amount by which the rate, level, amount, measure, or other value of an Underlying of a Variable Payout Hedgelet Contract is multiplied to determine the Settlement Value.

(f) "**Expiration**" or "**Expiration Date**" means the date established by these Rules on which the Expiration Value of each Hedgelet Contract is determined.

(g) "**Expiration Value**" means the rate, level, amount, measure, or other value of the Underlying at Expiration.

(h) "**Financial Institution**" means a financial institution as that term is defined in 31 CFR 103.11(n) that is required to comply with the regulations issued by the United States Department of Treasury under the Bank Secrecy Act including, but not limited to, the anti-money laundering program and customer identification program rules.

(i) "**Floor**" means the minimum rate, level, amount, measure, or other value of the Underlying of a Variable Payout Hedgelet Contract that may be the Expiration Value or the Closing Trade Value. If the actual rate, level, amount, measure or other value of the Underlying meets or falls below the Floor on the Expiration Date, the Floor will be the Expiration Value.

(j) "~~Hedgelet Contract,~~" "~~Hedgelet,~~" or "**Contract**" means a Variable Payout Hedgelet Contract or a Binary Hedgelet Contract.

(k) "**Last Trading Day**" means the last date on which a Member may trade a Contract on the Market.

(l) "**Long Variable Payout Hedgelet Contract**" means (i) the right to receive at the time the Contract is closed or on the Settlement Date any positive number resulting from subtracting the Opening Trade Value from (A) the Closing Trade Value, if the Variable Payout Hedgelet Contract was closed by an offsetting transaction before Expiration, or (B) the Expiration Value, if the Variable Payout Hedgelet Contract was held to Expiration, and then multiplying the resulting figure by the Dollar Multiplier and (ii) the obligation to pay at the time the contract is closed or on the Settlement Date any positive number resulting from subtracting from the Opening Trade Value (A) the Closing Trade Value, if the Variable Payout Hedgelet Contract was closed by an offsetting transaction before Expiration, or (B) the Expiration Value, if the Variable Payout Hedgelet Contract was held to Expiration, and then multiplying the resulting figure by the Dollar Multiplier.

(m) "**Market Maker**" means a Member that is granted the privileges in exchange for assuming certain responsibilities as set forth in Chapter 4 of these Rules for the purpose of creating liquidity for certain Classes of Contracts.

The holder of a long or short position in a Hedgelet Contract that receives a Settlement Value is considered to be "in-the-money" while the holder of either a long or short position in a Hedgelet Contract that does NOT receive a Settlement Value is considered to be "out-of-the-money".

RULE 2.2 RESTRICTIONS ON WHO MAY BE MEMBERS OF THE BOARD, MEMBERS OF DISCIPLINARY COMMITTEES, MEMBERS OF ARBITRATION OR OVERSIGHT PANELS, OR TEN PERCENT OR GREATER OWNERS

Commission Regulation 1.63 prohibits certain individuals who have been charged with, or have been found to have committed, disciplinary offenses (as defined in that section) within the past three years

HedgeStreet. EXCHANGE

from serving. No individual subject to disqualification under Commission Regulation 1.63(b) may serve on the HedgeStreetNadex board of directors, any of its disciplinary committees (including serving as compliance officer or hearing officer), oversight panels, or arbitration panels. Additionally, HedgeStreetNadex will not permit any individual subject to disqualification under Commission Regulation 1.63(b) to own 10% or more of HedgeStreetNadex or to serve as a HedgeStreetNadex hearing officer.

RULE 2.3 OFFICERS OF HEDGESTREETNADEX

(a) HedgeStreetNadex has a five member board of directors elected by a majority vote of all shareholders of HedgeStreetNadex. Each director serves a one year term. Each director, including a director elected to fill a vacancy, shall hold office until his successor is elected and qualified or until his earlier resignation or removal.

(b) HedgeStreetNadex has a chief executive officer, chief operating officer, secretary, treasurer, and chief regulatory officer (collectively, the "Management Team"). These officers are appointed and may be dismissed (with or without cause) by majority vote of the board of directors or the shareholders.

(c) The chief executive officer of HedgeStreetNadex must be a member of the board of directors. In the absence of the chairman, the chief executive officer will perform the chairman's duties. RULE 2.4 EMERGENCY RULES

(a) HedgeStreetNadex may adopt emergency Rules in response to the emergencies that are described in paragraph (c) of this Rule. In the event of one of those emergencies, the board of directors or at least two members of the Management Team may, without giving prior notice to, or securing prior approval from, the Commission, adopt a temporary emergency rule to address the emergency. Adoption of a temporary emergency rule by the board of directors requires the affirmative vote of two-thirds of the members of the board at a meeting of the board at which a quorum is present. HedgeStreetNadex may count a member of the board of directors who abstains from voting on a temporary emergency rule to determine whether a quorum exists. Adoption of a temporary emergency rule by the management team requires the written authorization and acknowledgement of two members of the management team, indicating the emergency action to be taken and the reasons for that action, before the action is taken.

(b) Any temporary emergency rule adopted under this Rule may authorize HedgeStreetNadex to act as the board of directors or management team deems necessary or appropriate to meet the emergency, and those actions may adversely affect the ability to trade on the Market. Therefore, the chance of an emergency is one of the risks that market participants should consider when deciding whether to trade on the Market.

(c) For the purposes of this Rule, an "emergency" is:

- (i) any activity that manipulates or attempts to manipulate the Market;
- (ii) any actual, attempted, or threatened corner, squeeze, or undue concentration of positions;
- (iii) any circumstance that may materially affect the performance of the Contracts traded on, HedgeStreetNadex;
- (iv) any action taken by the United States, any foreign government, any state or local governmental body, any other contract market or board of trade, or any other exchange, market, facility, or trade association (foreign or domestic) that may have a direct impact on trading on HedgeStreetNadex;
- (v) any circumstances that may have a severe, adverse impact upon the physical functions of HedgeStreetNadex including, for example, natural disasters such as fire or flood, terrorist acts such as bomb threats, physical plant breakdowns such as plumbing, heating, or air conditioning problems, system breakdowns such as power, telephony, cable, trading systems, or computer systems failures or interruptions to communications, the network, or the Internet;
- (vi) the imposition of any injunction or other restraint by any government agency, court, or arbitrator that may affect the ability of a Member to perform on Contracts;

HedgeStreet. EXCHANGE

(vii) any circumstance in which it appears that a HedgeStreetNadex Member or any other person is in such operational condition, or is conducting business in such a manner, that such person cannot be permitted to continue in business without jeopardizing the safety of HedgeStreetNadex Members or HedgeStreetNadex itself; and

(viii) any other unusual, unforeseeable, and adverse circumstance which, in the opinion of the governing board, requires immediate action and threatens or may threaten such things as the fair and orderly trading in, or the liquidation of or delivery pursuant to Contracts traded on HedgeStreetNadex.

(d) If deemed necessary to combat perceived market threats caused by an emergency, a HedgeStreetNadex official authorized to do so may suspend trading on the Market during the duration of the emergency or take any other action that the official thinks is necessary or appropriate. The official will order an end to the action taken in response to the emergency as soon as the official determines that the emergency has sufficiently abated to permit the Market to function properly.

(e) HedgeStreetNadex will make every effort practicable to notify the Director of the Division of Market Oversight, his delegates, and/or other persons designated by the Commission's Regulations that HedgeStreetNadex intends to implement, modify, or terminate a temporary emergency rule pursuant to Rule 2.4(a) or an action in response to an emergency pursuant to Rule 2.4(d) prior to the implementation, modification, or termination of the rule or action. If it is not possible to notify the Commission prior to the implementation, modification, or termination of the rule or action, HedgeStreetNadex will notify the Commission of the implementation, modification, or termination of the rule or action at the earliest possible time, and in no event more than 24 hours after implementation, modification, or termination.

(f) Any time that HedgeStreetNadex takes action in response to an emergency, either under Rule 2.4(a) or Rule 2.4(d), HedgeStreetNadex will document its decision-making process and reasons for taking emergency action.

RULE 2.5 COMMITTEES AND SUBCOMMITTEES

(a) The HedgeStreetNadex board of directors may create, appoint members of the board to serve on, and delegate powers to, committees and subcommittees.

(b) A majority of any committee or subcommittee will constitute a quorum, and a majority of a quorum is necessary for committee or subcommittee action. A committee or subcommittee may act by unanimous consent in writing, including by electronic mail, without a meeting.

(c) HedgeStreetNadex's board of directors shall appoint a Regulatory Oversight Committee comprised of board members who are "public directors" as defined in the Acceptable Practices under Core Principle 15 in Commission Regulation Part 38, Appendix B. The ROC shall oversee HedgeStreetNadex's regulatory program on behalf of the board. The board shall delegate sufficient

HedgeStreet. EXCHANGE

authority, dedicate sufficient resources, and allow sufficient time for the ROC to fulfill its mandate. The ROC shall:

- (i) Monitor HedgeStreetNadex's regulatory program for sufficiency, effectiveness, and independence;
- (ii) Oversee all facets of the program, including trade practice and market surveillance; audits, examinations, and other regulatory responsibilities; and the conduct of investigations;
- (iii) Review the size and allocation of the regulatory budget and resources; and the number, hiring and termination, and compensation of regulatory personnel;
- (iv) Supervise HedgeStreetNadex's chief regulatory officer, who will report directly to the ROC;
- (v) Prepare an annual report assessing HedgeStreetNadex's self-regulatory program for the board of directors and the Commission, which sets forth the regulatory program's expenses, describes its staffing and structure, catalogues disciplinary actions taken during the year, and reviews the performance of disciplinary committees and panels;
- (vi) Recommend changes that would ensure fair, vigorous, and effective regulation; and
- (vii) Review significant regulatory proposals and advise the board as to whether and how such changes may impact regulation.

RULE 2.6 VOTING BY INTERESTED BOARD MEMBERS

Core Principle 15 of Section 5(d) of the CEA requires that contract markets have adequate procedures to prevent conflicts of interest. In this regard, HedgeStreetNadex has adopted provisions of Commission Regulation 1.69 as a Rule of HedgeStreetNadex. Commission Regulation 1.69 prohibits a member of the HedgeStreetNadex board of directors or any disciplinary or oversight committee or subcommittee from taking part in any deliberations or voting on any matter in which the board, committee, or subcommittee member has an interest or has a relationship with a named party in interest. Regulation 1.69 also requires disclosure by board, committee, or subcommittee members of interests and relationships in certain circumstances. HedgeStreetNadex board, committee, and subcommittee members shall not deliberate or vote on any matter in which the board, committee, or subcommittee member has an interest or has a relationship with a named party in interest and shall disclose such interests in accordance with Regulation 1.69. See also Chapter 11 of these Rules.

RULE 2.7 INDEMNIFICATION OF DIRECTORS, OFFICERS, AND OTHERS

HedgeStreetNadex will indemnify to the full extent authorized by law any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative in nature, by reason of the fact that such person is or was a director, officer, employee, or agent of HedgeStreetNadex or is or was serving at the request of HedgeStreetNadex as a director, officer, employee, or agent of HedgeStreetNadex against expenses, including attorneys' fees, judgments, fines, and amounts paid in connection with such action, suit, or proceeding. Such indemnification shall not be deemed exclusive of any other rights to which a person may be entitled under any agreement or as a matter of law or otherwise. HedgeStreetNadex may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee, or agent of HedgeStreetNadex against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not HedgeStreetNadex would have the power to indemnify such person against such liability under the provisions of this Rule. However, no person shall be indemnified from liability for fraud, bad faith, willful misconduct, or gross negligence. Further, no person shall be indemnified against a civil penalty imposed by the Commission under Section 6b of the CEA.

RULE 2.8 PROHIBITION ON USE OF MATERIAL, NON-PUBLIC INFORMATION

(a) Commission Regulation 1.59 prohibits employees and members of the board of directors of HedgeStreetNadex from using or disclosing material, non-public information gained through their employment or board service in certain circumstances. This Rule prohibits the use and disclosure forbidden by Commission Regulation 1.59. In this regard, HedgeStreetNadex has adopted provisions of Regulation 1.59 as a Rule of HedgeStreetNadex in Chapter 11 of these Rules.

(b) No member of the board of directors or any committee established by the board of directors or these Rules will use or disclose material, non-public information obtained as a result of participation on the board of directors or such committee for any purpose other than the performance of official duties as a board or committee member.

(c) No employee, consultant, or member of the board of directors or any committee of HedgeStreetNadex will disclose to any other person material, nonpublic information obtained as a result of such person's employment for purposes inconsistent with such person's official duties.

(d) No employee, consultant, or member of the board of directors or any committee of HedgeStreetNadex will trade for such person's account, or for or on behalf of any other account, in any commodity interest on the basis of any material, non-public information obtained through special access related to the performance of such person's duties as an employee, consultant, or member of the board of directors or committee.

(e) For purposes of this Rule, the terms "material information," "non-public information," "linked exchange", "commodity interest," and "related commodity interest" have the same meanings as they do in Commission Regulation 1.59.

HedgeStreet. EXCHANGE

(f) Any director, officer, or employee of HedgeStreetNadex who violates any provision of this Rule will be required to indemnify HedgeStreetNadex for any losses, damages, or costs caused by that violation.

Except for any duly authorized Market Maker, no affiliate of HedgeStreetNadex nor any employee thereof may trade on any HedgeStreetNadex Market for such affiliate's or employee's own account.

A person may be conditionally approved as an authorized representative of a Market Maker subject to any conditions HedgeStreetNadex may consider appropriate in the interests of promoting a fair and orderly market.

(c) HedgeStreetNadex may withdraw or suspend the registration of any authorized representative of any Market Maker if HedgeStreetNadex determines that;

(i) an authorized representative has caused the Market Maker to fail to comply with the Rules of HedgeStreetNadex;

(ii) an authorized representative is not properly performing the responsibilities of an authorized representative of a Market Maker;

HedgeStreet. EXCHANGE

(iii) an authorized representative has failed to comply with the conditions set forth in paragraph (b) of this Rule; or

(iv) it is in the best interests of maintaining a fair and orderly market to do so.

(d) If HedgeStreetNadex suspends the registration of any authorized representative, the Market Maker must ensure that the suspended authorized representative or representatives do not submit any quotes or orders into the HedgeStreetNadex system.

(e) The registration of an authorized representative will be withdrawn upon the written request of the Market Maker for which an authorized representative is registered. Such written request shall be submitted in a manner prescribed by HedgeStreetNadex. Until such written request is received, or an authorized representative's registration is suspended or withdrawn pursuant to paragraph (c) of this Rule, a Market Maker will be responsible for all order entry and trading activity of such authorized representative(s).

RULE 4.3 APPOINTMENT OF MARKET MAKERS

(a) HedgeStreetNadex shall appoint Market Makers to certain Classes of Contracts ("Designated Classes") traded on HedgeStreetNadex. In making such appointments, HedgeStreetNadex shall consider (i) the financial resources available to the Market Maker, and (ii) the Market Maker's experience in market making in futures, options and other derivative products.

(b) No appointment of a Market Maker to a Designated Class shall be made without the Market Maker's consent to such appointment, provided that refusal to accept appointment to a Designated Class may be deemed sufficient cause for denial, suspension, or termination of registration as a Market Maker.

(c) HedgeStreetNadex may suspend or terminate any appointment of a Market Maker to a Designated Class and may appoint more than one Market Maker to the same Designated Class.

(d) HedgeStreetNadex may periodically conduct an evaluation of any Market Maker to determine whether it has fulfilled performance standards relating to, among other things, quality of the markets, competitive market making, observance of ethical standards, and administrative soundness. If the Market Maker fails to meet minimum performance standards, HedgeStreetNadex may, among other things, (i) suspend, terminate or restrict the Market Maker's appointment to a particular Designated Class, (ii) restrict the Market Maker from appointments to additional Designated Class(es), and (iii) suspend, terminate or restrict the Market Maker's registration as such.

RULE 4.4 BENEFITS OF BECOMING A MARKET MAKER

(a) Market Makers will have access to HedgeStreetNadex via the FIX gateway for an additional fee to be determined by HedgeStreetNadex on a case-by-case basis. HedgeStreetNadex will provide a guaranteed throughput per day with a specified peak amount of orders that may be traded per second to all Market Makers.

HedgeStreet. EXCHANGE

(b) Market Makers shall receive reduced trading fees as an incentive for fulfilling the obligations of a market maker.

(c) Market Makers shall have access to a designated group of operational specialists at HedgeStreetNadex who handle issues relating to Market Makers.

RULE 4.5 OBLIGATIONS OF MARKET MAKERS

(a) General – Transactions of Market Makers should constitute a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and Market Makers shall not make bids or offers or enter into transactions that are inconsistent with such a course of dealings. Ordinarily, Market Makers shall be obligated to do the following:

(i) trade for the proprietary account of the market maker only – customer accounts may not be traded on HedgeStreetNadex.

(ii) maintain two-sided displayed quotes at a predefined spread (“Spread”) for a Series of Contracts for a certain period of time throughout the trading day. In ordinary market conditions, quotes must be made within a maximum Spread. This Spread will be set at the time a Series is opened for trading and will be set in accordance with the maximum loss a Market Maker may incur by quoting within the Spread. In fast market conditions, Market Makers will be permitted to widen their Spreads to a level that will be set at the time a Series is opened for trading.

(b) A Market Maker has a continuous obligation to engage, to a reasonable degree under the existing circumstances, in dealings for the account of the Market Maker when there exists, or it is reasonably anticipated that there will exist, a lack of price continuity or a temporary disparity between the supply of and demand for quotations in a Series of a Designated Class to which the Market Maker is appointed. Without limiting the foregoing, a Market Maker is expected to perform the following activities in the course of maintaining a fair and orderly market;

(i) To post bid and ask quotations in all Designated Classes to which the Market Maker is appointed that, absent changed market conditions, will be honored by the Market Maker.

(ii) To update quotations in response to changed market conditions in all Designated Classes to which the Market Maker is appointed

(c) Like other Members of HedgeStreetNadex, a Market Maker may not place an order unless it has the funds in its HedgeStreetNadex account necessary to fulfill its obligations under that order.

CHAPTER 5 METHOD FOR MEMBERS TO TRADE ~~HEDGELET~~ CONTRACTS

RULE 5.1 PRIOR REVIEW OF RISK DISCLOSURE STATEMENT AND THESE RULES AND ACCEPTANCE OF TERMS OF MEMBERSHIP AGREEMENT IS REQUIRED

You may not trade any ~~Hedgelet~~ Contracts on the Market until you have received, read, understood, and accepted the HedgeStreetNadex Risk Disclosure Statement, these Rules, and the HedgeStreetNadex membership agreement, and have certified that you have done so.

RULE 5.2 ACCESS TO ~~HEDGESTREETNADEX~~

(a) During the HedgeStreetNadex membership application process, you will be required to choose a user identification ("ID") and password. You will be required to enter the ID and password to log onto and access secure portions of the HedgeStreetNadex website. Each time you submit your unique user ID and password to HedgeStreetNadex to log onto HedgeStreetNadex, you affirm that you understand and agree to be bound by these Rules and other policies of HedgeStreetNadex, as amended.

(b) After your membership application has been approved by HedgeStreetNadex and you have deposited the requisite amount of funds into your account as specified under Rule 3.1(b), you become a Member. As a Member, you will be able to access the Market, execute trades, and otherwise access information regarding, or perform functions in, your account using your ID and unique password.

(c) For account security and audit trail purposes, HedgeStreetNadex will maintain logs of your IP address when you are logged into the HedgeStreetNadex website.

(d) You will be responsible for protecting your ID and password from improper disclosure, and you may not knowingly or negligently permit any person not authorized by HedgeStreetNadex and by you to use your ID and password to access the secure portion of the HedgeStreetNadex website. You are required to immediately notify HedgeStreetNadex if you know, or if you have reason to believe, that your ID and/or password have been disclosed to any person not authorized by HedgeStreetNadex and you to use your ID and/or password. You will have reason to believe that your ID and/or password have been disclosed to an unauthorized person 12 hours after a trade is executed by that person in your account

(e) You will be liable for all costs and any losses that you may incur from transactions executed on HedgeStreetNadex by any person, authorized or not, using your ID and password. HedgeStreetNadex will not be responsible in any way for unauthorized transactions in your account.

(f) You are responsible for contracting with an Internet service provider through which you will access the HedgeStreetNadex website and for having a backup service provider if you think it is necessary. You are also responsible for maintaining an Internet connection speed adequate for your needs. HedgeStreetNadex will not be responsible in any way for any orders delayed or trades missed or not executed in a timely fashion because of failure of your Internet service provider or slowness of your

HedgeStreet. EXCHANGE

Internet connection speed. No communication from you will be deemed to have been received by HedgeStreetNadex until that communication is logged by the HedgeStreetNadex server.

RULE 5.3 TRADING CONTRACTS

(a) You will be able to trade Variable Payout ~~Hedgelet~~ Contracts by entering bids or offers based on the values or levels of the Underlying at which you are willing to open a Long Variable Payout ~~Hedgelet~~ Contract or a Short Variable Payout ~~Hedgelet~~ Contract and Binary ~~Hedgelet~~ Contracts by entering bids to purchase or offers to sell those Contracts at which you are willing to open or close a long position in a Binary Contract or open or close a short position in a Binary Contract. After logging into the secure portion of the HedgeStreetNadex website, you will input your orders into the HedgeStreetNadex trading system.

(b) When your order is matched by an order from another Member(s);

(i) If your order is to enter into one or more Variable Payout ~~Hedgelet~~ Contracts for which you do not have an offsetting position in your account, HedgeStreetNadex will check your account to ensure you have enough funds to cover your maximum loss under the Variable Payout ~~Hedgelet~~ Contract(s) you are attempting to enter into. If you do not have the necessary funds in your account, HedgeStreetNadex will cancel your order prior to trade execution. If you do have the necessary funds in your account, HedgeStreetNadex will execute the trade. Upon trade execution, HedgeStreetNadex will: (1) debit the funds from your account in an amount necessary to cover the maximum loss, (2) credited to the HedgeStreetNadex settlement account, and (3) place the Variable Payout ~~Hedgelet~~ Contracts that were the subject of the order into your account and notify you by electronic mail that the trade has been executed. The maximum amount that you can lose under a Long Variable Payout ~~Hedgelet~~ Contract (and, therefore, the amount that will be debited from your account and then paid into the HedgeStreetNadex settlement account) is determined by subtracting the Floor from the Opening Trade Value and then multiplying the resulting figure by the Dollar Multiplier. The maximum amount that you can lose under a Short Variable Payout ~~Hedgelet~~ Contract is determined by subtracting the Opening Trade Value from the Cap and then multiplying the resulting figure by the Dollar Multiplier.

(ii) If the transaction involves entering into one or more Variable Payout ~~Hedgelet~~ Contracts for which you have an offsetting position in your account (for example, entering into a Short Variable Payout ~~Hedgelet~~ Contract of a Series when you have a Long Variable Payout ~~Hedgelet~~ Contract of that same Series in your account), upon execution of the trade HedgeStreetNadex will: (1) close the offsetting position in your account; (2) debit the HedgeStreetNadex settlement account in the amount of (A) any gains realized by the offsetting transaction; and (B) any funds that were debited from your account at the time the Variable Payout ~~Hedgelet~~ Contract(s) that is being closed was entered into and that were not also used to pay any losses on such Contract(s); (3) credit those amounts to your account; and (4) notify you by electronic mail that the trade has been executed.

HedgeStreet. EXCHANGE

(iii) If your order is to enter into one or more Binary Hedgelet Contracts for which you do not have an offsetting position in your account, HedgeStreetNadex will check your account to ensure you have enough funds to cover your maximum loss under the Binary Contract(s) you are attempting to enter into. If you do not have the necessary funds in your account, HedgeStreetNadex will cancel your order prior to trade execution. If you do have the necessary funds in your account, HedgeStreetNadex will execute the trade. Upon trade execution, HedgeStreetNadex will: (1) debit the funds from your account in an amount necessary to cover the maximum loss, (2) credit those funds to the HedgeStreetNadex settlement account, and (3) place the Binary Hedgelet Contracts that were the subject of the order into your account and notify you by electronic mail that the trade has been executed. The maximum amount that you can lose under a long position in a Binary Contract (and, therefore, the amount that will be debited from your account and then paid into the HedgeStreetNadex settlement account) is determined by the price at which you entered into the long Binary Contract. The maximum amount that you can lose under a short position in a Binary Contract is determined by subtracting the price at which you sold the position short from \$10. For example, if you enter into a short Binary position to open at \$4, your maximum loss on that position would be \$6 ($\$10 - \$4 = \6).

(iv) If the transaction involves entering into one or more Binary Contracts for which you have an offsetting position in your account (for example, selling a position in a Binary Contract of a Series when you are long a Binary Contract of that same Series in your account), upon execution of the trade HedgeStreetNadex will: (1) close the offsetting position in your account; (2) debit the HedgeStreetNadex settlement account in the amount of (A) any gains realized by the offsetting transaction; and (B) any funds that were debited from your account at the time the Binary Hedgelet Contract(s) that is being closed was entered into and that were not also used to pay any losses on such Contract(s); (3) credit those amounts to your account; and (4) notify you by electronic mail that the trade has been executed.

(c) If your order is placed on the market and not immediately matched by an order from another Member, it will rest on the market until it is matched and executed in accordance with the procedures outlined above in this Rule, until you cancel it, or until it is cancelled by HedgeStreetNadex upon the Expiration of the Series or otherwise in accordance with these Rules.

RULE 5.4 ORDER ENTRY

(a) You will enter orders to trade Contracts by electronic transmission over the Internet, and HedgeStreetNadex will maintain an electronic record of your order entries.

(b) You will enter an order to trade one or more Contracts by indicating to HedgeStreetNadex in the manner required by HedgeStreetNadex: (i) order type (i.e., buy or sell); (ii) the Series of Contract; (iii) the price at which you want to buy or sell the Contract; and (iv) the number of Contracts you want to buy or sell.

HedgeStreet. EXCHANGE

(c) Upon entry of an order to trade one or more Contracts, you will be required to confirm the order before it is sent to HedgeStreetNadex. Once the order is accepted by HedgeStreetNadex, HedgeStreetNadex will assign to your order an order confirmation number. This confirmation number will appear next to the associated order on your Order and Order History account pages. You will be responsible for any and all order entries confirmed for your account and accepted by HedgeStreetNadex.

(d) HedgeStreetNadex's trading system will keep an electronic record of all orders to trade Contracts, and all executed Contract trades. The records kept by HedgeStreetNadex will include all of the terms identified in paragraphs (b) - (c) of this Rule as well as the date and time that the transaction was completed to the nearest tenth of a second, for all executed Contract trades and to the nearest second for all orders to trade Contracts.

RULE 5.5 DISPUTED ORDERS

(a) If you believe that an order to trade one or more Contracts was incorrectly executed or rejected by HedgeStreetNadex you may request review of the order by providing the confirmation number for the order and stating the grounds for your disagreement with the handling of the order.

(b) Upon receipt of a request for review of an order and the accompanying confirmation number, HedgeStreetNadex will review its electronic audit trail to determine if the HedgeStreetNadex trading system correctly interpreted and executed your order.

(c) If the review described in paragraph (b) of this Rule reveals that the HedgeStreetNadex trading system made a mistake, the order will be cancelled and the accounts of all Members that were party to the order will be returned to their state before the trade was executed.

(d) If the review described in paragraph (b) of this Rule reveals that the HedgeStreetNadex trading system did not make a mistake, HedgeStreetNadex will inform you of its determination that the order was properly handled, the evidence supporting that determination, and that an adjustment will not be made.

(e) You may appeal a determination under paragraph (d) of this Rule to a HedgeStreetNadex compliance officer through the electronic mail address provided on the HedgeStreetNadex website. You will be required to provide a response to the evidence described in paragraph (d) of this Rule that the order was properly handled, and you may provide any other information you wish to disclose. If your appeal does not contain a response to the evidence described in paragraph (d), it will be rejected. The compliance officer will decide your appeal no later than 10 days after its receipt, and that decision will be final.

(f) HedgeStreetNadex will document in writing all requests for review of orders received by HedgeStreetNadex, the time and manner in which HedgeStreetNadex reviewed its electronic audit trail in response to the request, the outcome of that review, and the action or actions taken by HedgeStreetNadex in response to that review, including the results of any appeal filed under paragraph (e) of this Rule and the review conducted by the compliance officer in deciding that appeal.

HedgeStreet. EXCHANGE

RULE 5.6 ACCEPTABLE ORDERS

(a) You may only enter limit orders to trade Contracts on the Market.

(b) For the purpose of this Rule, a "limit order" is an order to buy or sell the number of Contracts you specify at the price you specify, or a better price if a better price is available.

RULE 5.7 PRIORITY OF ORDERS

The Market's trading algorithms execute all trades by matching orders according first by price and then time priority. This means that orders entered at different prices will be executed in order of price, from best to worst, regardless of what time they were placed on the Market, and orders placed on the Market at the same price will be executed in order of time, from oldest to most recent.

RULE 5.8 FILLING ORDERS TO TRADE CONTRACTS

The HedgeStreetNadex trading system will fill all orders to trade Contracts on an "or better" basis. This means that if you place an order to buy a Contract or Contracts at a price higher than the price of the best sell offer on the market, the system will fill your order at the better sell offer price(s) until all available sell offers under or equal to your limit price are filled or until your buy order is completely filled. Likewise, if you enter a sell order at a price lower than the price of the best buy offer, the system will fill your order at the better buy offer price(s) until all available buy offers over your limit price are filled or your sell order is completely filled. If your order is only partially filled, the unfilled portion of your order will be placed in the order book as a resting order at the limit price you specified. Should a better order subsequently be placed in the system, the unfilled portion of your original order will be executed at its limit price.

RULE 5.9 MODIFICATION AND CANCELLATION OF ORDERS

(a) You can either cancel or modify an order you have placed on the Market if it has not yet been executed. All your pending orders will be listed on your account page. To modify a pending order, select the order to be changed and, using the prompts, (1) cancel the order, (2) modify the order, or (3) leave the order unchanged. If you choose to cancel the order and the order has not been executed, the HedgeStreetNadex system will withdraw the order from the order book and confirm the cancellation of the order. If you choose to amend the order, you will be shown the details of the existing order and be allowed to change any part of the order except the Underlying. You will then be given a new order confirmation number and be informed that the system will treat the modified order as a new order, causing the amended order to lose its original time priority.

(b) HedgeStreetNadex will attempt to modify or cancel your order as soon as possible after you enter a modification or cancellation order. However, the order may be executed before HedgeStreetNadex is able to cancel or modify it. If your order has been filled in whole or in part, you may modify or cancel only that portion of the order (if any) that has not been executed.

RULE 5.10 VIEWING THE MARKET AND EXECUTED ORDERS

HedgeStreet. EXCHANGE

HedgeStreetNadex will allow its Members to view the current best bid and offer on the Market. HedgeStreetNadex will also allow Members to view the last executed order to trade Contracts.

RULE 5.11 HOURS FOR TRADING HEDGELET CONTRACTS

The Market will be open for execution of your orders during specified hours in a regular evening session from 6:00 p.m. to 2:05 a.m. Eastern Time Sunday through Thursday and a regular session from 8:00 a.m. to 5:00 p.m. Eastern Time Monday through Thursday, and during a regular session from 8:00 a.m. to 4:00 p.m. Eastern Time on Friday, with the exception of Market holidays, which will be announced on the HedgeStreetNadex website at least 30 calendar days in advance. You may access account information and cancel any open orders while the Market is closed, but you may not enter or modify orders unless the Market is open.

RULE 5.12 PROHIBITED TRANSACTIONS AND ACTIVITIES

(a) You are prohibited from entering orders on the Market if there are insufficient funds or Contracts in your account to satisfy such orders if they are executed. Subject to the conditions set forth in Rule 9.2(f) and Rule 9.6, if you violate this Rule, the following penalties shall apply:

HedgeStreet. EXCHANGE

Number of Per Incident Violations Within a Calendar Year	Penalty
1	\$10 fee deducted from your account
2	\$10 fee deducted from your account, and you will be required to re-certify that you have read and agree to be bound by this Rule 5.13(a).
3	\$15 fee deducted from your account, and you will be required to give a satisfactory explanation as to why the Rule violation occurred, or your trading privileges will be suspended for 30 days
4	\$20 fee deducted from your account and suspension of your trading privileges for 30 days (regardless of explanation)
5	\$25 fee deducted from your account and suspension of your trading privileges for 6 months (regardless of explanation)
6	\$30 fee and revocation of trading privileges (regardless of explanation)

(b) You are prohibited from attempting to enter into any trade on the Market that has been directly or indirectly prearranged. In other words, you may not agree with another Member that one of you will enter a trade and the other will attempt to match that trade by timing the orders or otherwise.

(c) You are prohibited from attempting to enter into or entering into any trade on the Market that does not result in a change in beneficial ownership, that is designed to unnaturally inflate trading volume, that in any way attempts to circumvent the Market's order processing, trade ordering, and trade execution systems, or otherwise to circumvent exposure of the order to open and competitive bidding on the Market, or that has some other illegitimate purpose.

(d) You are prohibited from entering into any trade designed or used to cause any price for a Contract other than a true and bona fide price to be reported, registered, or recorded by the Market.

(e) You are prohibited from trading in, transferring, assigning, or otherwise disposing of Contracts other than as provided for in these Rules.

(f) You are prohibited from agreeing to transfer or from transferring the benefit of any position in any Contract to another person other than through a transaction executed through the Market.

(g) You are prohibited from trading for a person or entity other than yourself or the Member for whom you are an authorized representative.

HedgeStreet. EXCHANGE

(h) You are prohibited from engaging in any activity that presents a risk of harm to HedgeStreetNadex, its members, or the public.

(i) You are prohibited from engaging in any activity that adversely affects the integrity of the Market or its underlying systems.

(j) You are prohibited from failing to abide by an arbitration decision or award handed down under Chapter 10 of these Rules.

(k) You are prohibited from intentionally providing erroneous or fraudulent information to HedgeStreetNadex on your membership application or otherwise.

(l) You are prohibited from engaging in any activity that is intended to, or has the effect of, manipulating the market in violation of Sections 6(c) and 9(a)(2) of the CEA and from engaging in any other activity that would violate the CEA or the Commission's Regulations.

(m) If you are an Insider of any public company that has access to material non-public information that is the subject of an Underlying of any Contract, you are prohibited from attempting to enter into any trade or entering into any trade, either directly or indirectly, on the market in such Contracts. An "Insider" means any person who has access to or is in a position to have access to material non-public information before such information is made publicly available. Without limiting the generality of the foregoing restriction, an Insider includes any officer or director of a public company, any employee who works in the company's financial or accounting department, and any employee of the company's accounting firm who performs services for the public company.

RULE 5.13 SPECULATIVE POSITION LIMITS

(a) HedgeStreetNadex has imposed Speculative Position Limits on certain Classes of Contracts as defined in Chapter 12 of these Rules. Any Member who exceeds a Speculative Position Limit shall be deemed in violation of this Rule 5.13. In addition, any Member entering bids or offers, if accepted, causing the Member to exceed the applicable Speculative Position Limit shall be in violation of this Rule.

(b) If a Member fails to reduce any position in a manner and time as directed by HedgeStreetNadex, HedgeStreetNadex shall have the authority to liquidate the applicable position to a level below the defined Speculative Position Limit stipulated under the relevant Class of Contracts in Chapter 12 of these Rules.

(c) In addition to the restrictions and requirements imposed in Section 5.13(a) and (b), the first violation of a Speculative Position Limit by a Member shall result in a letter of warning to be issued by the HedgeStreetNadex Compliance Department to the Member.

(d) In addition to the restrictions and requirements placed in Section 5.13(c), any subsequent violation of a Speculative Position Limit within the preceding 12 months by a Member shall result in the

HedgeStreet. EXCHANGE

issuance of a second letter of warning to the Member and the suspension or revocation of membership privileges in accordance with Chapter 9 of these Rules.

(e) Position limits shall apply to i) all positions in accounts for which any person by power of attorney or otherwise, directly or indirectly holds positions or controls trading, and ii) positions held by two or more persons acting pursuant to an express or implied agreement or understanding the same as if the positions were held by, or the trading of the position were done by, a single individual.

RULE 5.14 TRADE CANCELLATIONS

(f) HedgeStreetNadex, in its discretion and in accordance with these Rules, may cancel a trade in a Spread Contract that has been executed on the market at a price that is inconsistent with prevailing market conditions due to improper or erroneous orders or quotes being matched on the Market (“Erroneous Trade”).

(b) HedgeStreetNadex may review a Spread Contract trade based on its own analysis of the Market or pursuant to a request for review by a Member or other third party. A request for a review by a Member or other third party must be received by HedgeStreetNadex no later than fifteen (15) minutes after the trade has been executed on the Market and before the expiration of the contract. HedgeStreetNadex will promptly determine whether the trade will be subject to review and then promptly post notice indicating that the trade is under review.

(c) During the review, HedgeStreetNadex will calculate a Fair Value for the underlying at the time of the questioned trade by utilizing the last value or price of the Underlying at the time of the trade and/or any other relevant market information obtained or presented to HedgeStreetNadex.

(d) Once a Fair Value has been calculated, 5 percent of the maximum contract value will be added above such Fair Value and below such Fair Value to determine the “No Bust Range”. In the event that the Fair Value is less than 5 percent above the Floor or below the Cap, the No Bust Range shall be a 10 percent range above the Floor or below the Cap. During fast market conditions, upon the release of significant news, or in other circumstances in which HedgeStreetNadex determines it is appropriate, HedgeStreetNadex may, without prior notice, temporarily double the No Bust Range.

(e) If HedgeStreetNadex determines that a trade has been executed within the No Bust Range, the executed trade will stand. If HedgeStreetNadex determines that a trade has NOT been executed within the No Bust Range, HedgeStreetNadex will promptly cancel the trade by busting the Erroneous Trade off the market. Once the Erroneous Trade has been cancelled, HedgeStreetNadex shall:

(i) notify the Members that were parties to the Erroneous Trade(s) that HedgeStreetNadex has cancelled the Erroneous Trade(s). HedgeStreetNadex will notify such

HedgeStreet. EXCHANGE

Members within thirty (30) minutes from receiving notice of the Erroneous Trade unless impractical to do so within the notice period.

(ii) publish all necessary price corrections in a notification on the HedgeStreetNadex website.

(f) The decisions of HedgeStreetNadex regarding Fair Value of the underlying, the No Bust Range, the doubling of the No Bust Range, the cancellation of an Erroneous Trade, or any other determination hereunder shall be final and not subject to appeal.

CHAPTER 6 SETTLING ~~HEDGELET~~ CONTRACT TRADES, CONTRACTS AT EXPIRATION, AND MEMBER WITHDRAWAL REQUESTS

RULE 6.1 SETTLING ~~HEDGELET~~ CONTRACT TRADES

(a) HedgeStreetNadex will maintain, on its system, a record of each Member's account balances and Contracts. HedgeStreetNadex will also maintain a "HedgeStreetNadex settlement account," which will reflect funds used by Members to buy and sell ~~Hedgelet~~ Contracts. HedgeStreetNadex will also maintain a "HedgeStreetNadex proprietary account," which will be credited with all fees debited from Member accounts due to trades and expiration settlements. All settlements among these accounts on the HedgeStreetNadex system will be instantaneous.

(b) All funds in Member accounts and in the HedgeStreetNadex settlement account will be maintained in an account at the HedgeStreetNadex settlement bank that is designated as a customer segregated funds account under the CEA and the Commission's Regulations. Because those funds will be commingled at the settlement bank, transfers among Member accounts and transfers between Member accounts and the HedgeStreetNadex settlement account will not be transmitted to the settlement bank. Such records will only be maintained on the HedgeStreetNadex system. However, once every settlement bank business day, HedgeStreetNadex will send to its settlement bank by batch mode electronic transmission instructions for the settlement bank to transfer fees credited by HedgeStreetNadex to the HedgeStreetNadex proprietary account on its system from the customer segregated funds account at the settlement bank to the HedgeStreetNadex proprietary account at the settlement bank.

(c) The settlement bank will complete the transfer in the settlement instructions described in paragraph (b) of this Rule and notify HedgeStreetNadex of its completion.

RULE 6.2 SETTLING CONTRACTS AT EXPIRATION

(a) When a Series of Variable Payout ~~Hedgelet~~ Contracts expires, those Contracts will settle in an amount (if any) determined by the calculations set forth in the definitions for Long and Short Variable Payout ~~Hedgelet~~ Contracts set forth in Chapter 1 of these Rules. When a Series of Binary

HedgeStreet. EXCHANGE

Hedgelet Contracts expires and has a Payout Criterion that encompasses the Expiration Value of the Underlying, such Binary Contract will pay a minimum Settlement Value of \$10 to the holder of a long position in such Binary Contract. Conversely, when a Series of Binary **Hedgelet** Contracts expires and has a Payout Criterion that does NOT encompass the Expiration Value of the Underlying, such Binary Contract will pay a minimum Settlement Value of \$10 to the holder of a short position in such Binary Contract.

(b) On the Settlement Date;

(i) HedgeStreetNadex will notify all members which Contract is going to pay a Settlement Value and which Contract will not pay a Settlement Value.

(ii) HedgeStreetNadex will immediately settle the Variable Payout **Hedgelet** Contracts by (A) debiting HedgeStreetNadex's settlement account in an amount equal to (1) any gains realized by Members plus (2) any blocked funds that were debited from Members' accounts at the time the Variable Payout **Hedgelet** Contracts that are expiring were entered into that are not used to pay any losses on such Contract(s) and (B) crediting those amounts, respectively, to the accounts of (1) Members who realized such gains, in each case in the amount of such gains realized by each Member, and (2) Members from whose accounts such blocked funds were taken, in each case in the amount of such blocked funds that was not required to pay losses experienced by such accounts on such Contracts.

(iii) HedgeStreetNadex will immediately settle the Binary **Hedgelet** Contracts by debiting the HedgeStreetNadex's settlement account in an amount no less than \$10.00 multiplied by the total number of outstanding in-the-money Binary **Hedgelet** Contract positions and credit those funds to the accounts of the Members holding the in-the-money Binary **Hedgelet** Contract positions.

(iv) HedgeStreetNadex will delete all Contracts of the expiring Series from the accounts of Members.

(c) If you believe there has been an error in settlement, you must report that error to HedgeStreetNadex immediately. Your report must state why you believe there has been an error in settlement. If HedgeStreetNadex receives notice of a settlement error before the end of the fifth Trading Day following settlement, HedgeStreetNadex will review that report and will correct any error that HedgeStreetNadex determines has been made. If HedgeStreetNadex does not receive notice of an error of settlement before the end of the fifth Trading Day following settlement, then (i) settlement will be final and (ii) you agree that HedgeStreetNadex shall not be responsible to you in any fashion for an uncorrected error in settlement.

RULE 6.3 SETTLING MEMBER WITHDRAWAL REQUESTS

Within one settlement bank business day of when a Member requests to withdraw funds from its HedgeStreetNadex account, HedgeStreetNadex will transmit such request to its settlement bank in

HedgeStreet. EXCHANGE

electronic batch mode transmission. The settlement bank will process that request and send those funds to the account at the Financial Institution registered with HedgeStreetNadex by the Member (unless the Member has unsatisfied outstanding obligations on HedgeStreetNadex, in which case HedgeStreetNadex may retain such balances as necessary to satisfy such obligations or until the Member otherwise satisfies such obligations). You should refer to HedgeStreetNadex's website under the Fee Schedule for all fees and costs associated with withdrawal of funds from your HedgeStreetNadex account.

CHAPTER 7 ADJUSTMENTS NECESSITATED BY MATERIAL CHANGES IN THE UNDERLYING

RULE 7.1 ADJUSTMENTS

In the event that, during the term of a Series, changes beyond the control of HedgeStreetNadex occur in the way the Underlying is calculated or an Expiration Value for the Underlying is unavailable or undefined in light of intervening events, HedgeStreetNadex may adjust the terms of outstanding Series as it deems appropriate in its discretion to achieve fairness to holders of Contracts of the affected Series. A simple average of the remaining fifteen (15) USD/YEN Midpoints is used to calculate the Expiration Value. A Midpoint is calculated by adding the bid price and the ask price together and then dividing that number by two (2). For example, if the bid price is 121.00 and the ask price is 121.02, the two numbers are added together (totaling 242.02) and then divided by two (2), equaling a Midpoint of 121.01. If the spread between a particular bid price and ask price is deemed too wide (greater than five(5) pips), those prices will not be used to calculate a Midpoint and will thus not be included within the 25 initially captured values.

(o) CONTINGENCIES – If no level is actually announced on the Expiration Date due to a delay, postponement or otherwise in such release announcement by the Source Agency, the Settlement Date will be delayed until the Underlying number is released for that Series.

(n) **EXPIRATION VALUE** – The Expiration Value is the Settlement Price of USD/CAD Currency as calculated by the Source Agency on the Expiration Date. The Expiration Value is calculated by the Source Agency by taking the last twenty-five (25) Midpoints just prior to the close of trading of the USD/CAD Binary Contract and removing the highest five (5) Midpoints and the lowest (5) Midpoints. A simple average of the remaining fifteen (15) USD/CAD Midpoints is used to calculate the Expiration Value. A Midpoint is calculated by adding the bid price and the ask price together and then dividing that number by two (2). For example, if the bid price is 1.0700 and the ask price is 1.0702, the two numbers are added together (totaling 2.1402) and then divided by two (2), equaling a Midpoint of 1.0701. If the spread between a particular bid price and ask price is deemed too wide (greater than five (5) pips), those prices will not be used to calculate a Midpoint and will thus not be included within the 25 initially captured values.

(o) **CONTINGENCIES** – If no level is actually announced on the Expiration Date due to a delay, postponement or otherwise in such release announcement by the Source Agency, the Settlement Date will be delayed until the Underlying number is released for that Series.

A “tropical cyclone” means a warm-core non-frontal synoptic-scale cyclone, originating over tropical or subtropical waters, with organized deep convection and a closed surface wind circulation about a well-defined center. Once formed, a tropical cyclone is maintained by the extraction of heat energy from the ocean at high temperature and heat export at the low temperatures of the upper troposphere. In this they differ from extratropical cyclones, which derive their energy from horizontal temperature contrasts in the atmosphere (baroclinic effects).

²¹ A “hurricane” means a tropical cyclone in which the maximum sustained surface wind (using the U.S. 1-minute average) is 64 kt (74 mph or 119 km/hr) or more. The Expiration Value is calculated by the Source Agency by taking the last twenty-five (25) Midpoints just prior to the close of trading of the USD/CAD Variable Payout Contract and removing the highest five (5) Midpoints and the lowest (5) Midpoints. A simple average of the remaining fifteen (15) USD/CAD Midpoints is used to calculate the Expiration Value. A Midpoint is calculated by adding the bid price and the ask price together and then dividing that number by two (2). For example, if the bid price is 1.0700 and the ask price is 1.0702, the two numbers are added together (totaling 2.1402) and then divided by two (2), equaling a Midpoint of 1.0701. If the spread between a particular bid price and ask price is deemed too wide (greater than five (5) pips), those prices will not be used to calculate a Midpoint and will thus not be included within the 25 initially captured values.

(o) CONTINGENCIES – If no level is actually announced on the Expiration Date due to a delay, postponement or otherwise in such release announcement by the Source Agency, the Settlement Date will be delayed until the Underlying number is released for that Series.
