Re: Natural Gas Exchange Inc. - Certification of clearinghouse rule amendment

Dear Ms. Jurgens:

In accordance with Commodity Futures Trading Commission (“Commission”) Rule 40.6, 17 C.F.R. §40.6, Natural Gas Exchange Inc. (“NGX”) hereby submits amendments to its rulebook (the Contracting Party’s Agreement or “CPA”) which relate to the clearing of transactions. Specifically, as explained below, NGX is amending the CPA as follows:

- Amending Section 3.2 by adding new paragraph I;
- Amending certain definitions in Section 1.2 as necessary for the new product additions, including the terms “Default”, “Failure to Deliver”, “Failure to Take” and “Failure to Pay” and the implications of failures as set out in Sections 5.1, 5.3, 5.5, 5.6 5.13, 6.4 and 8.2;
- Adding new Sections 4.5 and 4.6 to address invoicing and settlement procedures relating to new product additions;
- Amending Section 2.4 to clarify indebtedness owing by NGX; and
- Amending Section 5(b) of Schedule “C” to better clarify how entities can meet the minimum qualification requirement to become contracting parties.

TEXT OF RULE AMENDMENT

See Appendix “A”

DATE OF INTENDED IMPLEMENTATION

NGX intends to implement this rule amendment on July X, 2013.

CERTIFICATION THAT THE RULE COMPILES WITH ACT AND REGULATIONS

The certification of compliance is attached.

CONCISE EXPLANATION AND ANALYSIS OF THE OPERATION, PURPOSE AND EFFECT OF THE PROPOSED RULE AMENDMENT AND ITS COMPLIANCE WITH CORE PRINCIPLES AND RULES

NGX is amending its rulebook, the Contracting Party Agreement (“CPA”), in order to add a rule whereby it may accept trades or positions that are transferred to it by another entity that is legally authorized to effectuate the transfer of such trades to NGX due to a non-recurring event. This rule amendment is being adopted in contemplation by NGX of a business alliance with an entity that currently acts as a riskless principal in physical power contracts. That entity, Nasdaq OMX Commodities Clearing Company (“NOCC”) is not registered with the Commission as a DCO.

The alliance does not involve any change in the corporate organization of either party. Under the terms of the NOCC-NGX alliance, NOCC will cease providing riskless principal services. NGX is taking steps to list physically-delivered futures contracts on power. Those contracts will be available to U.S. persons through direct access by NGX under its registration as a FBOT. NGX will clear all such futures contracts traded on or subject to the rules of the FBOT facility. NOCC will provide various types of technical and sales support services to NGX on an outsourced basis.

The purpose of the rule amendment is to make it possible for NOCC to effectuate a bulk transfer of the open positions or transactions for which it is the riskless principle through a novation with NGX. The purpose of such a novation is to effect the transfer of open positions at the time that the alliance agreement is implemented. NOCC plans to cease its operations as riskless principal and the transfer of positions will enable it to do so with respect to all contracts that remain open at that time.

Operationally, the novation will discharge the mutual obligations of NOCC and its counterparties on the physical power contracts by substituting therefore a physically delivered futures contract between each of NOCC’s counterparties and NGX as clearinghouse. The price of the novated contracts will be the same as the original contract price. In addition, any margin or collateral supporting each position will be posted with NGX directly by the counterparties. There will be a brief double posting of collateral by the counterparties until NOCC releases and returns collateral posted to it.

The effect of the rule change will be to establish the authority under which NGX can arrange to accept a bulk transfer of positions that is effectuated in furtherance of an agreement to substitute one universal counterparty (NOCC) for another clearing service provider (NGX). Similar authorizing rules have been relied upon by the Chicago Mercantile Exchange (“CME”) and the

Chicago Board of Trade (“CBT”) in connection with the CBT’s decision to change clearing services providers, replacing the Clearing Corporation with the CME¹ and by the Chicago Climate Exchange.² Accordingly, there is substantial precedent that a rule like new CPA Section 3.2 I is the appropriate authority and procedure for effectuating such an agreed upon transfer.

It should be noted that the transfer of positions is not being undertaken in furtherance of a merger, or acquisition of, a DCO. Accordingly, Commission Rule 39.3(f) is not triggered and is not the appropriate vehicle for effectuating the movement of the positions. Commission rule 39.3(f) provides the procedure to be used in for the transfer of a DCO registration and associated open interest of a DCO due to a corporate event, such as a merger or acquisition. Commission Rule 39.3(f) provides that

In anticipation of a corporate change that will result in the transfer of all or substantially all of a derivatives clearing organization's assets to another legal entity, the derivatives clearing organization shall submit a request for approval to transfer the derivatives clearing organization's registration and positions comprising open interest for clearing and settlement.

Under the rule, a transfer request must be filed three months prior to the anticipated corporate change.

Rule 39.3(f), however, on its face clearly does not apply to these facts. The non-recurring event contemplated by NGX and NOCC does not involve any corporate change, which is the event which triggers Rule 39.3(f). Moreover, the transfer here does not involve the movement of open interest

¹ . The CBT amended its rule enabling it to move positions to read as follows:

701.00 Clearing Services - The Exchange may discontinue the clearance of futures and options contracts through a particular Clearing Services Provider, and select and substitute another Clearing Services Provider or method of clearance.

701.01 Transfer of Open Positions to Clearing Services Provider - Each clearing member shall comply in all respects with any statement of policy or other notice issued by the Exchange relating to the procedures and processes that must be followed to effectuate the transfer of open positions to any Clearing Services Provider.

A reciprocal rule change by the Chicago Mercantile Exchange (“CME”), the replacement DCO, was added to read as follows:

8C03. TRANSFERS

The Clearing House may accept transfers of positions from another clearing house in order to perform clearing services for another exchange or Market. Such transfers shall be made in accordance with the Rules and operating procedures of the Exchange. Such transfers must be made at the daily settlement value per Rule 813.F.

² In 2002, the Chicago Climate Exchange, which changed status from an Exempt Commercial Market to a contract market moved open positions to the Clearing Corporation, a DCO. The Chicago Climate Exchange adopted Rule 413 under which it effect the transfer. That rule provides in part:

413. Transfers of Positions

(a) * * *

(b) Upon written request, the Exchange may, in its sole discretion, allow the transfer of a position as a result of a merger, asset purchase, consolidation, or similar non-recurring transaction for a Person that is an organization.

(c) Clearing Members must transfer positions pursuant to this Rule 413 at the same prices that appear on the books of the transferring Clearing Member, and the transfer must indicate the date when the original trade was made . . .

from one DCO to another. NOCC is not a DCO. The NOCC contracts are forward contracts for the delivery of power. The arrangement contemplated here will not affect in any way the legal status of NGX or of its DCO Registration. Rather, the NGX- NOCC arrangement is an agreement of cooperation whereby NOCC, once it terminates its operations as a riskless principal, will provide technical assistance to NGX in connection with NGX's listing and clearing certain physically delivered futures contracts in power.

Compliance with Core Principles

This rule change, which is being undertaken in contemplation of a cooperation agreement between NGX and NOCC is consistent, and complies with, the Core Principles and Rules thereunder. In this regard, the terms of the NGX-NOCC agreement will not have an adverse impact on NGX's continued compliance with section 5b of the Act or the Commission's rules thereunder. An analysis of the NGX-NOCC agreement and its impact on NGX's clearing operations in respect of the relevant Core Principles follows.

Core Principle B: Financial Resources

The pertinent terms of the NGX-NOCC agreement include a revenue sharing arrangement between NGX and NOCC. The cost to NGX of its entering into the agreement largely will be recouped from future revenue flows. NGX has sufficient financial resources to meet any obligations arising out of the agreement which will be considered to be operating costs of NGX and to remain in compliance with the financial resource requirements of Commission Rule 39.11(a)(2).

Core Principle C: Participant and Product Eligibility

As noted above, these contracts will be foreign futures listed on NGX FBOT.³ NGX's DCO Registration Order applies to all asset classes of foreign futures that are traded on NGX FBOT. Moreover, the new physically delivered futures contracts in power share a common clearing architecture as the physically delivered natural gas futures contracts that NGX currently clears. Many of the existing provisions of the CPA, practices and procedures that apply to all NGX physically delivered futures will also apply to physically delivered power futures, including margining methodology and treatment of collateral. As discussed with respect to Core Principle D, the risk management procedures for power will follow established procedures that apply to other asset classes. As with many physically delivered futures contracts traded on NGX, because the terms and conditions of the futures contracts are in close alignment with cash market practices, a very high proportion of those contracts will be settled through delivery, or scheduling to deliver.⁴ This

³ Forward contracts with similar contract terms to the NGX futures contract may also be traded on the ICE trading platform. Those contracts are not cleared by NGX and are not relevant to this rule amendment.

⁴ It should be noted that NGX currently only clears futures contracts. Forward contracts traded off of the NGX FBOT may be registered with, and cleared by NGX under NGX rules governing transactions that are "Exchange of a Derivative for a Related Product." Transactions registered under this rule are cleared as futures contracts. Forward contracts are also traded on NGX FBOT, but such contracts are not cleared and would not be relevant to this rule change.

alignment in the terms and conditions of the contracts also leads to greater liquidity, transparency in clearing and effective risk management. Accordingly, physical power futures contracts are consistent with the eligibility characteristics of the other physical futures contracts cleared by NGX. The amendment to Section 5(b) of Schedule “C” merely clarifies the process NGX undertakes in accepting a contracting party. While contracting parties must meet a minimum qualification requirement either on its own or through a controlling entity, NGX does not always require a guarantee. The revised rule preserves NGX’s right to exercise its discretion in accepting contracting parties and more accurately reflects the acceptance process.

Core Principle D: Risk Management

NGX will apply its established margin methodology to the power contracts cleared by it. It will use historic prices provided by NOCC as the predicate for these calculations. Going forward, NGX will make these calculations using prices generated from its own traded markets, supplemented as necessary and appropriate by readily available price information from the cash market. As with all other NGX physically delivered futures contracts, letters of credit, subject to certain conditions specified by the CPA relating to quality and dispersion, will be considered to be an acceptable form of collateral.

Core Principle E: Settlement Procedures

The settlement procedures for physically delivered power futures will be the same as for other NGX physically delivered futures contracts. As with natural gas, a high degree of contracts are expected to settle through physical delivery. NGX, as with its other contracts, remains involved as a party through the physical settlement process. As provided under NGX’s DCO Registration Order, NGX will apply an accrual model as its daily settlement process.

Core Principle G: Default Rules and Procedures

The guaranty fund maintained by NGX is self-funded. There will be no impact on it as a consequence of clearing physically settled futures contracts. The amended rules provide appropriate default procedures for physical power products that are consistent with existing clearinghouse rules as well as Electric Reliability Council of Texas procedures and operations. The rules allow NGX to contain losses and liquidity pressures to continue to meet its obligations.

Core Principle J: Reporting

Information required by the Commission to be reported regarding the newly listed and cleared power futures contracts will be reported on the same basis that applies to currently traded and cleared futures contracts.

Core Principle R: Legal Risk Considerations

The NGX-NOCC arrangement has been duly entered into and is a legal obligation binding on both parties under Canadian and U.S. law. There will be no adverse consequence to NGX or its Participants in the unlikely event that the agreement is not renewed when its term expires. In such an event, the parties will cooperate in the orderly wind up of this portion of the business.

Conclusion

In summary, Rule 39.3(f) does not apply to the NGX/NOCC arrangement. The past precedent that the Commission has established of approving or permitting the certification of rules of other DCOs or designated contract markets that authorize them to transfer positions in a variety of circumstances apply to this particular arrangement as well. The rule that NGX is adopting is similar to those previously approved by or certified to the Commission. It is a general rule relating to NGX's ability to accept the transfer of positions in its discretion on subject to a non-recurring agreement to do so.

Finally, it should be noted that the NGX Registration Order covers futures contracts listed on its trading facility. NGX already trades cash-settled Canadian power futures. Moreover, it should be noted that this business will have little effect on NGX's overall clearing operations, representing no greater than about 5% of NGX's overall collateral. Accordingly, no change to NGX's DCO Registration Order is necessary and its clearing of power contracts listed on its FBOT is consistent with Part 48 of the Rules and with its Registration as a DCO. Clearing these additional class of contracts will have no adverse effect on NGX's continuing compliance with section 5b of the Act and Commission regulations thereunder.

EXPLANATION OF SUBSTANTIVE OPPOSING VIEWS

No substantive opposing views were expressed to NGX. No counterparty of NOCC has objected to the transfer. If any did, it would be possible for that counterparty to prevent its position from being transferred. Because every participant on NGX self-clears, by refusing to become an NGX participant the counterparty could prevent the position from being transferred. Counterparties to NOCC who thus object to the transfer would remain outside of the transfer and the original contract would remain in effect.

RISK DISCLOSURE STATEMENT

The risk of loss in entering into Transactions pursuant to the Agreement can be substantial. Consideration should be given to numerous factors, including the fact that Collateral may be applied against losses. Failure to provide additional Eligible Collateral Support when required may result in the liquidation of a position reflected by any Transaction. Under certain market conditions, it may be difficult or impossible to liquidate a position. The use of leverage can lead to large losses as well as gains. This brief statement is not intended to disclose all significant risks of the natural gas, oil and ~~electricity~~power markets and Contracting Parties should carefully study commodity physicals, futures and swap trading and seek advice from their advisor(s).

In addition to any other rights Exchange has under this Agreement, Exchange may, in its sole discretion, for legal, regulatory, operational or similar reasons, including (without limitation) to maintain the integrity of Exchange, reject an EFRP Transaction submitted to Exchange (whether submitted through ICEBlock or Verbal Instructions) as soon as technologically practicable of the time of the initial submission to Exchange, in which case Exchange or ICE shall notify the Off-Exchange Principals that the transaction has been rejected and any applicable EFRP Cleared Futures Transactions shall be considered null and void with no further obligations or liability of Exchange.

g. ~~f.~~ Block Transactions.

- i. Block Transactions between two Contracting Parties (each acting for itself or through its agent) may be effected through the ICEBlock electronic trading facility or by telephonic means as provided by the Exchange, rather than on the NGX Trading System, in accordance with the provisions of this Rule.
- ii. Block Transactions may be transacted only in Futures Products authorized for that purpose by the Exchange. The minimum volume to qualify as a Block Transaction under this rule is as the Exchange shall establish in its discretion and publish on its website from time to time.
- iii. A Contracting Party, for its own account, may aggregate multiple orders to meet the contract minimums for a Block Transaction.
- iv. A Contracting Party may not

 - (B) aggregate different legs of an options contract spread to meet the minimum volumes set forth in subsection (f)(ii), provided, however, the different legs may be aggregated if the aggregate amount is in total 150% of the minimum block volume.
- v. Each time a Contracting Party quotes a Block Transaction price, the Contracting Party must make clear to the potential counter-party(ies) that the price being quoted is a Block Transaction price for a Futures Transaction and is not the price prevailing on the NGX Trading System for a Futures Transaction in that Product.
- vi. The Block Transaction may be consummated at a price mutually agreed upon by the parties to the transaction; provided that,
 - (A) the price for the Block Transaction does not exceed:
 - (1) the day's overall traded market high and low by the following ranges below;

 - (C) In the case of an option, the price is no more than one-half the maximum applicable quote spread outside a price derived from a generally accepted theoretical model, which is based on the range of the day's underlying futures high and low prices, if traded on the market.
- vii. Immediately upon agreeing to enter into the Block Transaction, or upon the market's opening (or re-opening) if the transaction is agreed to be entered into by the parties at a time when the market is closed, the buyer of the Block Transaction or its agent shall report the details of the Block Transaction directly into ICEBlock or by Verbal Instruction to the Exchange. Within 15 minutes of reporting the details of the Block Transaction, the seller of the Block Transaction or its agent shall confirm such Block Transaction on the screen or by telephonic means as provided by the Exchange. The Exchange shall immediately notify the parties to the transaction of the details of the Block Transaction upon confirmation, and immediately update the NGX Clearing System reports.

The Contracting Party hereby designates Exchange as its agent for the purpose of carrying out any such instructions and agrees to be bound by any acts of Exchange in carrying out such instructions. The Contracting Party acknowledges that Exchange may in its sole discretion refuse to agree to act on the basis of any such instructions and that Exchange will have no liability to the Contracting Party in respect of any errors, omissions, or other actions regarding such instructions or in respect of any refusal to act.

i. ~~h.~~ Recording – The Contracting Party acknowledges, consents and agrees to the electronic recording by Exchange of all conversations, instructions or agreements between Exchange and the Contracting Party and agrees that any such record will constitute documentary evidence as to any such conversations, instructions or agreements in tangible form. The Contracting Party and

Exchange agree not to assert any legal defence as to the admissibility, validity or enforceability of any verbal or instant messaging instructions or agreements as evidenced by any such record, including any assertion that any such instructions or agreement is not in writing or signed by a party or both parties. Exchange will maintain any such record for a period of two years, or longer in particular if Exchange is aware of any dispute, controversy, difference or question which may be resolved by any such record and will provide the Contracting Party with a copy of any portion of such record to the extent relevant to any such dispute, controversy, difference or question relating to the Contracting Party.

3.3 Eligible Collateral Support and Collateral

- a. Eligible Collateral Support and Collateral – In accordance with the Risk Management Policy, the Contracting Party shall be obligated to provide from time to time, as security for the Contracting Party's Obligations, credit support consisting of: (i) irrevocable letters of credit issued by Approved Financial Institutions in favour of Exchange in a form acceptable to Exchange; or (ii) cash delivered by a Contracting Party to Exchange and held by Exchange in a segregated bank account specified by Exchange, which will be subject to a registered security interest in favour of Exchange (collectively, "Eligible Collateral Support"). The Contracting Party shall be responsible for any and all wire transfer fees applied or deducted by the Exchange's bank relating to the receipt, deposit or transfer of such Eligible Collateral Support. In addition, Exchange may, in its discretion, withhold and the Contracting Party hereby consents to such withholding, payables owing to the Contracting Party from Exchange as additional Collateral. The Contracting Party agrees and acknowledges that upon any failure by such Contracting Party to provide Eligible Collateral Support to Exchange in the amounts and manner set forth under the Risk Management Policy, Exchange shall have the rights and remedies set forth in this Agreement including, without limitation, the rights to cause a Contracting Party Suspension, effect the Close-out Procedure and/or effect the Liquidation Procedure with respect to the Contracting Party's Transactions. Exchange agrees that it shall be obligated to (i) return any Eligible Collateral Support to the Contracting Party, to the extent and pursuant to the terms provided under the Risk Management Policy and (ii) require all Contracting Parties to comply with the provisions of the Risk Management Policy.
- b. Grant of Security – As security for the payment and performance of its Obligations, the Contracting Party does hereby assign, pledge and grant to Exchange a first-ranking security interest in and lien on all estate, right, title and interest of the Contracting Party in and to:

- i. any and all cash (including, without limitation, any cash delivered as Eligible Collateral Support), monies and interest bearing instruments contemplated by Section 3.3(j) delivered to, deposited with, or held by or on behalf of Exchange (with the exception of Retained Settlement Amounts);
- ii. any rights to payment or performance owing from Exchange including, without limitation:
 - (A) any Previous Month Accounts Net Payable for such Contracting Party;
 - (B) any Current Month Accounts Net Payable owed by Exchange to the Contracting Party;
 - (C) any ~~Swap~~ Financially Settled Futures Settlement Net Payable, MTM Settlement Net Payable or Daily Financially Settled Futures Settlement Net Payable for such Contracting Party; and

(August 26, 2013 or such later date as may be designated by Exchange on notice to the Contracting Parties.)

- (D) any Variation Margin for such Contracting Party; and
- iii. all proceeds (as such term is defined in the *Personal Property Security Act* (Alberta) of any of the foregoing,

(collectively, and together with any letter of credit constituting Eligible Collateral Support, the "Collateral").

For greater clarity, if Exchange is unable for any reason to register its security interest in the Collateral as first in priority to any other security interest registered against the Contracting Party in such Collateral, then the foregoing shall not constitute Collateral.

Upon any of the Collateral being returned or paid to the Contracting Party, the said Collateral shall be released from the Liens granted to Exchange by the Contracting Party hereunder. Any Lien granted as contemplated above attaches upon execution and delivery of this Agreement or, in the case of Collateral delivered to, deposited with, or held by or on behalf of Exchange, upon the delivery, deposit or holding of such Collateral to, with, by or on behalf of Exchange, or in the case of rights to payment or performance in favour of the Contracting Party under any Transaction, at the time such Transaction is entered into.

Exchange may file or record this Agreement or any financing statement, security notice or similar instrument in any public office as may be necessary to establish, perfect or maintain the interests of Exchange as a secured party. The Contracting Party hereby waives any requirement of the applicable personal property security legislation or similar legislation to provide a verification statement to the Contracting Party upon registration of any such Agreement, financing statement, security notice or similar instrument. Upon the full, final and indefeasible satisfaction of all Obligations, and termination of this Agreement, the Lien shall cease and determine, all rights and interests in the Collateral granted hereunder and hereby will revert to and revest in the Contracting Party without further act or formality whatsoever, whereupon Exchange shall, at the request and cost of the Contracting Party, execute such releases or discharges of the Lien or of such filings or recordations, prepared by or on behalf of the Contracting Party and acceptable to Exchange, without recourse to or warranty by Exchange. Exchange shall not have any

duty or obligation in respect of any Collateral except the obligation to keep the same with the same degree of care as it keeps its own property of a similar type, and in particular shall not be responsible for or by reason of any loss arising from any failure of Exchange's Principal Banker (whether as a result of bankruptcy, insolvency or otherwise) with which any amount paid by or on behalf of the Contracting Party as Collateral will have been deposited or placed for safekeeping. No Obligation shall be considered to have been discharged by reason of the existence of the Lien or the rights herein provided unless (and then only to the extent that) Exchange has finally and indefeasibly collected and applied to such Obligation any amount held as or obtained in respect of Collateral or the net proceeds (after satisfying any costs of realization) of realization of any Collateral or has drawn down upon any letter of credit and applied the same to such Obligation or has applied any amount owing by Exchange to the satisfaction thereof and so advised the Contracting Party in writing. The Contracting Party hereby represents and warrants that all Collateral provided to Exchange from time to time is and will be free and clear from any Liens ranking in priority to or equally with the rights of Exchange to such Collateral and that the Lien herein provided to Exchange is and will be a valid first ranking Lien on the Collateral. Exchange and the Contracting Party agree that all Eligible Collateral Support and all Collateral shall constitute "financial collateral" as that term is used in section 11.1 of the CCAA; section 66.34 of the BIA; section 22.1 of the WRA and any successor or like Canadian statutory provisions.

- c. Upon a Default with respect to any Contracting Party, Exchange shall also be entitled to:
- i. exercise all rights and remedies of a secured party under applicable law with respect to the Collateral provided by the Contracting Party or any of its Contracting Party Affiliates;

 - iii. instruct any bank that has issued a letter of credit held by Exchange in the name of the Contracting Party or any of its Contracting Party Affiliates to pay under the letter of credit up to the amount of the Obligations that are due;
 - iv. exercise any other remedies provided under this Agreement or any other remedies available at law, in equity or otherwise.
- d. Set-Off – The Contracting Party hereby agrees that Exchange shall be entitled to Set-Off all Obligations payable or to be performed by Exchange to the Contracting Party or, except as Exchange may otherwise agree, any of its Contracting Party Affiliates, under any Transaction or this Agreement (or any Transaction or any Contracting Party Agreement entered into between Exchange and any Contracting Party Affiliate), whether under Sections 5.5(c), 5.6, 8.2 or 8.3 or otherwise and whether or not matured or contingent and irrespective of the currency or place of payment, against any Obligations payable or to be performed by the Contracting Party or any of its Contracting Party Affiliates to Exchange under any Transaction or this Agreement (or any Transaction or any Contracting Party Agreement entered into between Exchange and any Contracting Party Affiliate). The contractual right of Set-Off hereby granted is in addition to any legal or equitable right of set-off granted at law, and does not require for its exercise any mutuality or connection, other than that hereby created, between the Obligations Set-Off. If an obligation or right is unascertained at the time of any such Set-Off, Exchange may in good faith estimate the amount or value of such obligation or right, in which case Set-Off will be effected on

the basis of such estimate and the relevant party shall account to the other party if such obligation or right at any time thereafter is ascertained.

- e. **Guarantee of Contracting Party Affiliate and Letter of Credit** – Except as Exchange may otherwise agree, the Contracting Party agrees that all Collateral provided by it to Exchange hereunder (including without limitation all letters of credit) is provided not only to secure the performance of the Contracting Party’s Obligations hereunder, but also to secure the performance of the Obligations of all of its Contracting Party Affiliates to Exchange under the Contracting Party Agreements entered into by such Contracting Party Affiliates. Except as Exchange may otherwise agree, for the purpose of allowing Exchange to realize on the Collateral provided by it to Exchange hereunder (including without limitation all letters of credit) to pay any of its Contracting Party Affiliates’ Obligations, the Contracting Party hereby unconditionally guarantees (the “Guarantee”) the prompt and complete payment and performance when due, whether in the ordinary course, by termination, acceleration or otherwise, of all Obligations of its Contracting Party Affiliates. This Guarantee is one of payment and not of collection. This Guarantee is irrevocable and shall remain in full force and effect and be binding upon the Contracting Party, its successors and assigns during the term of this Agreement and until all of the Obligations of its Contracting Party Affiliates have been satisfied in full. Upon the occurrence of a Default with respect to any Contracting Party or, except as Exchange may otherwise agree, any Contracting Party Affiliate, Exchange shall be entitled to draw upon any letter of credit provided to it by the Contracting Party up to the amount of the Obligations that are due.
- f. **Suretyship Waiver** – The Obligations of Contracting Party and its Contracting Party Affiliates and the grant of security in respect of this Agreement under Section 3.3(b) shall not be affected by any circumstance of any kind, including circumstances which might otherwise constitute a legal or equitable discharge of or defence of a guarantor or surety (other than payment in full).
- g. **Separate Bank Account** – Exchange will deposit all amounts consisting of cash transferred as Eligible Collateral Support in an interest bearing bank account at Exchange’s Principal Banker separate from the corporate funds of Exchange or that of any affiliates or subsidiaries of Exchange. Exchange will keep all such amounts of Eligible Collateral Support from each Contracting Party in a separate bank account in trust and agrees to hold all of such amounts as trustee in accordance with the provisions of this Agreement. Exchange shall not be liable to the Contracting Party for any loss incurred as a result of any such depositing of amounts, and the Contracting Party shall be bound by the accounts and records of Exchange in determining and allocating the amount of any such loss.
- h. **Bank Collateral Agreement** – Exchange hereby confirms that the Bank Collateral Agreement is in full force and effect and has provided Exchange’s Principal Banker with the Contracting Party’s name and address for the purpose of providing any notice under, and the undertaking of Exchange’s Principal Banker set forth in the Bank Collateral Agreement.
- i. **Collateral of Contracting Party Affiliate** – Except as Exchange may otherwise agree in writing with the Contracting Party, any Collateral provided by any Contracting Party and any Contracting Party Affiliate will be allocated between the Contracting Party and such Contracting Party Affiliate at any time and from time to time by Exchange to the extent required by the Risk Management Policy, the Liquidation Procedure pursuant to Section 5.6, the Close-out Procedure pursuant to Section 8.3, or as may be otherwise necessary to comply with the terms and conditions of this Agreement.
- j. **Interest on Eligible Collateral Support** – Cash Collateral will be deposited in an interest bearing bank account (“Cash Collateral Account”). Exchange will provide the Contracting Party with

direct viewing access to its Cash Collateral Account, failing which, and upon request by the Contracting Party, Exchange will account monthly to the Contracting Party for all daily interest earned in a Cash Collateral Account which exceeds \$100,000 or U.S. \$100,000 on any day. NGX will, on a monthly basis, credit to the Cash Collateral Account, interest earned at an interest rate as notified by NGX from time to time (“Contracting Party Interest”). Any interest earned in excess of the Contracting Party Interest shall be deducted monthly by NGX from the Cash Collateral Account for administrative purposes. Cash Collateral, including Contracting Party Interest, will remain in the Cash Collateral Account and returned to the Contracting Party only in accordance with Section 9 of Schedule “C” or to settle an invoice. In order for the Contracting Party to earn daily interest on their Cash Collateral Account for the day upon which such Eligible Collateral Support is deposited with Exchange, such Eligible Collateral Support must be received by Exchange in accordance with the Risk Management Policy no later than 2:00 p.m. (Mountain time).

5.13 Remedies Upon an Exchange Bankruptcy Event of Default

- a. Early Termination – In the event that there occurs and is continuing an Exchange Bankruptcy Event of Default, the Contracting Party, in addition to any remedies it may have at law or in equity or otherwise under this Agreement or under any Transaction, may, on no less than five (5) days notice to Exchange (the “Early Termination Notice Date”), designate a day no earlier than the Early Termination Notice Date and no later than sixty (60) days after becoming aware of such Exchange Bankruptcy Event of Default, as an early termination date (the “Early Termination Date”). On the Early Termination Date, all outstanding Transactions (collectively the “Terminated Transactions”) shall be terminated.
- b. Remedies Upon Early Termination – If the Terminated Transactions are terminated by the Contracting Party pursuant to Section 5.13(a), Exchange shall in good faith calculate in a commercially reasonable manner: (i) an amount equal to the present value on the Early Termination Date (using the Default Rate as the discount rate) of the economic benefit to it, if any, resulting from the termination of the Terminated Transactions (the “Gains”); and (ii) an amount equal to the present value on the Early Termination Date (using the Default Rate as the discount rate) of the economic loss to it, if any, resulting from the termination of the Terminated Transactions (the “Losses”). Gains and Losses shall be determined, for each Terminated Transaction, by reference to relevant market information which shall consist of the arithmetic average (the “Calculation”) of market quotations (“Prices”) provided by the five (5) Contracting Parties who:
- (i) with respect to Terminated Transactions that are Physically Settled Oil Futures Transactions (collectively, “Oil Products”), have traded the highest overall volume of Oil Products listed on the NGX Trading System ;
 - (ii) with respect to Terminated Transactions that are Physically Settled Gas Futures Transactions, Options contemplating the delivery of gas or Options or for which the notional quantity is gas (collectively, “Gas Products”), have traded the highest overall volume of Gas Products listed on the NGX Trading System; ~~or~~
 - (iii) with respect to Terminated Transactions that are Physically Settled Power Futures Transactions, have traded the highest overall volume of Physically Settled Power Futures Products listed on the NGX Trading System; or

- (iv) with respect to Terminated Transactions that are transactions in Financially Settled Futures for which the notional quantity is ~~electricity~~financial power (collectively, "~~Electricity~~Financial Power Products"), have traded the highest overall volume of ~~Electricity~~Financial Power Products listed on the NGX Trading System,

(August 26, 2013 or such later date as may be designated by Exchange on notice to the Contracting Parties.)

over the immediately prior consecutive twelve (12) month period (the "Highest Volume") and the terms and conditions under which the Contracting Party would reasonably be able to enter into a replacement agreement with a third party on the same material terms and conditions as set out in the Terminated Transaction (a "Replacement Transaction"). If Prices are not forthcoming from any such five (5) Contracting Parties, Exchange shall obtain Prices from the Contracting Party with the next Highest Volume until five Prices have been obtained for the Calculation, and in circumstances where five such Prices are not forthcoming, Exchange shall perform the Calculation on such lesser number of Prices that can be obtained using the above method. Notwithstanding the foregoing, nothing in this Agreement shall require or be deemed to require the Contracting Party to enter into a Replacement Transaction.

As soon as practicable following the Early Termination Date and in no event later than five (5) days following the Early Termination Date, Exchange shall aggregate, Set-Off and net all Gains and Losses along with all other Obligations owed by Exchange to the Contracting Party under the Agreement ("Receivables") and all payables owed by the Contracting Party to Exchange under the Agreement ("Payables") to reduce all such amounts to a single net amount (the "Net Termination Payment") and notify the Contracting Party in writing of the Net Termination Payment owed to or owing by the Contracting Party (the "Termination Notice"). To the extent that the Contracting Party is owed a Net Termination Payment by Exchange, Exchange shall pay the Net Termination Payment to the Contracting Party as soon as practicable, making commercially reasonable efforts to pay such Net Termination Payment within ten (10) Business Days of receipt by the Contracting Party of the Termination Notice regarding such calculation. To the extent that the Contracting Party owes a Net Termination Payment to Exchange, the Contracting Party shall pay the Net Termination Payment to Exchange within two (2) Business Days of receipt of the Termination Notice. In the event that Exchange has not provided a Termination Notice to the Contracting Party within the five (5) day period set forth above, the Contracting Party shall have the right to calculate its Gains or Losses, as the case may be, for the Terminated Transactions, by determining a Price for each such Terminated Transaction, such Price being a good faith commercially reasonable representation of market value, which value may be disputed in good faith.

Any and all payments under this Section 5.13 shall be made in freely available Canadian currency by wire payment or electronic funds transfer. Any amount which is not paid when due under this Section 5.13 shall bear interest (both before and after judgment) at the Default Rate, as from the due date of payment until the date of payment, compounded monthly.

- c. Exchange's Right to Cause Early Termination of all Agreements and Transactions – The Contracting Party acknowledges that Exchange has entered into Contracting Party Agreements with other Contracting Parties and, pursuant thereto, Exchange is, from time to time, party to Transactions with such other Contracting Parties. The Contracting Party acknowledges and agrees that, in the event it or one or more other Contracting Parties designates an Early Termination Date (the "Triggering Early Termination Date") pursuant to this Agreement or one or more of the other Contracting Party Agreements, Exchange shall immediately become entitled, in its sole discretion, to designate an Early Termination Date under any one or more of this Agreement and the other Contracting Party Agreements. If Exchange does so, Exchange may designate an Early Termination Date for any or all such terminations which is the same day or is a

Exchange may, from time to time, conduct on-site audits of the Risk Management Documentation and the Contracting Party shall make reasonable efforts to facilitate any such audits.

b. Risk Limits.

- (i) Exchange shall set risk limits that prevent a Contracting Party’s Margin Requirement from exceeding two times the Contracting Party’s net worth, or two times the net worth of the Specified Entity where such entity has provided Exchange with financial statements, as adjusted by Exchange in its sole discretion (the “Risk Limit”). Exchange shall provide the Contracting Party with notification of its Risk Limit and any related updates that Exchange determines in its sole discretion are appropriate from time to time.

Upon such a request, Exchange agrees to:

- (i) return an amount of Cash Collateral equal to the lesser of:
 - (1) the full amount of such Cash Collateral; or
 - (2) such portion of such Cash Collateral as would reduce the value of the Collateral of the Contracting Party to be retained by Exchange, as calculated hereunder, to the Minimum Collateral Amount,

such return of Cash Collateral to occur on the next Business Day or, if the next Business Day is a Recognized Banking Holiday, then on the first Business Day that is not a Recognized Banking Holiday, following such request; or

10. **RISK TO EXCHANGE**

Notwithstanding any provision of this Agreement, Exchange reserves the right at any time to: (a) decline to enter into any Transactions which, in Exchange's sole determination, increases the credit exposure or adds additional risk of loss to or otherwise affects the risk profile of Exchange; or (b) take any other reasonable actions to preserve the integrity and security of Exchange, the NGX Trading System and/or the NGX Clearing System (including, without limitation, making a request of a Contracting Party for additional Eligible Collateral Support), as determined in the sole discretion of Exchange.

Exchange will only agree after the Contracting Party and the Contracting Party Affiliate have provided to Exchange Collateral sufficient to cover the Margin Requirements for each party.

13. DIVISIONS OR BUSINESS UNITS OF CONTRACTING PARTIES

At the request of a Contracting Party, Exchange may agree to provide segregated reports, invoices, nominations and Collateral accounts for divisions or business units as designated by the Contracting Party. Such segregation is for administration purposes only and will not change the rights or remedies of Exchange under this Agreement or the obligations of any such Contracting Party to perform its obligations as specified under this Agreement.
