Washington, D.C. 20581

Re: **Chicago Climate Futures Exchange, LLC**  
**Submission No. 09-18**

Dear Mr. Stawick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended (the "Act") and Part 40.6 of the regulations promulgated by the Commodity Futures Trading Commission ("CFTC") under the Act, Chicago Climate Futures Exchange, LLC ("CCFE") hereby submits amendments to the CCFE Rulebook (the "Rulebook").

The Exchange is amending Chapter 14 to list additional strike prices for Options on Sulfur Financial Instrument futures contracts ("SFI Options") and to update the language regarding new contract listings and position limits.

CCFE intends to make these amendments effective as of Friday, August 14, 2009. The Exchange certifies that these amendments neither violate nor are inconsistent with any portion of the Act or of the rules thereunder.

A marked copy of the amended Chapter 14 and revised contract specifications for the SFI Options contracts are attached hereto.

Should you require additional information regarding this submission, please contact me at 312.229.5163. Please reference our submission number 09-18 in any related correspondence.

Very truly yours,

Eric J. Nield  
Senior Vice President & General Counsel

**CHAPTER 14**  
**OPTIONS ON SULFUR FINANCIAL INSTRUMENT FUTURES**  
**CONTRACT SPECIFICATIONS**

**1401. Scope of Chapter**

This Chapter applies to trading in Options on Sulfur Financial Instrument (“SFI”) futures contracts (“SFI options”). The procedures for clearing, trading, settlement, and any other matters not specifically covered herein shall be governed by the generally applicable rules of the Exchange.

**1402. Eligibility**

Clearing members and Trading Privilege Holders trading in SFI options must have SO<sub>2</sub> registry accounts established with the U.S. Environmental Protection Agency (“EPA”).

**1403. Contract Specifications**

(a) *Contract size.* The contract size for the options calls or puts on Sulfur Financial Instrument futures contract is one (1) Sulfur Financial Instrument futures (“SFI futures”) contract which is equivalent to 25 EPA SO<sub>2</sub> emission allowances (“SO<sub>2</sub> Emission Allowances”).

(b) *Schedule.*

(i) Standard-cycle Contract Listing: The Exchange may list for trading up to thirty-six consecutive months as well up to eight annual December contracts after the last listed monthly contract.

(ii) CCFE may list any other calendar month contract off the standard-cycle listing schedule through the last annual December contract in conjunction with a listed SFI futures contract.

(iii) The trading hours for the SFI options shall be determined by the Exchange from time to time.

(c) *Products.* Within the front two listed contracts and the nearby December contract, the Exchange may offer options on one or more vintage-year specific products having different delivery specifications as follows:

- (i) Front-Year Vintage
- (ii) 1-Year Deferred Vintage
- (iii) 2-Year Deferred Vintage
- (iv) 3-Year Deferred Vintage
- (v) 4-Year Deferred Vintage

- (vi) 5-Year Deferred Vintage
- (vii) 6-Year Deferred Vintage
- (viii) 7-Year Deferred Vintage
- (ix) 8-Year Deferred Vintage
- (x) 9-Year Deferred Vintage
- (xi) 10-Year Deferred Vintage
- (xii) 11-Year Deferred Vintage
- (xii) 12-Year Deferred Vintage
- (xiv) Additional Deferred Vintages as determined by the Exchange

(d) *Termination of Trading (Contract Expiration).* The last day of trading of a contract is the second Business Day prior to the first position day for the expiring SFI futures contract at the normal Trading Session closing time.

(e) *New Contract Listing.* A new standard-cycle contract month will be listed on the next Business Day following a Contract Expiration.

Effective March 7, 2008, a new standard-cycle contract month will be listed on the same Business Day as a new contract listing for the underlying SFI futures contracts.

The vintage-year specific products will be listed on the same Business Day as new listings for underlying specific-year vintage product futures contracts.

(f) *Minimum Tick Increment.* The minimum tick increment of the SFI options is \$0.05 per SO<sub>2</sub> Emission Allowance, which is equal to \$1.25 per contract.

(g) *Strike Prices.* Call and put options based on ~~twenty-five~~ forty strike prices in the series will be listed at the introduction of a contract. 20 ~~Strike prices~~ will be listed at \$25 increments with ~~eight~~ ten listed below the at-the-money strike price and ~~sixteen~~ ten listed above the at-the-money strike price. 20 ~~strikes~~ will be listed in \$25 increments with 6 listed in increments beginning \$50 below the at-the-money strike price and 14 listed in increments beginning \$50 above the at-the-money strike price. Additional strikes will be listed on the trading day following the day a related futures contract settles for the first time above or below an existing option strike price.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate.

(h) *Exercise.* SFI options will have a European style exercise after the close of trading on the last trade day option exercise results in an underlying SFI futures contract position in the related contract month. The exercise of a call option will result in the buyer receiving a long position in the underlying SFI futures contract and the seller receiving a short position in the SFI futures contract. The exercise of a put option will result in the buyer receiving a short position in the underlying SFI futures

contract and the seller receiving a long position in the underlying SFI futures contract.

Options on positions that are in-the-money at the close on the last day of trading are automatically exercised unless proper instructions are provided to the Clearing Service Provider's clearing system not to exercise an in-the-money option by the Clearing Service Provider's expiration deadline.

Options on positions that are at or out-of-the-money at the close on the last day of trading will automatically expire at 5:00 p.m. Central Time unless contrary instructions are provided to the Clearing Service Provider's clearing system.

(i) *Reportable Positions.* Pursuant to Commission Regulation §15.03 and Commission Regulation Part 17, the position level that is required to be reported is any open position in SFI Options products at the close of trading on any trading day equal to or in excess of twenty-five contracts gross in each option quadrant. If one product within a contract month has a reportable position, all contract months' positions in the option contract and underlying futures contract must be reported.

(j) *Position Limits.* A person may not own or control more than 48,000 contracts, equivalent to  $\pm 200,000$  SO<sub>2</sub> Emission Allowances on a net futures-equivalent basis in each nearby month expiring futures product. Commission Regulation 150.1(f) states that the futures-equivalent value of an option is determined by adjusting the option by its delta coefficient from the previous day.

~~Effective with the January 2008 contract and all subsequent contracts, a person may not own or control more than 8,000 contracts, equivalent to 200,000 SO<sub>2</sub> Emission Allowances, on a net futures-equivalent basis, in each nearby month expiring futures product.~~

For the purposes of this rule, the positions of all accounts for which a person directly or indirectly controls trading shall be included, as described in Rule 409(f).

The foregoing position limit shall not apply to bona fide hedge positions meeting the requirements of the Commission Regulation §1.3(z)(1) and the Rules of the Exchange.

(k) *Contract Modifications.* Specifications are fixed as of the first day of trading of a contract. If any U.S. Government agency or body issues an order, ruling, directive or law that conflicts with the requirements of these rules, such order, ruling, directive or law shall construed to take precedence and become part of these rules, and all open and new contracts shall be subject to such government orders.

(l) *Block Trades.* Block trades shall be executed pursuant to the requirements of Rule 412. The minimum Block Trade quantity for the Options on Sulfur Financial Instrument futures contract shall be determined by the Exchange from time to

time. If the Block Trade is executed as a spread or a combination, one leg must meet the minimum Block Trade quantity for the SFI options contract and the other legs(s) must have a contract size that is reasonably related to the leg meeting the minimum Block Trade quantity.

(m) *Premium Payment.* The option premium must be paid by each option customer to its Clearing Member for purchased options within a reasonable time and the Clearing Member must pay the option premium to the Clearing Service Provider.
