**Re: Rule Certification. Notification of Amendment to New York Harbor Ultra-Low Sulfur Diesel (ULSD) Futures – Definitions  
NYMEX Submission #11-332**

Dear Mr. Stawick:

The New York Mercantile Exchange, Inc. ("NYMEX" or "Exchange") is notifying the Commodity Futures Trading Commission ("CFTC" or "Commission") that it is self-certifying an amendment to the definition of the term "Settlement Price" contained in Chapter 151 (New York Harbor Ultra-Low Sulfur Diesel (ULSD) futures (LH)), Rule 151.01A(D).

The current definition refers to the settlement price of the crude oil futures contract and is not consistent with the termination of trading rule for the New York Harbor Ultra-Low Sulfur Diesel (ULSD) futures. Furthermore, the current definition refers to legacy NYMEX settlement procedure rule 6.25 which is now incorporated into NYMEX chapter 8, rule 813. The definition of "Settlement Price" will be amended as follows:

**151.01. SCOPE**

(D) "The term "Settlement Price" shall mean the final settlement price used as the price for delivery of the product, which shall be the settlement price on the last third business day of the month prior to the twenty-fifth calendar day of the month preceding the delivery month. The final settlement price shall be determined in accordance with the procedures set forth in Exchange Rule 8136-25."

[remainder of rule unchanged]

As the New York Harbor Ultra-Low Sulfur Diesel (ULSD) futures contract currently has no open interest, this amendment will not affect the value of the contract.

Pursuant to Section 5c(c) of the Commodity Exchange Act ("Act") and CFTC Rule 40.6(c), the Exchange hereby certifies that the rule amendment complies with the Act, including regulations under the Act. There were no substantive opposing views to this proposal. This change will be made effective on trade date September 13, 2011.
