- e. Other Instructions to Exchange – It is acknowledged by Exchange that under certain circumstances a Contracting Party may give verbal, instant messaging, or email instructions to Exchange in circumstances other than those described under Section 3.1(d), and Exchange may, in its sole discretion, agree to act on such instructions. The Contracting Party acknowledges that Exchange may in its sole discretion refuse to agree to act on the basis of any such instructions and that Exchange will have no liability to the Contracting Party in respect of any errors, omissions, or other actions regarding such instructions or in respect of any refusal to act.
- f. Recording – The Contracting Party acknowledges, consents and agrees to the electronic recording by Exchange of all conversations, instructions or agreements between Exchange and the Contracting Party and agrees that any such record will constitute documentary evidence as to any such conversations, instructions or agreements in tangible form. The Contracting Party and Exchange agree not to assert any legal defence as to the admissibility, validity or enforceability of any verbal or instant messaging instructions or agreements as evidenced by any such record, including any assertion that any such instructions or agreement is not in writing or signed by a party or both parties. Exchange will maintain any such record for a period of two years, or longer in particular if Exchange is aware of any dispute, controversy, difference or question which may be resolved by any such record and will provide the Contracting Party with a copy of any portion of such record to the extent relevant to any such dispute, controversy, difference or question relating to the Contracting Party.

- i. Fees – The Contracting Party will pay the fees to Exchange in such amounts as are set forth in the Fee Schedule or as otherwise agreed to by the Contracting Party with Exchange, and as required by any correct Invoice.

3.2 Eligible Collateral Support and Collateral

- a. Eligible Collateral Support and Collateral – In accordance with the Risk Management Policy, the Contracting Party shall be obligated to provide from time to time, as security for the Contracting Party's Obligations, credit support consisting of: (i) irrevocable letters of credit issued by Approved Financial Institutions in favour of Exchange in a form acceptable to Exchange; or (ii) cash delivered by a Contracting Party to Exchange and held by Exchange in a segregated bank account specified by Exchange, which will be subject to a registered security interest in favour of Exchange (collectively, "Eligible Collateral Support"). The Contracting Party shall be responsible for any and all wire transfer fees applied or deducted by the Exchange's bank relating to the receipt, deposit or transfer of such Eligible Collateral Support. In addition, Exchange may, in its discretion, withhold and the Contracting Party hereby consents to such withholding, payables owing to the Contracting Party from Exchange as additional Collateral. The Contracting Party agrees and acknowledges that upon any failure by such Contracting Party to provide Eligible Collateral Support to Exchange in the amounts and manner set forth under the Risk Management Policy, Exchange shall have the rights and remedies set forth in this Agreement including, without limitation, the rights to cause a Contracting Party Suspension, effect the Close-out Procedure and/or effect the Liquidation Procedure with respect to the Contracting Party's Transactions. Exchange agrees that it shall be obligated to (i) return any Eligible Collateral Support to the Contracting Party, to the extent and pursuant to the terms provided under the Risk Management Policy and (ii) require all Contracting Parties to comply with the provisions of the Risk Management Policy.
- b. Grant of Security – As security for the payment and performance of its Obligations, the Contracting Party does hereby assign, pledge and grant to Exchange a first-ranking security interest in and lien on all estate, right, title and interest of the Contracting Party in and to:
 - i. any and all cash (including, without limitation, any cash delivered as Eligible Collateral Support), monies and interest bearing instruments contemplated by Section 3.2(k) delivered to, deposited with, or held by or on behalf of Exchange; (with the exception of Retained Settlement Amounts);
 - ii. any rights to payment or performance owing from Exchange including, without limitation:
 - (A) any Previous Month Accounts Net Payable for such Contracting Party;
 - (B) any Current Month Accounts Net Payable owed by Exchange to the Contracting Party;
 - (C) any Swap Settlement Net Payable, MTM Settlement Net Payable or Daily Swap Settlement Net Payable for such Contracting Party; and

 - iii. all proceeds (as such term is defined in the *Personal Property Security Act* (Alberta) of any of the foregoing,

(collectively, and together with any letter of credit constituting Eligible Collateral Support, the "Collateral").

For greater clarity, if Exchange is unable for any reason to register its security interest in the Collateral as first in priority to any other security interest registered against the Contracting Party in such Collateral, then the foregoing shall not constitute Collateral.

Upon any of the Collateral being returned or paid to the Contracting Party, the said Collateral shall be released from the Liens granted to Exchange by the Contracting Party hereunder. Any Lien granted as contemplated above attaches upon execution and delivery of this Agreement or, in the case of Collateral delivered to, deposited with, or held by or on behalf of Exchange, upon the delivery, deposit or holding of such Collateral to, with, by or on behalf of Exchange, or in the case of rights to payment or performance in favour of the Contracting Party under any Transaction, at the time such Transaction is entered into.

Exchange may file or record this Agreement or any financing statement, security notice or similar instrument in any public office as may be necessary to establish, perfect or maintain the interests of Exchange as a secured party. The Contracting Party hereby waives any requirement of the applicable personal property security legislation or similar legislation to provide a verification statement to the Contracting Party upon registration of any such Agreement, financing statement, security notice or similar instrument. Upon the full, final and indefeasible satisfaction of all Obligations, and termination of this Agreement, the Lien shall cease and determine, all rights and interests in the Collateral granted hereunder and hereby will revert to and revest in the Contracting Party without further act or formality whatsoever, whereupon Exchange shall, at the request and cost of the Contracting Party, execute such releases or discharges of the Lien or of such filings or recordations, prepared by or on behalf of the Contracting Party and acceptable to Exchange, without recourse to or warranty by Exchange. Exchange shall not have any duty or obligation in respect of any Collateral except the obligation to keep the same with the same degree of care as it keeps its own property of a similar type, and in particular shall not be responsible for or by reason of any loss arising from any failure of Exchange's Principal Banker (whether as a result of bankruptcy, insolvency or otherwise) with which any amount paid by or on behalf of the Contracting Party as Collateral will have been deposited or placed for safekeeping. No Obligation shall be considered to have been discharged by reason of the existence of the Lien or the rights herein provided unless (and then only to the extent that) Exchange has finally and indefeasibly collected and applied to such Obligation any amount held as or obtained in respect of Collateral or the net proceeds (after satisfying any costs of realization) of realization of any Collateral or has drawn down upon any letter of credit and applied the same to such Obligation or has applied any amount owing by Exchange to the satisfaction thereof and so advised the Contracting Party in writing. The Contracting Party hereby represents and warrants that all Collateral provided to Exchange from time to time is and will be free and clear from any Liens ranking in priority to or equally with the rights of Exchange to such Collateral and that the Lien herein provided to Exchange is and will be a valid first ranking Lien on the Collateral. Exchange and the Contracting Party agree that all Eligible Collateral Support and all Collateral shall constitute "financial collateral" as that term is used in section 11.1 of the CCAA; section 66.34 of the BIA; section 22.1 of the WRA and any successor or like Canadian statutory provisions.

This Guarantee is one of payment and not of collection. This Guarantee is irrevocable and shall remain in full force and effect and be binding upon the Contracting Party, its successors and assigns during the term of this Agreement and until all of the Obligations of its Contracting Party Affiliates have been satisfied in full. Upon the occurrence of a Default with respect to any Contracting Party or, except as Exchange may otherwise agree, any Contracting Party Affiliate, Exchange shall be entitled to draw upon any letter of credit provided to it by the Contracting Party up to the amount of the Obligations that are due.
- f. **Suretyship Waiver** – The Obligations of Contracting Party and its Contracting Party Affiliates and the grant of security in respect of this Agreement under Section 3.2(b) shall not be affected by any circumstance of any kind, including circumstances which might otherwise constitute a legal or equitable discharge of or defence of a guarantor or surety (other than payment in full).

Exchange does not make any express or implied warranties in respect of the results which may be achieved through the use of any of such indices or in respect of the value of any of such indices at any given time, nor that any settlement prices established are at a fair, proper or correct amount. Neither Exchange nor its agents, directors, officers and employees shall, under any circumstances, be liable for errors or deficiencies in the calculation, methodology of calculation or publication of any of such indices nor shall Exchange be obligated to provide notice of, or publish, errors in any of such indices in any manner.
- b. Other Indices – Products, which are settled pursuant to the terms of this Agreement on the basis of settlement prices reported by any entity other than Exchange, are not issued, endorsed, sold or promoted by such entity, nor has such entity passed on their legality or suitability. Neither Exchange, nor its respective agents, directors, officers and employees shall be liable to the Contracting Party for any losses, costs, expenses arising from any matter relating to the source or accuracy of the underlying data, calculation, methodology of calculation, compilation, or publication of any indices which are used for the settlement of any Transaction and which are derived from any publication or any other third party index. Neither Exchange, nor its agents, directors, officers and employees shall, under any circumstances, be liable for errors or deficiencies in the calculation, methodology of calculation, compilation or publication of any of the indices nor shall Exchange be obligated to provide notice of, or publish, errors in any of the indices in any manner. Nor shall Exchange nor its agents, directors, officers and employees shall be liable to the Contracting Party for any losses, damages, costs or expenses arising from any failure of publisher of such indices to establish settlement prices or report settlement prices for their contracts at a fair, proper or correct amount.

5.13 Remedies Upon an Exchange Bankruptcy Event of Default

- a. Early Termination – In the event that there occurs and is continuing an Exchange Bankruptcy Event of Default, the Contracting Party, in addition to any remedies it may have at law or in equity or otherwise under this Agreement or under any Transaction, may, on no less than five (5) days notice to Exchange (the "Early Termination Notice Date"), designate a day no earlier than the Early Termination Notice Date and no later than sixty (60) days after becoming aware of such

Exchange Bankruptcy Event of Default, as an early termination date (the "Early Termination Date"). On the Early Termination Date, all outstanding Transactions (collectively the "Terminated Transactions") shall be terminated.

- b. Remedies Upon Early Termination – If the Terminated Transactions are terminated by the Contracting Party pursuant to Section 5.13(a), Exchange shall in good faith calculate in a commercially reasonable manner: (i) an amount equal to the present value on the Early Termination Date (using the Default Rate as the discount rate) of the economic benefit to it, if any, resulting from the termination of the Terminated Transactions (the "Gains"); and (ii) an amount equal to the present value on the Early Termination Date (using the Default Rate as the discount rate) of the economic loss to it, if any, resulting from the termination of the Terminated Transactions (the "Losses"). Gains and Losses shall be determined, for each Terminated Transaction, by reference to relevant market information (which shall consist of the arithmetic average (the "Calculation") of market quotations ("Prices") provided by the five (5) Contracting Parties who:

- (x) with respect to Terminated Transactions that are Physical Oil Transactions or Swap Transactions for which the notional quantity is Oil (collectively, "Oil Products"), have traded the highest overall volume of Oil Products listed on the NGX Trading System;
- (y) with respect to Terminated Transactions that are Physical Gas Transactions, Options contemplating the delivery of gas or Options or Swap Transactions for which the notional quantity is gas (collectively, "Gas Products"), have traded the highest overall volume of Gas Products listed on the NGX Trading System; or
- (z) with respect to Terminated Transactions that are Swap Transactions for which the notional quantity is electricity (collectively "Electricity Products"), have traded the highest overall volume of Electricity Products listed on the NGX Trading System,

over the immediately prior consecutive twelve (12) month period (the "Highest Volume") and the terms and conditions under which the Contracting Party would reasonably be able to enter into a replacement agreement with a third party on the same material terms and conditions as set out in the Terminated Transaction (a "Replacement Transaction"). If Prices are not forthcoming from any such five (5) Contracting Parties, Exchange shall obtain Prices from the Contracting Party with the next Highest Volume until five Prices have been obtained for the Calculation, and in circumstances where five such Prices are not forthcoming, Exchange shall perform the Calculation on such lesser number of Prices that can be obtained using the above method. Notwithstanding the foregoing, nothing in this Agreement shall require or be deemed to require the Contracting Party to enter into a Replacement Transaction.

As soon as practicable following the Early Termination Date and in no event later than five (5) days following the Early Termination Date, Exchange shall aggregate, Set-Off and net all Gains and Losses along with all other Obligations owed by Exchange to the Contracting Party under the Agreement ("Receivables") and all payables owed by the Contracting Party to Exchange under the Agreement ("Payables") to reduce all such amounts to a single net amount (the "Net Termination Payment") and notify the Contracting Party in writing of the Net Termination Payment owed to or owing by the Contracting Party (the "Termination Notice"). To the extent that the Contracting Party is owed a Net Termination Payment by Exchange, Exchange shall pay the Net Termination Payment to the Contracting Party as soon as practicable, making commercially reasonable efforts to pay such Net Termination Payment within ten (10) Business Days of receipt by the Contracting Party of the Termination Notice regarding such calculation. To the extent that the Contracting Party owes a Net Termination Payment to Exchange, the Contracting Party shall pay the Net Termination Payment to Exchange within two (2) Business Days of receipt of the Termination Notice. In the event that Exchange has not provided a Termination Notice to the Contracting Party within the five (5) day period set forth above, the Contracting Party shall have the right to calculate its Gains or Losses, as the case may be, for the Terminated Transactions, by determining

a Price for each such Terminated Transaction, such Price being a good faith commercially reasonable representation of market value, which value may be disputed in good faith.

Any and all payments under this Section 5.13 shall be made in freely available Canadian currency by wire payment or electronic funds transfer. Any amount which is not paid when due under this Section 5.13 shall bear interest (both before and after judgment) at the Default Rate, as from the due date of payment until the date of payment, compounded monthly.

- c. Exchange's Right to Cause Early Termination of all Agreements and Transactions – The Contracting Party acknowledges that Exchange has entered into Contracting Party Agreements with other Contracting Parties and, pursuant thereto, Exchange is, from time to time, party to Transactions with such other Contracting Parties. The Contracting Party acknowledges and agrees that, in the event it or one or more other Contracting Parties designates an Early Termination Date (the "Triggering Early Termination Date") pursuant to this Agreement or one or more of the other Contracting Party Agreements, Exchange shall immediately become entitled, in its sole discretion, to designate an Early Termination Date under any one or more of this Agreement and the other Contracting Party Agreements. If Exchange does so, Exchange may designate an Early Termination Date for any or all such terminations which is the same day or is a day later than the Triggering Early Termination Date, in Exchange's sole discretion. In the event that Exchange does designate one or more Early Termination Dates following the Triggering Early Termination Date, all the other provisions of this Section 5.13 shall apply thereto *mutatis mutandis*.

ARTICLE 6 - SUSPENSION OR TERMINATION

6.1 Code of Conduct: Prohibitions

The Contracting Party agrees that it will not: (a) engage in any act of fraud, bad faith, extortion, dishonest conduct, or material misstatement, or any other unlawful activity including, without limitation, in respect of any information provided to Exchange or matter pertaining to the performance of any Transaction or in any other dealing with Exchange or the other Contracting Parties; (b) manipulate or attempt to manipulate prices of any Product offered by Exchange, including, without limitation, by spreading inaccurate information, reporting false transactions or any other act designed or intended to manipulate the price for any Product offered by Exchange; or (c) commit any act, or do anything, which is, or could foreseeably be, in substance, detrimental to the interests, welfare or integrity of the ICE Trading Platform, NGX Trading System or NGX Clearing System.

(April 19, 2010)

6.2 Consequences of Breach of Code of Conduct

If the Contracting Party commits any act prohibited by Section 6.1, Exchange may in addition to any other rights or remedies it may have under this Agreement or under law, equity or otherwise, cause a Contracting Party Suspension by notice to the Contracting Party for a period, which Contracting Party Suspension may be for a period in excess of the period during which the Contracting Party is in default or continues to commit such act, or permanently and which Contracting Party Suspension will be effective on the later of the date of receipt of the notice or the date set forth in the notice. In addition, Exchange may, in its sole discretion, charge an amount as liquidated damages equal to \$5,000 representing the pre-estimated amount of the costs of investigation and damage suffered by Exchange in respect of injury to the development, reputation and integrity of the business carried on by Exchange.

6.3 General Suspension

Exchange, in its sole discretion, may, but is not obligated to, cause a General Suspension for such period as it believes necessary or advisable if Exchange believes any of the following events or conditions are occurring or have occurred: (a) any manipulative activity or activity aimed at manipulation of prices, without limitation by spreading inaccurate information, reporting false transactions or otherwise performing any other act designed or intended to manipulate the price for gas, or any circumstance or circumstances that might improperly affect the performance of Transactions; (b) matters affecting the safety or welfare of personnel, or that may have a severe, adverse effect on the building where Exchange is located; (c) fires, bomb threats, substantial inclement weather, power failures and communication breakdowns; (d) any event which constitutes, or may in the opinion of Exchange constitute, a force majeure event, as defined in Schedules "F", "G" or "H"; (e) any circumstances that cause Exchange host computers to be taken off-line; (f) any matter that, in the opinion of Exchange, detrimentally affects the Regulatory Approvals of Exchange in respect of its performance of this Agreement; or (g) the entering into of a Physical Transaction or Swap Transaction in error or outside the Market Price Band.

The consequences of a General Suspension will be that Exchange may refuse access to the NGX Trading System and/or NGX Clearing System by the Contracting Parties for any or all Products. The Contracting Party must perform its Obligations to make delivery or take receipt of gas and Oil under the applicable Physical Transactions during any period of General Suspension. Exchange will use its commercially reasonable efforts to provide alternative trading capabilities within three Business Days in the event that access to the NGX Trading System and/or NGX Clearing System cannot be resumed.

6.5 Procedures on General Suspension

In the event of a General Suspension, Exchange would immediately notify all Contracting Parties as to the reason and expected duration of the General Suspension by phone, fax, email or if possible by access through the NGX Trading System. All communications by Exchange with Contracting Parties would be undertaken by phone, with fax confirmations until such time as access to the NGX Trading System is resumed or alternative trading facilities are available.

6.6 Contracting Party Suspension

In addition to its rights under this Agreement or under law, equity or otherwise including, without limitation, Section 6.2, Exchange, in its sole discretion exercised in a commercially reasonable manner, may cause a Contracting Party Suspension for such periods as it believes necessary or advisable if Exchange believes any of the following events or conditions are occurring or have occurred in respect of: (a) marketing irregularities, including any marketing irregularities caused by the Contracting Party whether, directly or indirectly, alone or in association with others, including, but not limited to any manipulative activity or activity aimed at manipulation of prices, including, without limitation, by spreading inaccurate information, reporting false transactions, or otherwise performing any other act designed or intended to manipulate the price for gas or Oil, or any circumstance or circumstances that might improperly affect the performance of Transactions; (b) financial condition, including any material adverse change in the financial condition of the Contracting Party or an affiliate or any person providing credit support for the Contracting Party each as determined in the sole discretion of Exchange, or Failure to Provide Eligible Collateral Support with Exchange when requested to do so; (c) detrimental effect, including circumstances which make the continued access to the NGX Trading System by the Contracting Party detrimental to the existence of an orderly market for gas or Oil, or otherwise detrimentally affects the interests, welfare or integrity of the NGX Trading System or NGX Clearing System; (d) regulatory approvals, including any matter which may, as determined in the sole discretion of Exchange, detrimentally affect the Regulatory Approvals of the Contracting Party in respect of its performance of this Agreement or (e) the occurrence of a Failure to Deliver, Failure to Pay, Failure to Take, Event of Default, a Swap Party's Default, an Option Party's Default or Failure to Provide Eligible Collateral Support.

6.7 Consequences of Contracting Party Suspension

Without limitation to its rights under Section 6.2, in the event that Exchange causes a Contracting Party Suspension, Exchange will provide notice to such Contracting Party and the Contracting Party will not be entitled to enter into some or all Transactions, as identified in such notice, after receipt of such notice. Upon the occurrence of a Contracting Party Suspension, Exchange may exercise any of the rights under Section 5.5 or Section 8.2, with references to the "Defaulting Party" deemed to be references to the suspended Contracting Party, as well as any other rights or remedies granted under this Agreement or under law, equity or otherwise.

6.8 Surveillance and Compliance

If the Contracting Party shall be required by law to deduct any Taxes from or in respect of any sum payable hereunder to Exchange:
 - i. the sum payable shall be increased as may be necessary so that after making all required deductions (including deductions applicable to additional sums payable under this Section 7.3) Exchange receives an amount equal to the sum it would have received had no such deductions been made; and
 - ii. the Contracting Party shall pay the full amount deducted to the relevant taxation authority or other authority in accordance with the applicable law.

2. MEDIATION PROCEDURE

- c. Points of Issue - Within 3 days after a mediator has been selected, each party shall submit a written statement outlining the points at issue to the mediator and to the other party. The mediator may communicate with the parties orally or in writing and may meet with the parties together or individually. - d. Mediator In Future Proceedings - The mediator shall not act as a representative or witness of either party or otherwise participate in any arbitration or judicial proceedings related to a dispute that was the subject of the mediation.

The third Arbitrator shall serve as Chairman of the Arbitral Tribunal.
- c. The Award rendered by the Arbitrators shall be final and binding on the parties.

SCHEDULE "E" - NATURAL GAS, OIL AND ELECTRICITY SWAPS AND OPTIONS

1. SWAP AND OPTION PRODUCT AVAILABILITY

Swap Transactions and Options may be entered into until such times on such ~~Trading Days~~ trading days as is stipulated by Exchange on the NGX Trading System. This Schedule "E" contains the clearing and settlement provisions for all Swap Products and Option Products listed on the NGX Product List and designated as cleared through the NGX Clearing System.

(November 1, 2010 or such later date as may be designated
by Exchange on notice to the Contracting Parties)

2. RELATIONSHIP TO AGREEMENT

Nothing in this Schedule "E" will impair the obligations or rights of Exchange or the rights or obligations of the Contracting Party pursuant to this Agreement. Any Contracting Party which is a party to a Swap Transaction or Option Transaction hereby agrees that any such Swap Transaction or Option Transaction includes the provisions of this Schedule "E" and is subject to the terms of this Agreement.

3. CALCULATION PERIODS FOR SWAP PRODUCTS

- a. Natural Gas and Oil Swaps - The Calculation Period is equal to the number of days in the Swap Transaction starting on the Effective Date and ending on the Period End Date.
- b. Electricity Swaps - The Calculation Period is equal to the number of hours in the applicable Electricity Swap Product starting on the Effective Date and ending on the Period End Date.

(November 1, 2010 or such later date as may be designated
by Exchange on notice to the Contracting Parties)

4. DETERMINATION OF SWAP CLEARING AMOUNTS FOR SWAP CONTRACTS TRANSACTIONS OTHER THAN DAILY SWAP TRANSACTIONS

- a. Calculation of Fixed Amount:

The Fixed Amount payable under a Transaction by the Fixed Price Payer will be calculated as follows:

The Fixed Amount equals the Notional Quantity times the Calculation Period times the Fixed Price.

- b. Calculation of Floating Amount:

The Floating Amount payable under a Swap Transaction by the Floating Price Payer will be calculated as follows:

The Floating Amount equals the Notional Quantity times the Calculation Period times the Floating Price.

- c. Calculation of Swap Clearing Amount:

The Swap Clearing Amount for each Swap Transaction is the result obtained by subtracting the Floating Amount from the Fixed Amount.

If the Swap Clearing Amount (expressed in \$C or \$U.S.) is greater than 0, -Fixed Price Payer agrees to pay to Floating Price Payers such Swap Clearing Amount on the Swap Settlement Date.

If the Swap Clearing Amount (expressed in \$C or \$U.S.) is less than 0, Floating Price Payer agrees to pay to Fixed Price Payer on the Swap Settlement Date the absolute value of such Swap Clearing Amount.

(November 1, 2010 or such later date as may be designated by Exchange on notice to the Contracting Parties)

5. DETERMINATION OF MARK-TO-MARKET SETTLEMENT AND DAILY SWAP SETTLEMENT AMOUNTS FOR DAILY SWAP TRANSACTIONS

a. Determination of Mark-to-Market Settlement Amount

On the Transaction Date, the mark-to-market settlement amount ("MTM Settlement Amount") for a Daily Swap Transaction is the result obtained by subtracting the Settlement Price (SP) from the Fixed Price (FP) times the Calculation Period (CP) times the Notional Quantity (NQ): $(FP - SP) \times CP \times NQ$.

On each Business Day following the Transaction Date, for the applicable Term of a Daily Swap Transaction, the MTM Settlement Amount is the result obtained by subtracting the Settlement Price (SP) from the Prior Settlement Price (SPP) times the Calculation Period (CP) times the Notional Quantity (NQ). $(PSS - SP) \times CP \times NQ$.

If the MTM Settlement Amount (expressed in \$C or \$U.S.) is greater than 0, Fixed Price Payer agrees to pay to Floating Price Payer such MTM Settlement Amount on the MTM Settlement Date.

If the MTM Settlement Amount (expressed in \$C or \$U.S.) is less than 0, Floating Price Payer agrees to pay to Fixed Price Payer the absolute value of such MTM Settlement Amount on the MTM Settlement Date.

b. Determination of Daily Swap Settlement Amount

On each Business Day commencing on the first Business Day of the applicable Term of a Daily Swap Transaction, and continuing for the Term of a Daily Swap Transaction, the Daily Swap Settlement Amount is the result obtained by subtracting the Floating Price (FP) from the Settlement Price (SP) times the Calculation Period (CP) times the Notional Quantity (NQ). $(SP - FP) \times CP \times NQ$.

If the Daily Swap Settlement Amount (expressed in \$C or \$U.S.) is greater than 0, Fixed Price Payer agrees to pay to Floating Price Payer such Daily Swap Settlement Amount on the Swap Settlement Date.

If the Daily Swap Settlement Amount (expressed in \$C or \$U.S.) is less than 0, Floating Price Payer agrees to pay to Fixed Price Payer the absolute value of such Daily Swap Settlement Amount on the Swap Settlement Date.

(November 1, 2010 or such later date as may be designated by Exchange on notice to the Contracting Parties)

5.6. DETERMINATION OF OPTION PREMIUM AMOUNT, OPTION EXERCISE CONDITIONS AND EFFECT OF OPTION EXERCISE

a. Calculation of Option Premium Amount:

The Option Premium Amount payable by the Option Buyer under an Option Transaction in which the relevant Underlying Transaction is a Swap Transaction equals the Option Premium Price times the Notional Quantity for such Swap Transaction times the Calculation Period for such Swap Transaction.

b. Description of Option Exercise Conditions:

Call Options: An Option Transaction that relates to a Call Option on an Underlying Transaction that is a Swap Transaction will be exercised (the "Call Exercise") such that the Option Buyer shall cause the Underlying Transaction to become effective if, in the case of an Alberta-Fixed or Alberta-Basis Swap Call Option, the Underlying Price is greater than the Strike Price on the relevant Option Exercise Date.

Put Options: An Option Transaction that relates to a Put Option on an Underlying Transaction that is a Swap Transaction will be exercised (the "Put Exercise") such that the Option Buyer shall cause the Underlying Transaction to become effective if, in the case of an Alberta-Fixed or Alberta-Basis Swap Put Option, the Underlying Price is less than the Strike Price on the relevant Option Exercise Date.

c. Effect of Option Exercise:

Alberta-Fixed and Alberta-Basis Swap Call Option - If the Call Exercise occurs, then the Underlying Transaction (the Alberta-Fixed Swap or the Alberta-Basis Swap) becomes effective as of the Call Exercise, the terms and conditions applicable to such Underlying Transaction govern and the following is deemed to have occurred:

- i. the Option Buyer becomes the Fixed Price Payer in respect of such Alberta-Fixed or Alberta-Basis Swap Transaction and has the respective rights and obligations of such payer under this Agreement, including with respect to the applicable Swap Clearing Amount payable on the respective Swap Settlement Date;
- ii. the Option Seller becomes the Floating Price Payer in respect of the Alberta-Fixed or Alberta-Basis Swap and has the respective rights and obligations of such payer under this Agreement, including with respect to the applicable Swap Clearing Amount payable on the respective Swap Settlement Date;
- iii. the Strike Price becomes the Fixed Price in respect of the Alberta-Fixed or Alberta-Basis Swap; and
- iv. the Underlying Price becomes the Floating Price in respect of the Alberta-Fixed or Alberta-Basis Swap.

Alberta-Fixed and Alberta-Basis Swap Put Option - If the Put Exercise occurs, then the Underlying Transaction (the Alberta-Fixed Swap or the Alberta-Basis Swap) becomes effective as of the Put Exercise, the terms and conditions applicable to such Underlying Transaction govern and the following is deemed to have occurred:

- i. the Option Buyer becomes the Floating Price Payer in respect of such Alberta-Fixed or Alberta-Basis Swap Transaction and has the respective rights and obligations of such payer under this Agreement, including with respect to the applicable Swap Clearing Amount payable on the respective Swap Settlement Date;
- ii. the Option Seller becomes the Fixed Price Payer in respect of the Alberta-Fixed or Alberta-Basis Swap and has the respective rights and obligations of such payer under this Agreement, including with respect to the applicable Swap Clearing Amount payable on the respective Swap Settlement Date;
- iii. the Underlying Price becomes the Floating Price in respect of the Alberta-Fixed or Alberta-Basis Swap; and
- iv. the Strike Price becomes the Fixed Price in respect of the Alberta-Fixed or Alberta-Basis Swap.

If an Option Transaction is not exercised, then such Option Transaction shall be deemed to have met the Option Expiry Conditions and such Option Transaction will expire on the respective Option Exercise Date with no further opportunity for the Underlying Transaction to become effective.

In the event that the Underlying Price for any Option Transaction (where the Underlying Transaction is a Swap Transaction) is corrected (the "Correction") by the publication from which the applicable price was derived after the Option Exercise Date, Exchange will post on Exchange's Website for access by the

respective Option Buyer and corresponding Option Seller the corrected Underlying Price (the "Corrected Underlying Price"). If such Option Transaction was exercised on the Option Exercise Date but the posting of the Corrected Underlying Price would mean that with the benefit of such information on the Option Exercise Date the respective Option Exercise Conditions would not have been met, then the Underlying Transaction will be cancelled if (a) the Corrected Underlying Price is lower than the Strike Price in the case of a Call Option, or higher than the Strike Price in the case of a Put Option, and (b) the Correction occurs within thirty (30) days (the "Correction Date") of the Option Exercise Date.

If such Option Transaction expired on the Option Exercise Date but the posting of the Corrected Underlying Price would mean that with the benefit of such information on the Option Exercise Date the respective Option Exercise Conditions would have been met, then the expiry will be cancelled and the Underlying Transaction will be deemed to have become effective as of the Option Exercise Date if (a) the Corrected Underlying Price is higher than the Strike price in the case of a Call Option, or lower than the Strike Price in the case of a Put Option and (b) the Correction occurs within the Correction Date.

6.7. SWAP INVOICES AND OPTION INVOICES

Invoices for the Swap Clearing Amounts, MTM Settlement Amounts, Daily Settlement Amounts and Option Premium Amounts will be determined in accordance with this Schedule "E" and Section 8.4 of the Terms and Conditions. Invoices will be due and payable as follows:

- a. Swap Transactions and Daily Swap Transactions (other than the MTM Settlement Amount)- in accordance with the Swap Settlement Date.
- b. Daily Swap Transactions – MTM Settlement Amounts and Daily Settlement Amounts will be invoiced in accordance with the MTM Settlement Date and the Swap Settlement Date, respectively.

No Indirect Damages - Other than as specifically set forth in this Agreement, in no event shall Exchange or the Contracting Party be liable under this Agreement or any Swap Transaction or Option Transaction for any special, consequential or indirect damages or claims, including without limitation, loss of profits or revenues, cost of capital or claims of any of the suppliers or customers to the Contracting Party arising out of any Swap Party's Default, Option Party's Default or any Exchange Default or any other matter for which liability may be assessed under this Agreement or any Swap Transaction.

8.9. ALL OR NOTHING OIL SWAP TRANSACTIONS

In connection with any Swap Transactions entered on the Oil Trading Platform, the "All or Nothing" designation on the Oil Trading Platform must be selected by a Contracting Party if it wishes to purchase or sell only the full notional quantity of the amount offered by such Contracting Party. Otherwise, such offer to purchase or sell such notional quantity of Oil shall be matched with a corresponding offer to sell or purchase the notional quantity of Oil notwithstanding that the proposed Contract Quantities are not the same, and the proposed Contract Quantity for the matched offers shall be the lesser of the two Contract Quantities. In such circumstance and in the event that a Contracting Party's matched Contract Quantity is less than the Contract Quantity offered to be bought or sold by the Contracting Party, the Contracting Party's offer shall remain in effect in accordance with its terms with respect to the residual Contract Quantity.

11. FORCE MAJEURE

- a. A force majeure event may be declared by Exchange at one of the U.S. Delivery Points if a U.S. Delivery Point Operator or U.S. Pipeline Operator declares a force majeure event or materially curtails, interrupts or prorates firm transportation services for a material number of Contracting Parties. Exchange also reserves the right to declare a force majeure if an event (including, but not limited to, a strike, lockout, national emergency, governmental action or act of God) occurs that materially affects the ability of a material number of Contracting Parties to meet their Obligations and that is beyond the control of the Contracting Parties.

For clarity, Exchange will not declare a force majeure to the extent performance is affected by any of the following circumstances: (i) the curtailment of interruptible or secondary firm transportation unless primary, in path, firm transportation is also curtailed; (ii) the failure of a Contracting Party to take commercially reasonable efforts to remedy a transportation, supply or market access issue including, but not limited to, changing upstream or downstream pipelines and/or corresponding supplies or markets; (iii) the economic hardship of a Contracting Party, including, but not limited to, the Seller's ability to sell gas at a better price than the Purchase Price or the Buyer's ability to purchase gas at a better price than the Purchase Price or a regulatory authority disallowing, either in whole or in part, the pass through of costs resulting from this Agreement; (iv) the loss of the Buyer's market or the Buyer's ability to use or resell gas purchased hereunder; or (v) the loss or failure of the Seller's gas supply or depletion of reserves.

- b. On any day that a force majeure event is declared at one of the U.S. Delivery Points, the Contracting Party's obligation to take or deliver gas pursuant to all Physical Gas Transactions at that U.S. Delivery Point shall be reduced by the same percentage as the curtailment, interruption or allocation for that day. Any Physical Gas Products affected by the force majeure event may be halted from trading for the duration of the force majeure event.

12. PROCEDURES ON FORCE MAJEURE EVENT

- a. Investigation - Exchange will, in consultation with the applicable Delivery Point Operator make a determination of whether a force majeure event exists and an estimate of its probable duration.
- b. Notice to Contracting Parties - If a force majeure event is determined by Exchange to exist (the "Force Majeure Declaration"), all affected Contracting Parties will be immediately notified by phone, fax or email:
 - i. that the Force Majeure Declaration has been made;
 - ii. the reduction in relevant obligations; and
 - iii. which Physical Gas Products, if any, will be halted from trading.
- c. Title Transfer - The Seller, Buyer and Exchange will make all necessary changes to the applicable Delivery Point Operator Title Transfers to reflect the reduced obligations.

- d. Further Notice - Exchange will promptly advise the affected Contracting Parties of any material changes to the Force Majeure Declaration.

13. INVOICE AMOUNTS

Exchange will determine the amounts owing or payable on a monthly basis for the U.S. Delivery Points as follows:

- a. For gas delivered or taken by multiplying:
- i. the portion of the Contract Quantity of gas delivered or taken at each of the U.S. Delivery Points under all Physical Gas Transactions for each Delivery Day of the given Month expressed in MMBtu's; by
 - ii. the Purchase Price, expressed in U.S. dollars per MMBtu for all Physical Gas Transactions for such Month; plus
- b. All fees as outlined in the Fee Schedule; plus
- c. Any fees charged to Exchange by any of the applicable Delivery Point Operators for the Title Transfers pertaining to the delivery of gas under all such Physical Gas Transactions; plus
- d. Any applicable taxes pursuant to Section 7 of the Terms and Conditions.

14. INTERPRETATION

- a. All times referred to herein are to Central Prevailing Time.
- b. All amounts of money referred to herein or in this Agreement in respect of the U.S. Delivery Points are in U.S. dollars.

SCHEDULE "H" – PHYSICAL OIL TRANSACTIONS

1. PRODUCT AVAILABILITY

Physical Oil Transactions may be entered into up to such times on such Trading Days as are stipulated by Exchange through the NGX Trading System to the Contracting Parties from time to time. This Schedule "H" and Appendix 1 – Canadian Trading Specifications and Appendix 2 – United States Trading Specifications, attached hereto and forming part of this Schedule "H" (collectively, this "Schedule"), contains additional terms and conditions with respect to such Physical Oil Transactions.

2. RELATIONSHIP TO AGREEMENT

Any Contracting Party which is a party to a Physical Oil Transaction under this Agreement hereby agrees that any such Physical Oil Transaction includes the provisions of this Schedule and is subject to the terms of this Agreement.

3. TITLE, DELIVERIES AND TAKES

3.1 Deliveries and Takes

Subject to Section 4.3(e) of the Terms and Conditions, Seller shall cause to be delivered, and Buyer shall cause to be taken and paid for, the Contract Volume for each Physical Oil Transaction at the Delivery Point in accordance with this Schedule and the rules and procedures of the applicable Transportation System. The report by the applicable Transportation System in its final allocation for the delivery month shall be accepted, absent a manifest error, as the final determination of the quality and volume of the Oil delivered and taken under this Agreement for such month. As the delivery of Oil is subject to variances related to normal Transportation System operations, all deliveries and takes under each Physical Oil Transaction shall be deemed to occur in equal daily quantities over each delivery month or the applicable Delivery Period, whichever is shorter.

3.2 Title and Risk

- (a) From Seller - Title to and risk of loss of Oil delivered under any Physical Oil Transaction shall pass from the Seller during delivery at the receipt point specified in such Physical Oil Transaction.
- (b) To Buyer - Title to and risk of loss of Oil delivered under any Physical Oil Transaction shall pass to the Buyer during delivery at the receipt point specified in such Physical Oil Transaction.
- (c) Regarding Exchange - In no event should this Agreement be construed in a manner whereby title to and risk of loss of Oil delivered under any Physical Oil Transaction shall:
 - (i) pass to Exchange, as Buyer, except as required by the Transportation System to facilitate any transfer of title from Exchange to Seller, which in such case shall be deemed to occur concurrently; or
 - (ii) be held by Exchange, as Seller, except as required by the Transportation System to facilitate any transfer of title from Exchange to Buyer, which in such case shall be deemed to occur concurrently.

3.3 Equalization, Adjustment and Conversion

Equalizations, transportation adjustments and conversions of all Oil volumes shall be made in accordance with the Canadian Trading Specifications (Appendix 1 to this Schedule) and the United States Trading Specifications (Appendix 2 to this Schedule).

3.4 Delivery Procedures

Subject to the Risk Management Policy, the Contracting Party shall in respect of each Physical Oil Transaction: (a) comply promptly with all Transportation System rules and procedures governing notices and determinations relating to the delivery and receipt of Oil for the applicable Delivery Points, (b) designate with the Transportation System all Contract Quantities of Oil as firm and fixed volumes and not as swing volumes, and (c) not amend notices of shipment or reallocate volumes related to the Contract Quantities of Oil contemplated by such Physical Oil Transaction.

3.5 Representations and Warranties

The Contracting Party represents and warrants in respect of any Physical Oil Transaction entered into it that at the time of delivery or receipt:

- (a) if it is the Seller,
 - (i) it has the full right and authority to sell the Oil;
 - (ii) it owns and has good title to the Oil or proper and irrevocable or title to sell the Oil;
 - (iii) Oil delivered to the Buyer shall be conveyed to Buyer with good title, free and clear from all liens, encumbrances, adverse claims and security interests, including (without limitation) royalties, overriding royalties or like charges against the Oil or the value thereof and Oil Taxes;
 - (iv) the Oil shall conform to the trading specifications of the Physical Oil Transaction as contemplated by this Agreement and within stated tolerances and in accordance with standard commercial practice as determined by the applicable Transportation System; and
 - (v) it has all necessary rights and entitlements for the delivery of the Oil on all applicable Transportation Systems as contemplated herein.
- (b) if it is the Buyer,
 - (i) it has the full right and authority to purchase the Oil; and
 - (ii) it has all necessary rights and entitlements for the receipt of the Oil on all applicable Transportation Systems as contemplated herein.

3.6 Disclaimer

EXCEPT AS PROVIDED IN SECTION 3.5 OR OTHERWISE EXPRESSLY CONTEMPLATED BY THIS AGREEMENT, SELLER HEREBY EXPRESSLY DISCLAIMS ANY WARRANTY, EXPRESS OR IMPLIED, IN RESPECT OF OIL DELIVERED UNDER ANY PHYSICAL OIL TRANSACTION INCLUDING WITHOUT LIMITATION, ANY WARRANTY IN RESPECT OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE.

3.7 Exemptions

The Contracting Party and Exchange shall cooperate in obtaining any exemption from or reduction of any Oil Tax, GST or other tax imposed by applicable legislation and regulation, subject to Section 7.1 of the Terms and Conditions.

4. **FORCE MAJEURE**

4.1 Additional Definitions

For the purposes of this Article 4, capitalized words and phrases defined below apply, with their derived variations having corresponding meanings:

- (a) "Base Forecast" means, with respect to a delivery month, the last forecast by the operator of a Single Source Supply Stream issued prior to the Notice of Shipment Date for that delivery month of the volume of Oil to be available for shipment from that Single Source Supply Stream during that delivery month;
- (b) "Force Majeure" means, subject to Section 4.2, the occurrence of a Force Majeure Event that constitutes a Major System Disruption and prevents a party from delivering or taking Oil in accordance with this Agreement;
- (c) "Force Majeure Event" means any event that is within the following exclusive list of events: earthquakes, floods and landslides; civil disturbances, sabotage, acts of public enemies, war, blockades, insurrections and riots; epidemics; acts of God; acts of any government or other authority or statutory undertaking including, without limitation, any adoption of, or any change in, any Regulation; an inability to obtain or a curtailment of electric power, water or fuel; strikes, lockouts or other labour disruptions; fires and explosions; breakdowns or failures of pipe, plant, machinery or equipment, and contamination or poisoning of catalyst and/or solvent or biological treatment facilities; other events recognized as events of "force majeure" by Transmission Systems; and Transmission System service reductions of general application to shippers announced following the commencement of the applicable delivery month;
- (d) "Major System Disruption" means any Force Majeure Event that Exchange, acting reasonably, determines:
 - (i) has or will have a material, adverse affect on the ability, generally, of Buyers and Sellers to deliver or take Oil at a particular Delivery Point; or
 - (ii) results in the production, processing or delivery of Oil from a Single Source Supply Stream in volumes less than those set forth in the Base Forecast for a particular delivery month;
- (e) "Notice of Shipment" means the document customarily filed by a shipper with the operator of a Transportation System identifying all receipts, transfers and dispositions relating to the shipper's movements of Oil during a specific delivery month;
- (f) "Notice of Shipment Date" means, with respect to a delivery month, the due date and time generally accepted by industry for the filing of initial Notice of Shipment for such delivery month;
- (g) "Revised Forecast" means, with respect to a delivery month, a revision of the Base Forecast for that delivery month issued by the operator of a Single Source Supply Stream;

- (h) "Single Source Supply Stream" means a source of Oil designated as such by Exchange pursuant to Section 4.6(a); and
- (i) "Syncrude Project" means the project currently operated by Syncrude Canada Ltd. for the mining, extraction and upgrading of bitumen from the Athabasca oil sands, including, without limitation, the plant and facilities of Syncrude Canada Ltd. located at Mildred Lake, Alberta and any current or future expansions thereof.

4.2 Exclusions from Force Majeure

For further certainty, Force Majeure does not include:

- (a) a reduction of Transportation System service applicable to a delivery month that has not yet begun (such as apportionment);
- (b) a lack of financial resources or an inability to pay; or
- (c) any change in market conditions that would cause the performance of a Physical Oil Transaction to be unprofitable or less economically attractive.

4.3 Limitations on Force Majeure

Force Majeure shall excuse a Failure to Deliver or a Failure to Take only to the extent that the party seeking to rely on it:

- (a) has not, by its negligence or lack of commercially reasonable due diligence or mitigation, contributed to the Failure to Deliver or Failure to Take or its continuation;
- (b) has performed its obligations under the affected Physical Oil Transaction prior to performing under any third party swing sale or purchase agreements on the upstream or downstream Transportation System, as applicable; and
- (c) has allocated its remaining oil supply or markets arrangements at the affected Delivery Point on a pro rata basis among all of its delivery obligations or market obligations at the affected Delivery Point, as applicable, giving priority to all firm obligations over swing obligations, with all Physical Oil Transactions being firm obligations.

Nothing in Section 4.3(a) shall be construed as obligating a party to settle strikes, lockouts or other labour disruptions contrary to its wishes.

4.4 Notice of Force Majeure Event

A Contracting Party wishing to seek relief from its obligation to deliver or to take all or any portion of the Contract Quantity under a Physical Oil Transaction on the basis of Force Majeure shall give notice to Exchange of the occurrence of the applicable Force Majeure Event as soon as is reasonably practicable and, in any event, within three (3) Business Days of the occurrence of that Force Majeure Event. Such notice shall state in reasonable detail the nature of the Force Majeure Event, the expected duration of the effects of the Force Majeure Event and the volumes of Oil anticipated to be affected thereby. Exchange shall, as soon as is reasonably practicable after receipt from a Contracting Party of notice of the occurrence of a Force Majeure Event:

- (a) determine if a Major System Disruption is or is likely to occur and, accordingly, whether Force Majeure applies in the circumstances; and

- (b) promptly notify the Contracting Party giving such notice and any other affected Contracting Party of such determination.

4.5 Effect of Force Majeure

To the extent that a Failure to Deliver or Failure to Take is caused by Force Majeure:

- (a) the non-performing party shall not be considered (for that reason alone) to have caused a Default;
- (b) the parties shall have no obligations to deliver or take the affected volumes of Oil or to extend the affected Physical Oil Transaction; and
- (c) each party shall be liable for its own losses, damages, costs and expenses and all claims, demands, actions and causes of action arising therefrom suffered in connection with the Force Majeure.

4.6 Single Source Supply Stream

- (a) Exchange hereby designates the Syncrude Project as a Single Source Supply Stream. In addition, Exchange, acting reasonably, may from time to time designate other fields, projects, facilities, gathering systems, pipelines or other sources of Oil as a Single Source Supply Stream. Any designation of a source of Oil as a Single Source Supply Stream by Exchange pursuant to this Section 4.6(a) may be revoked at any time by Exchange. Notwithstanding the foregoing, no designation of a source of Oil as a Single Source Supply Stream or the revocation of such designation shall apply to a Physical Oil Transaction entered into prior to the making of the designation or the revocation thereof, as the case may be.
- (b) Where Force Majeure applies in respect of the delivery of Oil from a Single Source Supply Stream, Exchange shall upon receipt of the Revised Forecast for that Single Source Supply Stream determine, acting reasonably, the maximum amount by which Contract Quantities under Physical Oil Transactions for the delivery of Oil to Exchange from that Single Source Supply Stream may be reduced during the applicable portion of the Delivery Period to which the Revised Forecast relates, such reduction to be calculated as the percentage difference (expressed as a positive number) between the volumes specified in the Base Forecast and the volumes specified in the Revised Forecast ("Cut Back Portion"). In such circumstances, Seller under a Physical Oil Transaction for the delivery to Exchange of Oil from the affected Single Source Supply Stream may, subject to the limitations set out in Section 4.3, elect by notice to Exchange to reduce the Contract Quantity to be delivered during the applicable portion of the Delivery Period by an amount not exceeding the Cut Back Portion ("Revised Contract Quantity"). If the operator of the Single Source Supply Stream issues one or more further Revised Forecasts, Exchange shall in each such case determine, acting reasonably, the maximum amount by which Contract Quantities under Physical Oil Transactions for the delivery of Oil to Exchange from that Single Source Supply Stream may be further reduced during the applicable portion of the Delivery Period to which such Revised Forecast relates, such further reduction to be calculated as the percentage difference (expressed as a positive number) between the volumes specified in the Revised Forecast and the volumes specified in the immediately preceding Revised Forecast ("Incremental Cutback Portion"). In each such case, Seller under a Physical Oil Transaction for the delivery of Oil to Exchange from that Single Source Supply Stream may, subject to the limitations set forth in Section 4.3, elect by notice to Exchange to reduce the Revised Contract Quantity to be delivered during the applicable portion of the Delivery Period by a further amount not exceeding the Incremental Cutback Portion. For greater certainty, no such election shall have the effect of reinstating Seller's right to deliver Contract Quantities

reduced by virtue of one or more prior elections made by Seller pursuant to this Section 4.6(b).

- (c) If, as a result of the occurrence of a Force Majeure Event or additional Force Majeure Events, curtailment of the delivery of Oil from a Single Source Supply Stream extends to one or more delivery months during a Delivery Period subsequent to the delivery month in which a Force Majeure Event first occurred, the process set forth in Section 4.6(b) for determining the Cut Back Portion, Incremental Cut Back Portions and Revised Contract Quantities for each such subsequent delivery month during the Delivery Period shall apply.
- (d) Revised Contract Quantities determined by Exchange in accordance with Section 4.6(b) shall be evidenced in the revised Notice of Shipment documents provided by Exchange to the applicable Transportation System.
- (e) To the extent that the provisions of this Section 4.6 conflict with any other provisions of this Article 4, the provisions of this Section 4.6 shall govern and prevail.

4.7 Termination for Continuing Force Majeure

Should Force Majeure remain in effect for 30 or more days, either Exchange or Contracting Party may, at its discretion, give notice to the other party to terminate the affected Physical Oil Transaction, such termination to be effective 30 days after notice of termination was given by the terminating party.

4.8 Disputing the Occurrence of Force Majeure

Within 31 days of receipt of a notice given by Exchange pursuant to Section 4.4, a party affected thereby may in good faith dispute the validity of the determination made by Exchange thereunder by giving notice to Exchange stating in reasonable detail the reasons for the dispute and requesting the matter in dispute be referred to Arbitration in accordance with Schedule "B".

4.9 Extended Definition of Force Majeure

Notwithstanding anything express or implied in this Article 4 to the contrary, Force Majeure validly invoked by a Contracting Party shall constitute Force Majeure with respect to Exchange's obligations to other Contracting Parties under the applicable corresponding Physical Oil Transactions. In such circumstances, Exchange shall not be obligated pursuant to Section 4.3(c) to allocate its remaining oil supply and market arrangements on a pro rata basis, but shall allocate the full amount of the reduction in the delivery or take obligations caused by such Force Majeure suffered by a Contracting Party to Exchange's obligations to other Contracting Parties under the applicable corresponding Physical Oil Transactions.

5. Linked Deals, Time Trades and Matching of Offers

5.1 Linked Deals

A Contracting Party may enter Physical Oil Transactions as Linked Deals with the same or a different Delivery Point for each of the proposed linked Physical Oil Transactions, as long as one or more of the following variable contractual terms of each of the Physical Oil Transactions is different: Crude Type, Delivery Period, Contract Quantity or Contract Price.

(January 18, 2010)

5.2 Time Trades

A Time Trade consists of a simultaneous offer to purchase and sell Oil by a Contracting Party whereby the Delivery Point and the total monthly volume (barrels per month) are the same but the Delivery Periods are different. The contract price for a Time Trade is to be selected by the Contracting Party from the price options menu on the Oil Trading Platform and will be the same for both the offer to purchase and the offer to sell forming part of the Time Trade.

(January 18, 2010)

5.3 All or Nothing Designation

Other than with respect to Linked Deals, Cushing Exchanges or Time Trades, the "All or Nothing" designation on the Oil Trading Platform must be selected by a Contracting Party if it wishes to purchase or sell only the full quantity of the amount offered by such Contracting Party. Otherwise, such offer to purchase or sell Oil shall be matched with a corresponding offer to sell or purchase Oil notwithstanding that the proposed Contract Quantities are not the same, and the proposed Contract Quantity for the matched offers shall be the lesser of the two Contract Quantities. In such circumstance and in the event that a Contracting Party's matched Contract Quantity is less than the Contract Quantity offered to be bought or sold by the Contracting Party, the Contracting Party's offer shall remain in effect in accordance with its terms with respect to the residual Contract Quantity.

(January 18, 2010)

5.4 Entering Linked Deals, Cushing Exchanges and Time Trades

There shall be no matching of offers to purchase or sell Oil pursuant to Linked Deals, Cushing Exchanges, or Time Trades. A Contracting Party wishing to enter such Physical Oil Transactions with respect to any such offer created by another Contracting Party (as electronically displayed on the Oil Trading Platform) may do so by utilizing the "System Hit" function on the Oil Trading Platform.

APPENDIX 1 TO SCHEDULE "H"

CANADIAN TRADING SPECIFICATIONS

1. Physical Oil Trading Specifications may be revised by Exchange from time to time in accordance with this Agreement. Accordingly, for purposes of entering Physical Oil Transactions, the Physical Oil Trading Specifications electronically displayed on the NGX Trading System shall govern.
2. In addition to the definitions in Section 1.2 of the Terms and Conditions, Schedule "D", Schedule "E" and this Schedule "H", the capitalized words and phrases that are defined below have application only to Canadian Instruments, with their derived variations having corresponding meanings.
 - (a) "Adjusted Sales Price" means, with respect to a Physical Oil Transaction, the Contract Price for such transaction adjusted in accordance with these Physical Oil Trading Specifications to produce the actual proceeds of sale for the applicable Physical Oil Transaction;
 - (b) "Canadian Instruments" means Canadian domiciled Physical Oil Transactions;

 - (e) "Forecast Reporting Calendar" is defined in Section 10(hh) of Schedule "E";
 - (f) "Full Index Calculation Period" means, with respect to a delivery month, the period commencing on the first Trading Day of each calendar month immediately prior to the delivery month and ending on the Trading Day on which the Contract Expiry Time for that delivery month occurs;
 - (g) "Notice of Shipment Date" means, with respect to a delivery month, the due date and time for initial notice of shipments for such delivery month as stated from time to time in the Forecast Reporting Calendar;
 - (h) "OTP Full Index" is defined in Section 10(xx) of Schedule "E";
 - (i) "OTP Index" is defined in Section 10(yy) of Schedule "E";
 - (j) "OTP Index Guide" is defined in Section 10(zz) of Schedule "E";
 - (k) "OTP Posting Index (Full)" or "XpF" is defined in Section 10(bbb) of Schedule "E";
 - (l) "OTP WTI Index (Full)" or "XtiF" is defined in Section 10(ddd) of Schedule "E";
 - (m) "Shorted Party" means the Contracting Party or Exchange, as applicable, that has or will receive Oil quantities from the other party that are less than the requirements under any single Linked Deal or Time Trade, due to Force Majeure; and
 - (n) "Shorted Quantity" means the quantity shortfall of Oil that was required to be delivered by the other party under any single Linked Deal or Time Trade, due to Force Majeure.

Words and phrases not defined in this Agreement, Schedule "D", Schedule "E" or this Schedule "H" (other than Appendix 2 hereto) that have an accepted meaning in the custom and usage of the western Canadian petroleum industry, shall have that meaning.

4. The Oil Trading Platform requires that the Delivery Period (referred to as Month or Term on the Oil Trading Platform) be completed by selecting from amongst various specific delivery months and multiple month terms as shown on the Oil Trading Platform.
5. The Oil Trading Platform requires that Contract Quantities (referred to as "Volume" on the Oil Trading Platform) be entered in increments of 100m³ with a minimum of 100m³ for each Physical Oil Transaction.
6. The Contract Price for each Physical Oil Transaction must be entered on the Oil Trading Platform either as a "Fixed Price" or as an "Index Price" (these price options are referred to as "Price Types" on the Oil Trading Platform).
7. Fixed Prices must be entered in \$U.S. per barrel in increments of \$U.S.0.01. Several pricing options are available for Index Prices under either a posting option, a WTI Index option, or an OTP Index option; in each case a differential (referred to as "Diff" on the Oil Trading Platform) may be entered on the Oil Trading Platform in \$U.S. per barrel in increments of \$U.S.0.01.
8. Available posting options are customized for the applicable Crude Type (see Table I) and include both monthly averages of individual postings and unweighted averages of groups of postings in Canadian Dollars per cubic metre, plus/minus a differential in \$U.S. per barrel. The abbreviations for the posters as follows:

BP or B	--	BP Canada Energy Trading Company Ltd.
Cenovus or C	--	Cenovus Crude Oil Marketing
Flint or F	--	Flint Hills Resources Ltd.
Husky or H	--	Husky Oil Limited
IOL or I	--	Imperial Oil Limited
Shell or Sh	--	Shell Canada Limited
Sun or Su	--	Suncor Inc.

Available WTI Index options refer to CMA settlement prices for the applicable delivery months (see Table I) in \$U.S. per barrel, plus/minus a differential in \$U.S. per barrel. Such WTI Index options are indicated in Table I by "WTI" in the "Systems Price Abbr." column of such table.

Available OTP Index options for the applicable Crude Type (see Table 1) refer to an OTP Index price. OTP Index prices may be quoted on either an applicable postings option or a WTI Index option (see OTP Index Guide for calculation methodology).

OTP Full Index pricing options are only available for pricing Off-Exchange Transactions.

(April 19, 2010)

9. All pricing options described above are subject to equalization as described below.
10. Unless the Contracting Party selects the "All or Nothing" designation for a Physical Oil Transaction, a Physical Oil Transaction may occur notwithstanding that the proposed Contract Quantities are not the same. The "All or Nothing" designation prevents a Physical Oil Transaction from occurring if it has been selected by the party that has proposed the greater of the proposed Contract Quantities.
11. The Force Majeure provisions as specified in Article 4 of Schedule "H" shall be applicable to Canadian Instruments except for Linked Deals or Time Trades. In the event that quantity imbalances occur as a result of a Force Majeure event on a Linked Deal or Time Trade, the Shorted Party shall have the following remedies available and shall use commercial reasonable efforts to rectify these imbalances.
 - (a) For Time Trades, the Shorted Party may elect to reduce the Contract Quantity to be delivered by the Shorted Party by an amount equal to the Shorted Quantity ("Offset Quantity"). For Linked Deals the Shorted Party may elect to reduce the Contract Quantity to be delivered by the percentage equal to the Shorted Quantity divided by the original Contract Quantity to be received by the Shorted Party ("Proportional Offset Quantity"). The Offset Quantities and Proportional Offset Quantities will thereafter be deemed to become, and will be recognized as, Force Majeure quantities as contemplated in Article 4 of Schedule "H".
 - (b) In the event the Shorted Quantity is known prior to the 25th of the month immediately preceding the applicable delivery month of the Delivery Period, the Shorted Party can elect to take the Shorted Quantities in the month immediately following the applicable delivery month of the Delivery Period.
 - (c) In the event the Shorted Quantity is not confirmed until or after the 25th of the month immediately preceding the applicable delivery month of the Delivery Period, the Shorted Party can elect to take the Shorted Quantities in the delivery month that is two months following the applicable delivery month of the Delivery Period.
 - (d) In the event that options (b) and (c) above are not commercially feasible, the Shorted Party may require the other party to deliver to the Shorted Party, as soon as practicable, the Crude Type as delivered by the Shorted Party under the subject Physical Oil Transaction, in an amount equal to the Offset Quantity or Proportional Offset Quantity as applicable.

All remedial transactions above will take place using the same Physical Oil Trading Specifications and terms as contemplated in the subject Physical Oil Confirmation, except as specifically provided for above.

12. The following governs when Table I indicates that equalization is applicable.
 - (a) The Contract Price under each posting option is a base price applicable to the Delivery Point and Crude Type selected, whose reference quality is stipulated by the posters. The Contract Price under each WTI Index and Fixed Price option is a base price applicable to

the quality of a common stream as specified in Table I (e.g. Enbridge MSW, Enbridge SHE). To arrive at the Adjusted Sales Price, the Contract Price shall therefore be adjusted to reflect a quality equalization, in accordance with the procedures set out by the Equalization Steering Committee established by the Canadian Association of Petroleum Producers, or any successor thereto. See Table I for stream quality adjustments. "WADF" refers to the most recent available weighted average differential factor published by the applicable Transportation System for the Crude Type.

- (b) No adjustments shall be made for transportation differentials, except as outlined in Table I below.
 - (c) All necessary conversions of volumes of Oil shall be made at standard reference conditions at 6.29287 barrels per cubic metre except for heavy oil (i.e. LLK, LLB, BR, WCB, and WH), which shall be at 6.2898105 barrels per cubic metre.
 - (d) The Adjusted Sales Price for the volume of Oil delivered shall be paid in Canadian currency. All such conversions of currency shall be calculated to the nearest cent using the average of the Bank of Canada daily noon exchange spot rates (to four decimal places) for the appropriate period.
13. The net amount indicated on each Invoice shall be due on or before the applicable Physical Settlement Date.
14. All payments shall be made in immediately payable funds in Canadian currency by wire transfer or in such other manner as the parties may agree.

APPENDIX 2 TO SCHEDULE "H"

UNITED STATES TRADING SPECIFICATIONS

1. Physical Oil Trading Specifications may be revised by Exchange from time to time in accordance with this Agreement. Accordingly, for purposes of entering Physical Oil Transactions, the Physical Oil Trading Specifications electronically displayed on the NGX Trading System shall govern.
2. In addition to the definitions in Section 1.2 of the Terms and Conditions, Schedule "D", Schedule "E" and this Schedule "H", the capitalized words and phrases that are defined below have application only to U.S. Instruments, with their derived variations having corresponding meanings.
 - (a) "Argus" means the publications and industry pricing references as provided by Argus Media Ltd.;
 - (b) "Shorted Party" means the Contracting Party or Exchange, as applicable, that has or will receive Oil quantity from the Counterparty that are less than the requirements under any single Linked Deal, Cushing Exchange or Time Trade, due to Force Majeure;
 - (c) "Shorted Quantity" means the quantity shortfall of Oil that was required to be delivered by the other party under any single Linked Deal, Cushing Exchange or Time Trade, due to Force Majeure;
 - (d) "U.S. Instruments" means United States domiciled Physical Oil Transactions; and
 - (e) "U.S. Provider" is defined in Section 10(qqq) of Schedule "E".

Words and phrases are not defined in this Agreement, Schedule "D", Schedule "E" or this Schedule "H" (other than Appendix 1 hereto) that have an accepted meaning in the custom and usage of the United States petroleum industry, shall have that meaning.

3. Table I below sets out the U.S. Instruments/Crude Type that are available on the NGX Trading System. Each Crude Type has three components that must be selected to enter a Physical Oil Transaction:
 - (a) Delivery Point;
 - (b) Transportation Systems; and
 - (c) Crude Type.

The abbreviations used in Table I below are as follows:

(a) Delivery Point	
Clovelly or CLV-	in the Louisiana Offshore Oil Port ("LOOP") storage facility
Cushing or CSH-	in the terminal storage facilities
Midland or MID-	in the terminal storage facilities
St James or STJ-	at the Capline receipt point as documented by Oil Distribution Services ("ODS")

Houma or HMA- at the Shell Transportation System receipt point as documented by ODS

(b) **Transportation Systems**

Capline Pipeline
Enbridge Terminal
Louisiana Offshore Oil Port
Shell Pipeline
Teppco Terminal

(c) **Crude Type**

Product Code	Product
WTI	West Texas Intermediate
WTS	West Texas Sour
LLS	Light Louisiana Sweet
DSW	Domestic Sweet
MAR	Mars
WCS	Western Canadian Select Heavy
POS	Poseidon
EUG	Eugene Island

All Crude Types transacted are of common stream quality and meet the specification established by the corresponding Transportation System.

4. The Oil Trading Platform requires that the Delivery Period (referred to as Month or Term on the Oil Trading Platform) be completed by selecting from amongst various specific delivery months and multiple month terms as shown on the Oil Trading Platform.
5. The Oil Trading Platform requires that Contract Quantities (referred to as "Volume" on the Oil Trading Platform) be entered in increments of 100 barrels per day ("bpd") with a minimum of 100 bpd for each Physical Oil Transaction.
6. The Contract Price for each Physical Oil Transaction must be entered on the Oil Trading Platform either as a "Fixed Price" or as an "Index Price" (these price options are referred to as "Price Types" on the Oil Trading Platform).
7. Fixed Prices must be entered in \$U.S. per barrel in increments of \$U.S.0.01. Several options are available for Index Prices under either a posting option or a WTI Index option; in each case a differential (referred to as "Diff" on the Oil Trading Platform) may be entered on the Oil Trading Platform in \$U.S. per barrel in increments of \$U.S.0.01.
8. Available posting options for individual company 40 degree reference price for WTI crude oil with a differential in \$U.S. per barrel are as follows:

"Argus Average" is the arithmetic average of the daily mid point quote by Argus for the prompt delivery month trading for that specific grade and location.

In the event the mid point of the daily quote is shown as \$U.S.0.005 then the value will be rounded up to the nearest cent.

The abbreviations for the posters as follows:

ConPhil or CP	--	ConocoPhillips
ARG	--	Petroleum Argus Americas Crude Report

Available WTI Index options are:

CMA settlement prices for the applicable delivery months (see Table I below) in \$U.S. per barrel, plus/minus a differential in \$U.S. per barrel as specified when entering the Physical Oil Transaction; and

DNS settlement price is the closing daily settlement price for the U.S. Provider as at the date of the Physical Oil Transaction, plus/minus a differential in \$U.S. per barrel as specified when entering the Physical Oil Transaction.

Such WTI Index options are indicated in Table I below by "CMA" or "DNS" in the "System Price Abbr." column of such table.

All Physical Oil Transactions entered into on a DNS price basis during a Trading Day when the U.S. Provider is closed (for any reason) will be settled using corresponding U.S. Provider values on the most immediate prior trading day of the U.S. Provider.

9. Unless the Contracting Party selects the "All or Nothing" designation for a Physical Oil Transaction, a Physical Oil Transaction may occur notwithstanding that the proposed Contract Quantities are not the same. The "All or Nothing" designation prevents a Physical Oil Transaction from occurring if it has been selected by the party that has proposed the greater of the proposed Contract Quantities.
10. All Cushing Exchanges entered into imply an equal quantity of Domestic Sweet ("DSW") crude oil at Cushing in the Teppco terminal. The price indices selected from the price options menu for these transactions will be the same for both the delivery and receipt of the Crude Types. The differential quoted against the indices will adjust for location and quality differences for the exchanged Crude Type.
11. Where available, Cushing Exchanges allow Buyers and Sellers to transact simultaneously at one of the eligible locations ("Exchange Locations") shown in Table I and Cushing. Cushing Exchanges will be available for trading on the Oil Trading Platform on each Trading Day for all Physical Oil Products indicated in Table I.
 - (a) The Buyer of the Cushing Exchange will have entered into a Physical Oil Transaction for receipt of the Contract Quantity at Cushing;
 - (b) The Buyer of the Cushing Exchange will have entered into a Physical Oil Transaction for the delivery of the Contract Quantity at the Exchange Location;
 - (c) The Seller of the Cushing Exchange will have entered into a Physical Oil Transaction for delivery of the Contract Quantity at Cushing;

- (d) The Seller of the Cushing Exchange will have entered into a Physical Oil Transaction for receipt of the Contract Quantity at the Exchange Location;
 - (e) The Settlement Price for the Cushing Exchange will be the Contract Prices (fixed price differential) as agreed; and
 - (f) All other Obligations will be as outlined in this Appendix 2 and this Agreement.
12. The Force Majeure provisions as specified in Article 4 of Schedule "H" shall be applicable to U.S. Instruments except as follows: Linked Deals, Cushing Exchanges or Time Trades. In the event that quantity imbalances occur as a result of a Force Majeure event on a Linked Deal, Cushing Exchange or Time Trade, the Shorted Party shall have the following remedies available and shall use commercial reasonable efforts to rectify these imbalances:
- (a) For Cushing Exchanges and Time Trades, the Shorted Party may elect to reduce the Contract Quantity to be delivered by the Shorted Party by an amount equal to the Shorted Quantity ("Offset Quantity"). For Linked Deals the Shorted Party may elect to reduce the Contract Quantity to be delivered by the percentage equal to the Shorted Quantity divided by the original Contract Quantity to be received by the Shorted Party ("Proportional Offset Quantity"). The Offset Quantities and Proportional Offset Quantities will thereafter be deemed to become, and will be recognized as, Force Majeure quantities as contemplated in Article 4 of Schedule "H".
 - (b) In the event the Shorted Quantities are known prior to the 20th of the month immediately preceding the applicable delivery month of the Delivery Period, the Shorted Party can elect to take the Shorted Quantities in the month immediately following the applicable delivery month of the Delivery Period;
 - (c) In the event the Shorted Quantity are not confirmed until or after the 20th of the month immediately preceding the applicable delivery month of the Delivery Period, the Shorted Party can elect to take the Shorted Quantities in the delivery month that is two months following the applicable delivery month of the Delivery Period;
 - (d) In the event that options (b) and (c) above are not commercially feasible, the Shorted Party may require the other party to deliver to the Shorted Party, as soon as practicable, the Crude Type as delivered by the Shorted Party under the subject Physical Oil Transaction, in an amount equal to the Offset Quantity or Proportional Offset Quantity as applicable.
- All remedial transactions above will take place using the same Physical Oil Trading Specifications and terms as contemplated in the subject Physical Oil Confirmation, except as specifically provided for above.
13. The net amount indicated on each Invoice shall be due on or before the applicable Physical Settlement Date.
14. All payments shall be made in immediately payable funds in United States currency by wire transfer or in such other manner as the parties may agree.
15. Delivery months begin at 7:00 a.m. on the first day of the calendar month and end at 7:00 a.m. on the first day of the following calendar month.

1. QUALIFICATION, ACCESS AND ENABLING

- a. Sections 2.3 and 2.5 of the Terms and Conditions and Sections 5(a), 5(b) and 5(c) of Schedule C apply to a Contracting Party executing a Bilateral Transaction. A Contracting Party will be activated on the NGX Trading System by Exchange after all pre-requisite requirements have been satisfied under Sections 5(a), 5(b) and 5(c) of Schedule C.
- b. Exchange will provide the Contracting Party with access to the NGX Trading System for such periods on each Business Day that Bilateral Products are available for trading, as may be designated by notice to the Contracting Parties from time to time, and may provide access on non-Business Days for trading in some or all Bilateral Products.
- c. A Contracting Party that:
 - i. has been enabled by its Administrator on the NGX Trading System for the minimum number of Contracting Parties and has been enabled by the minimum number of Contracting Parties on the NGX Trading System for bilateral trading, such minimum number being determined by Exchange in its sole discretion from time to time, may post bids and offers and accept posted bids and offers in Bilateral Products; or
 - ii. has not been enabled by its Administrator on the NGX Trading System for the minimum number of Contracting Parties and/or has not been enabled by the minimum number of Contracting Parties on the NGX Trading System for bilateral trading may only accept posted bids and offers in Bilateral Products that are posted by those Contracting Parties it has been enabled to enter into Bilateral Transactions with.

2. CONFIRMATIONS

Exchange agrees to electronically deliver a confirmation as soon as reasonably possible after entering into a Bilateral Transaction. Delivery of such confirmation for Bilateral Transactions in oil Bilateral Products shall be via email or facsimile to the Contracting Party. Delivery of confirmation for Bilateral Transactions in natural gas Bilateral Products shall be via an electronic notification available on the ICE Trading Platform.

3. CANCELLED BILATERAL TRANSACTIONS

In the event that a Contracting Party has entered into a Bilateral Transaction in error, Exchange will not cancel the Bilateral Transaction in error until such time that Exchange has been notified that both Contracting Parties to the Bilateral Transaction in error have consented to the cancellation of the Bilateral Transaction in error. If such consent cannot be reached by both Contracting Parties to the Bilateral Transaction by the earlier of: (i) 120 minutes following the entering of the Bilateral Transaction; or (ii) 60 minutes following the close of trading on the NGX Trading System on the Trading Day on which the Bilateral Transaction was entered, the Bilateral Transaction will continue in full force and effect.

4. INVOICES

- a. Notwithstanding any other provision of this Agreement, Exchange will post on Exchange's Website for sole access by the Contracting Party (or will provide the Contracting Party, upon request with) an Invoice on or before the 15th day of each calendar month for physical gas Bilateral Transactions during the prior calendar month and before the Physical Settlement Date for

physical oil Bilateral Transactions during the prior calendar month, setting forth any amounts payable for fees to Exchange and any amounts payable on account of GST.

- b. Subject to any amount hereunder becoming due and payable at an earlier time pursuant to the provisions hereof, the amount of the Invoice owed by the Contracting Party to Exchange will be due and payable on the Physical Settlement Date. In determining the net amounts payable or receivable on each Invoice by the Contracting Party, Exchange will Set-off the amounts payable or receivable in the same currency. The Contracting Party will be obligated to pay or entitled to receive only such net amounts. On the Physical Settlement Date, Exchange will not remit any amounts payable from Exchange to the Contracting Party until all amounts payable from the Contracting Party to Exchange have been received by Exchange. Any items on any Invoice disputed by any Contracting Party will be noted to Exchange at least five Business Days prior to the Physical Settlement Date with respect to physical gas Bilateral Transactions and prior to the Physical Settlement Date with respect to physical Oil Bilateral Transactions. Payments by the Contracting Party will be made payable to Exchange and may be made by wire payment or electronic funds transfer. The Contracting Party shall notify Exchange of its banking information and represents and warrants that the information provided to Exchange is accurate and current. Exchange is entitled to accept this information via email or facsimile. Late payments will bear interest after the due date at the Default Rate to and including the date of payment to Exchange of all such amounts. Interest will be payable only on the amount of any Invoice remaining unpaid from time to time.
- c. The Contracting Party and Exchange agree that any Invoice payable on any Physical Settlement Date with respect to a Bilateral Transaction will be final and binding, absent manifest error, for all purposes 120 days after such Physical Settlement Date unless the Contracting Party has then advised Exchange of any error in, or dispute in respect of, such Invoice.
