Re: Rule Certification. New York Mercantile Exchange, Inc. Correction to Submission #08.66R: Notification of Corrections to Previously Submitted Amendments to NYMEX Rules 150.07A and 191.07A, Special Price Fluctuation Limits.

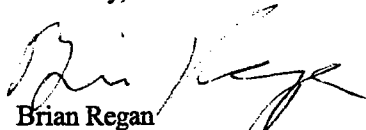

Dear Mr. Stawick:

The New York Mercantile Exchange, Inc. ("NYMEX" or "Exchange") is notifying the Commodity Futures Trading Commission ("CFTC" or "Commission") that it is re-submitting rule certification # 08.66 in order to correct inadvertent oversights identified in the submission. This amended submission corrects Rules 150.07A and 191.07A by changing references from "per barrel" to "per gallon", hereby making it consistent with the rest of Chapters 150 and 191. Other amendments previously certified remain unchanged.

Pursuant to Section 5c(c) of the Commodity Exchange Act ("Act") and CFTC Rule 40.6, the Exchange hereby certifies that the attached rule corrections to rule certification #08.66, which was previously submitted on June 11, 2008, complies with the Act, including regulations under the Act. All original amendments to Rules 200.06A, 220.08A and 230.07A remain unchanged. These corrections to Rules 150.07A and 191.07A will be made effective on November 4, 2008.

Should you have any questions concerning the above, please contact Thomas F. LaSala, Chief Regulatory Officer, at (212) 299-2897, or the undersigned at (212) 299-2207.

Sincerely,

Brian Regan
Senior Vice President and Counsel

**NOTIFICATION OF AMENDMENTS TO NYMEX RULES 150.07A, 191.07A, 200.06A,
220.08A, and 230.07A**

Rules 200.06A, 220.08A and 230.07 remain unchanged from original self-certification sent on June 11, 2008.

(Deletions are in bold strikethrough; additions are in bold underline)

Rule 191.07A, Special Price Fluctuation Limits for New York Harbor Gasoline Blendstock (RBOB) Futures Contract

(A) Initial Price Fluctuation Limits for All Contract Months. At the commencement of each trading day, there shall be price fluctuation limits in effect for each contract month of this futures contract of \$.25 per gallon above or below the previous day's settlement price for such contract month.

(B)(1) Triggering Event and Temporary Trading Halt Related to Trading on the Trading Floor (Pit Trading). If a market for any contract month is traded, or is bid in the case of upward price moves or is offered in the case of downward price moves, for five (5) minutes consecutively at the upper or lower price limit, as applicable, then a Triggering Event will be deemed to have occurred.

(2) Except as otherwise provided in this rule, as a result of such Triggering Event, the market will be given notice immediately that the market will be halted immediately for a five (5) minute temporary trading halt in all contract months of that futures contract, the associated option contract and related futures contracts listed for trading on the NYMEX ClearPort® Trading platform ("Temporary Trading Halt").

(3) Expansion of Limits Following Temporary Trading Halt. Following the end of the 5-minute Temporary Trading Halt, the market shall reopen simultaneously in all contract months of this futures contract. When trading resumes, price fluctuation limits for each contract month shall be expanded to \$.50 per gallon above and below the previous day's settlement price for such contract month. In addition, price fluctuation limits also shall be expanded at that time for all other floor-traded NYMEX Division energy futures (except for Natural Gas and Liquefied Propane Gas futures) as if a trading halt had occurred in such other contracts, notwithstanding that the Temporary Trading Halt occurred only for New York Harbor Unleaded and/or Leaded Gasoline futures contracts.

(4) With the exception of the final fifteen minutes of the Regular Trading Hours session, in each instance in which a Triggering Event occurs, a Temporary Trading Halt will commence as provided by subsections

(1)-(3) above, and following each such Temporary Trading Halt, price fluctuation limits for each contract month shall be expanded by an additional \$.25 per gallon above and below the previous day's settlement price for such contract month.

(5) Accordingly, in the event that price fluctuation limits are expanded on the Trading Floor (Pit Trading), the expanded price fluctuation limits shall also be put into effect on Globex®.

(C) Application of Price Fluctuation Limits to Globex®

(1) The limits described in Section (A) of this rule shall apply to trading on NYMEX Globex®.

(2) Triggering Event and Temporary Trading Halt Related to Trading on Globex®.

If a market for any contract month is traded at the upper or lower price limit, as applicable, on Globex®, it will be considered a Triggering Event which will halt trading for a five (5) minute period in all contract months of that futures contract.

(3) Expansion of Limits Following Temporary Trading Halt. Following the end of the 5-minute Temporary Trading Halt, the market shall reopen simultaneously in all contract months of this futures contract. When trading resumes, price fluctuation limits for each contract month shall be expanded to \$.50 per ~~barrel~~ gallon above and below the previous day's settlement price for such contract month. In addition, when trading resumes after the five (5) minute trading halt in this futures contract, price fluctuation limits also shall be expanded at that time for all other NYMEX Division energy futures listed on Globex® (except for Natural Gas and Liquefied Propane Gas futures) as if a trading halt had occurred in such other contracts on Globex®, notwithstanding that the Temporary Trading Halt occurred only for this futures contract.

(4) With the exception of the final fifteen minutes of the Regular Trading Hours session, in each instance in which a Triggering Event occurs, a Temporary Trading Halt will commence as provided by Sub-Sections (2)-(3) above, and following each such Temporary Trading Halt, price fluctuation limits for each contract month shall be expanded by an additional \$.25 per ~~barrel~~ gallon above and below the previous day's settlement price for such contract month.

(5) Accordingly, in the event that price fluctuation limits are expanded during a Globex® trading session, the expanded price fluctuation limits shall also be put into effect on the Trading Floor (Pit Trading).

(D) Final Fifteen Minutes of the Regular Trading Hours Session. Regardless of any prior action concerning price limits during the trading session, commencing fifteen (15) minutes before the close of

the Regular Trading Hours session, there shall be no price fluctuation limits on any contract month in this contract and accordingly no further trading halts may occur for the remainder of the trading session. The trading ranges applicable to post-close and end of week trading sessions shall be governed by the provisions of NYMEX Rules 6.57 or 6.57A, as applicable.

(E) Trading Venues (Trading Floor and Globex®) are Independent.

(1) For purposes of this rule, Triggering Events and Temporary Trading Halts shall not cross trading venues. A Triggering Event on the Trading Floor (Pit Trading) will NOT constitute a Triggering Event and subsequently halt trading on Globex®. Similarly, a Triggering Event on Globex® will NOT constitute a Triggering Event on the Trading Floor (Pit Trading). However, as cited previously, expansions of limits resulting in one trading venue will be applied to the other trading venue.

(F) Exception for Last Trading Day of an Expiring Contract Month.

(1) Notwithstanding the preceding sections of this rule, there shall be no limitations on price fluctuations for any contract month of the New York Harbor Gasoline Blendstock (RBOB) Futures Contract during the Floor Trading (Pit Trading) or Globex® sessions of the final trading day in the current delivery month.

Rule 150.07A, Special Price Fluctuation Limits for New York Harbor No. 2 Heating Oil

(A) Initial Price Fluctuation Limits for All Contract Months. At the commencement of each trading day, there shall be price fluctuation limits in effect for each contract month of this futures contract of \$.25 per gallon above or below the previous day's settlement price for such contract month.

(B)(1) Triggering Event and Temporary Trading Halt Related to Trading on the Trading Floor (Pit Trading). If a market for any contract month is traded, or is bid in the case of upward price moves or is offered in the case of downward price moves, for five (5) minutes consecutively at the upper or lower price limit, as applicable, then a Triggering Event will be deemed to have occurred.

(2) Except as otherwise provided in this rule, as a result of such Triggering Event, the market will be given notice immediately that the market will be halted immediately for a five (5) minute temporary trading halt in all contract months of that futures contract, the associated option contract and related futures contracts listed for trading on the NYMEX ClearPort® Trading platform ("Temporary Trading Halt").

(3) Expansion of Limits Following Temporary Trading Halt. Following the end of the 5-minute Temporary Trading Halt, the market shall reopen simultaneously in all contract months of this futures contract. When trading resumes, price fluctuation limits for each contract month, shall be expanded to \$.50 per gallon above and below the previous day's settlement price for such contract month. In addition, price fluctuation limits also shall be expanded at that time for all other floor-traded NYMEX Division energy futures (except for Natural Gas and Liquefied Propane Gas futures) as if a trading halt had occurred in such other contracts, notwithstanding that the Temporary Trading Halt occurred only for New York Harbor Heating Oil futures contracts.

(4) With the exception of the final fifteen minutes of the Regular Trading Hours session, in each instance in which a Triggering Event occurs, a Temporary Trading Halt will commence as provided by subsections (1)-(3) above, and following each such Temporary Trading Halt, price fluctuation limits for each contract month shall be expanded by an additional \$.25 per gallon above and below the previous day's settlement price for such contract month.

(5) Accordingly, in the event that price fluctuation limits are expanded on the Trading Floor (Pit Trading), the expanded price fluctuation limits shall also be put into effect on Globex®.

(C) Application of Price Fluctuation Limits to Globex®

(1) The limits described in Section (A) of this rule shall apply to trading on Globex®.

(2) Triggering Event and Temporary Trading Halt Related to Trading on Globex®.

If a market for any contract month is traded at the upper or lower price limit, as applicable, on Globex®, it will be considered a Triggering Event which will halt trading for a five (5) minute period in all contract months of that futures contract.

(3) Expansion of Limits Following Temporary Trading Halt. Following the end of the 5-minute Temporary Trading Halt, the market shall reopen simultaneously in all contract months of this futures contract. When trading resumes, price fluctuation limits for each contract month shall be expanded to \$.50 per barrel **gallon** above and below the previous day's settlement price for such contract month. In addition, when trading resumes after the five (5) minute trading halt in this futures contract, price fluctuation limits also shall be expanded at that time for all other NYMEX Division energy futures listed on Globex® (except for Natural Gas and Liquefied Propane Gas futures) as if a trading halt had occurred in such other contracts on Globex®, notwithstanding that the Temporary Trading Halt occurred only for this futures contract.

(4) With the exception of the final fifteen minutes of the Regular Trading Hours session, in each instance in which a Triggering Event occurs, a Temporary Trading Halt will commence as provided by Sub-Sections (2)-(3) above, and following each such Temporary Trading Halt, price fluctuation limits for each contract month shall be expanded by an additional \$.25 per barrel **gallon** above and below the previous day's settlement price for such contract month.

(5) Accordingly, in the event that price fluctuation limits are expanded during a Globex® trading session, the expanded price fluctuation limits shall also be put into effect on the Trading Floor (Pit Trading).

(D) Final Fifteen Minutes of the Regular Trading Hours Session. Regardless of any prior action concerning price limits during the trading session, commencing fifteen (15) minutes before the close of the Regular Trading Hours session, there shall be no price fluctuation limits on any contract month in this contract and accordingly no further trading halts may occur for the remainder of the trading session. The trading ranges applicable to post-close and end of week trading sessions shall be governed by the provisions of NYMEX Rules 6.57 or 6.57A, as applicable.

(E) Trading Venues (Trading Floor and Globex®) are Independent.

(1) For purposes of this rule, Triggering Events and Temporary Trading Halts shall not cross trading venues. A Triggering Event on the Trading Floor (Pit Trading) will NOT constitute a Triggering Event and subsequently halt trading on Globex®. Similarly, a Triggering Event on Globex® will NOT constitute a

Triggering Event on the Trading Floor (Pit Trading). However, as cited previously, expansions of limits resulting in one trading venue will be applied to the other trading venue.

(F) Exception for Last Trading Day of an Expiring Contract Month.

(1) Notwithstanding the preceding sections of this rule, there shall be no limitations on price fluctuations for any contract month of the New York Harbor Heating Oil futures contract during the Floor Trading (Pit Trading) or Globex® sessions of the final trading day in the current delivery month.
