Submission No. 13-130  
December 27, 2013

Ms. Melissa Jurgens  
Secretary of the Commission  
Office of the Secretariat  
Commodity Futures Trading Commission  
Three Lafayette Centre  
1155 21<sup>st</sup> Street, NW  
Washington, DC 20581

**Re: Amendments to Appendix 2 of Chapter 18 – Energy Position Limits**  
**Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6(a)**

Dear Ms. Jurgens:

Pursuant to Commodity Futures Trading Commission (“CFTC” or “Commission”) Regulation 40.6(a), ICE Futures U.S., Inc. (“Exchange”) self certifies amendments to Resolution No. 2 of Chapter 18, which increase the spot month position limits and the single and all month accountability levels for certain Power futures and options contracts to match levels that are currently being offered by a competing designated contract market, as set forth in Exhibit A.

In a submission filed with the CFTC on September 30, 2013, the Nodal Exchange (“Nodal”) listed numerous Power futures and options that are nearly identical in all respects to the Power futures and options listed by the Exchange. The only notable difference between the terms and conditions of corresponding Power contracts listed by both Nodal and the Exchange are the spot month position limits and the position accountability levels. In order to match the levels set by Nodal, the Exchange is amending Resolution No. 2 of Chapter 18 to increase the spot month position limits and accountability levels for a number of corresponding Power futures and options contracts. The methodology for the limit and accountability level increases is as follows:

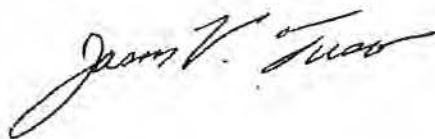

- Spot month position limits are being increased for Power futures and options where Nodal has a higher corresponding spot month position limit;
- The single month accountability level for a contract is being increased to match the level of Nodal’s spot month position limit if Nodal’s spot month limit is greater than the current ICE Futures U.S. single month accountability level for such contract.

- The all-months combined accountability level for a contract is being increased to match Nodal's single month accountability level if Nodal's single month accountability level is greater than the current ICE Futures U.S. all-months combined level for such contract

The Exchange certifies that the amendments to Resolution No. 2 of Chapter 18 comply with the requirements of the CEA and the rules and regulations promulgated by the Commission thereunder. The spot-month speculative position limits for the Power futures and options contracts are being increased to levels currently in place at a competing exchange for corresponding contracts. The Exchange further certifies that, concurrent with this filing, a copy of this submission was posted on the Exchange's website and may be accessed at (<https://www.theice.com/notices/RegulatoryFilings.shtml>). The Exchange is not aware of any substantive opposing views to the amendments, which will become effective on January 14, 2014.

If you have any questions or need further information, please contact the undersigned at 212-748-4021 or ([jason.fusco@theice.com](mailto:jason.fusco@theice.com)).

Sincerely,

Jason V. Fusco  
Assistant General Counsel  
Market Regulation
